

TABLE OF CONTENTS

Foreword/ James T. Staley	ix
Preface/ Joseph Seckbach and Aharon Oren	xv
List of Authors and Their Addresses	xix

PART 1: THE NATURE OF MICROBIAL MATS

What Are Microbial Mats? [Gerdies, G.].....	5
Paper from Outer Space – On “Meteorpaper” and Microbial Mats [Oren, A.]	29

PART 2: MICROBIAL MATS IN THE GEOLOGICAL RECORD

Microbial Mats on the Early Earth: The Archean Rock Record [Walsh, M.M.].....	43
Gunflint Chert Microbiota Revisited – Neither Stromatolites, Nor Cyanobacteria [Krumbein, W.E.].....	55
Paleoenvironmental Context of Microbial Mat-Related Structures in Siliciclastic Rocks [Eriksson, P.G. et al.].....	73
Microbially Related Structures in Siliciclastic Sediment Resembling Ediacaran Fossils: Examples from India, Ancient and Modern [Banerjee, S. et al.].....	111
Osmotrophic Biofilms: From Modern to Ancient [Brasier, M.D. et al.].....	133
Microbial Mats as a Source of Biosignatures [Chacón, E.].....	151
Molecular Investigations and Experimental Manipulations of Microbial Mats: A View to Paleomicrobial Ecosystems [Green, S.J. and Jahnke, L.L.].....	185
Architecture of Archaeal-Dominated Microbial Mats from Cold Seeps in the Black Sea (Dnjepr Canyon, Lower Crimean Shelf) [Reitner, J.].....	209

PART 3: MARINE, FRESHWATER, AND SOIL BIOFILMS

Biodynamics of Modern Marine Stromatolites [Paterson, D.M. et al.]	225
Entophysalis Mats as Environmental Regulators [Golubic, S. and Abed, R.M.M.].....	239
Diversity and Role of Cyanobacteria and Aerobic Heterotrophic Microorganisms in Carbon Cycling in Arid Cyanobacterial Mats [Abed, R.M.M. et al.]	255
Ooid Accreting Diatom Communities from the Modern Marine Stromatolites at Highborne Cay, Bahamas [Franks, J. et al.].....	277
Exopolymers (Extracellular Polymeric Substances) in Diatom-Dominated Marine Sediment Biofilms [Underwood, G.J.C.]	289
Microbial Mats from Wind Flats of the Southern Baltic Sea [Heyl, K. et al.]	303
Diazotrophic Microbial Mats [Severin, I. and Stal, L.J.]	323
Architectures of Biocomplexity: Lichen-Dominated Soil Crusts and Mats [Grube, M. et al.]	343
Iron and Bacterial Biofilm Development [Avidan, O. et al.].....	361

PART 4: MICROBIAL MATS IN EXTREME ENVIRONMENTS

Mats of Filamentous and Unicellular Cyanobacteria in Hypersaline Environments [Oren, A.].....	389
Marine Hypersaline <i>Microcoleus</i> -Dominated Cyanobacterial Mats in the Saltern at Guerrero Negro, Baja California Sur, Mexico: A System-Level Perspective [Des Marais, D.J.]	403
Environmental Dynamics, Community Structure and Function in a Hypersaline Microbial Mat [Paerl, H.W. and Yannarell, A.C.]	423
Biogeochemistry of Carbon Cycling in Hypersaline Mats: Linking the Present to the Past through Biosignatures [Visscher, P.T. et al.].....	445
Phototrophic Biofilms from Río Tinto, an Extreme Acidic Environment, the Prokaryotic Component [Aguilera, A. et al.].....	471
Fluvial Bedform Generation by Biofilm Activity in the Berrocal Segment of Río Tinto: Acidic Biofilms and Sedimentation [Fernández-Remolar, D.C. et al.]	485
Cyanobacterial Mats of the Meltwater Ponds on the McMurdo Ice Shelf (Antarctica) [Jungblut, A.D. and Neilan, B.A.]	501

Diversity and Ecology of Cyanobacterial Microflora of Antarctic Seepage Habitats: Comparison of King George Island, Shetland Islands, and James Ross Island, NW Weddell Sea, Antarctica [Komárek, O. and Komárek, J.].....	517
--	-----

PART 5: MICROBIAL MATS AND ASTROBIOLOGY

Microbial Mats in Antarctica as Models for the Search of Life on the Jovian Moon Europa [Dudeja, S. et al.]	545
Past, Present, and Future: Microbial Mats as Models for Astrobiological Research [Foster, J.S. and Mobberley, J.M.].....	565

PART 6: OUTLOOK AND SUMMARY

Summary and Conclusions [Seckbach, J. et al.]	585
Organism Index	591
Subject Index	597
Author Index	605

Microbial Mats

Modern and Ancient Microorganisms in Stratified
Systems

Seckbach, J.; Oren, A. (Eds.)

2010, XXVI, 606 p., Hardcover

ISBN: 978-90-481-3798-5
