

Contents

- 1** **Introductory Synopsis**
 - 1.1 Cosmological Riddles 2
 - 1.1.1 Chirality 2
 - 1.1.2 Self-similarity 3
 - 1.1.3 Dark Matter 4
 - 1.1.4 Singularities 5
 - 1.2 Authority in Science 5
 - 1.3 Geometry and Number 7
 - 1.4 Physical Theory 9
 - 1.4.1 Special Relativity 9
 - 1.4.2 General Relativity 11
 - 1.4.3 Quantum Theory 15
 - 1.5 Chemical Cosmology 16
 - 1.6 Projective Relativity 18
 - 1.7 References 22
- 2** **History**
 - 2.1 Introduction 23
 - 2.1.1 A Heliocentric Model 25
 - 2.2 The Almagest 27
 - 2.3 Medieval Cosmology 28
 - 2.3.1 Johannes Kepler 30
 - 2.3.2 Galileo 32
 - 2.4 The Mechanical Universe 34
 - 2.4.1 Descartes 34
 - 2.4.2 Newton 35
 - 2.5 Cosmic Evolution 39
 - 2.6 An Expanding Universe 43
 - 2.7 References 46

3 World Geometry

3.1	Affine Geometry	48
3.1.1	Affine Lattices	52
3.2	Projective Geometry	54
3.2.1	Projective Space	57
3.2.2	Barycentric Coordinates	58
3.2.3	Linear Transformation	59
3.2.4	Projective Coordinates	60
3.2.5	Theorems of Projective Geometry	61
3.2.6	Projectivity	64
3.2.7	Quadrangular Sets	68
3.2.8	Involution	70
3.2.9	Conics	71
3.2.10	Collineation and Correlation	73
3.2.11	The Algebra of Points	74
3.3	Complex Geometry	78
3.4	Topology	79
3.4.1	Connectivity	84
3.4.2	Fixed Points	84
3.5	Golden Geometry	85
3.5.1	The Fibonacci Series	86
3.5.2	Self-similarity	87
3.5.3	The Golden Spiral	87
3.5.4	Platonic Solids	88
3.6	Differential Geometry	90
3.6.1	Tensor Analysis	93
3.6.2	Riemannian Geometry	97
3.7	References	100

4 Physical Evidence

4.1	Special Relativity	102
4.2	General Relativity	110
4.3	Unified Fields	113
4.3.1	The Gauge Principle	113
4.3.2	Kaluza–Klein Theory	116
4.3.3	Einstein’s Alternatives	117
4.4	Quantum Theory	119
4.4.1	The Seminal Ideas	119
4.4.2	The Planetary Model	120
4.4.3	Wave Mechanics	122
4.4.4	Bohmian Mechanics	126

4.4.5	Antimatter	129
4.5	The Vacuum	130
4.5.1	Interaction Theory	132
4.6	Astrophysics	136
4.6.1	Spectroscopy	136
4.6.2	Cosmic Rays	137
4.6.3	Radio Galaxies	138
4.6.4	Quasars	139
4.7	References	141
5	Chemical Evidence	
5.1	Chemistry and Cosmology	143
5.2	Periodicity	146
5.2.1	Cosmic Implications	154
5.2.2	Chemical Redshifts	155
5.3	Self-Similarity	157
5.3.1	The Solar System	158
5.3.2	Universal Symmetry	163
5.3.3	Quantized Redshifts	165
5.4	Nucleogenesis	167
5.4.1	The Alternative Models	167
5.4.2	The New Λ CDM Model	174
5.4.3	The Periodic Model	176
5.4.4	Nuclear Abundance	178
5.5	References	180
6	Standard Cosmology	
6.1	Solution of the Field Equations	184
6.1.1	The Black Hole	185
6.2	Einstein's Universe	186
6.3	De Sitter's Solution	189
6.4	Friedmann's Generalization	191
6.5	Mach's Principle	193
6.6	The Expanding Universe	194
6.6.1	Galactic Redshifts and Hubble's Law	195
6.7	The Big Bang	197
6.7.1	Particle Physics	208
6.7.2	Big-bang Nucleogenesis	209
6.7.3	Microwave Background	211
6.7.4	Inflation	213
6.7.5	Cosmological Constant	214

6.7.6	Anti-matter	217
6.7.7	Dark Matter	217
6.7.8	The Anthropic Principle	219
6.8	State of the Art	221
6.9	References	224
7	Relativistic Cosmology	
7.1	Induced-Matter Theory	229
7.2	A Rotating Universe	230
7.2.1	The Cosmological Model	234
7.2.2	Chronometric Redshifts	235
7.3	Projective Relativity	238
7.4	The Steady State	241
7.4.1	Universal Self Similarity	242
7.5	References	244
8	Reasoned Alternatives	
8.1	Alternative Perspectives	247
8.1.1	Quantum Potential in the Vacuum	247
8.1.2	The Vacuum Interface	252
8.1.3	Cosmic Dispersal of Matter	253
8.1.4	Quasars and Radio Sources	258
8.1.5	Redshifts Revisited	261
8.1.6	Hubble's Constant	271
8.1.7	The Distance Scale	272
8.1.8	Quasar Redshifts	274
8.2	Alternative Cosmologies	275
8.2.1	Size of the Cosmos	276
8.2.2	Plasma Cosmology	278
8.2.3	The Self-Similar Cosmological Model	280
8.2.4	Population III Cosmology	283
8.2.5	Conclusion	284
8.3	References	285
9	The Big Picture	
9.1	Introduction	289
9.2	Magic, Religion and Science	290
9.2.1	The Babylonian World	292
9.2.2	The Modern World	293
9.3	The Natural World	300
9.3.1	Space-Time	300

9.3.2 The Vacuum 302

9.3.3 The Periodicity of Atomic Matter 303

9.3.4 The Topology of Space-Time 304

9.3.5 Mathematical Model 306

9.3.6 Cosmic Self-similarity 308

9.3.7 The Physical World 309

9.4 A Man-sized Universe 310

9.5 References 314

A Projective Relativity Theory

B The Gauge Principle

C Abstracts

C.1 Introductory Synopsis 401

C.2 History 401

C.3 World Geometry 402

C.4 Physical Evidence 402

C.5 Chemical Evidence 403

C.6 Standard Cosmology 404

C.7 Relativistic Cosmology 405

C.8 Reasoned Alternatives 405

C.9 The Big Picture 406
