

# Contents

<b>Strategies and Roadmaps to Meet Grid Challenges for Safety and Reliability</b> . . . . .	1
Vahid Madani and Roger L. King	
<b>Optimal Maintenance Policies for Power Equipment</b> . . . . .	13
George J. Anders	
<b>Mathematical and Physical Properties of Reliability Models in View of their Application to Modern Power System Components</b> . . . . .	59
Elio Chiodo and Giovanni Mazzanti	
<b>Adequacy Assessment of Wind-Integrated Composite Generation and Transmission Systems</b> . . . . .	141
Roy Billinton, Yi Gao, Dange Huang and Rajesh Karki	
<b>Strategic Lines and Substations in an Electric Power Network</b> . . . . .	169
Alvaro Torres and George J. Anders	
<b>Transmission Expansion Planning: A Methodology to Include Security Criteria and Uncertainties Using Optimization Techniques</b> . . . . .	191
Armando M. Leite da Silva, Leandro S. Rezende and Luiz Antônio F. Manso	
<b>The Economic Evaluation of System Security Criterion in a Competitive Market Environment</b> . . . . .	221
Teoman Güler, George Gross, Eugene Litvinov and Ron Coutu	
<b>Probabilistic Transient Stability Assessment and On-Line Bayes Estimation</b> . . . . .	259
Elio Chiodo and Davide Lauria	

<b>Updating System Representation by Trajectory Acquisition in a Dynamic Security Framework. . . . .</b>	<b>313</b>
Sergio Bruno and Massimo La Scala	
<b>Reliable Algorithms for Power Flow Analysis in the Presence of Data Uncertainties. . . . .</b>	<b>329</b>
A. Dimitrovski, K. Tomsovic and A. Vaccaro	
<b>Index . . . . .</b>	<b>359</b>

Innovations in Power Systems Reliability

Anders, G.; Vaccaro, A. (Eds.)

2011, XVI, 364 p., Hardcover

ISBN: 978-0-85729-087-8
