

Contents

1	The Historical Development of Ideas About the Auditory Cortex	1
	Edward G. Jones	
2	A Profile of Auditory Forebrain Connections and Circuits	41
	Jeffery A. Winer	
3	Thalamocortical Relations	75
	Matthew I. Banks and Philip H. Smith	
4	Auditory Cortical Organization: Evidence for Functional Streams	99
	Josef P. Rauschecker and Lizabeth M. Romanski	
5	The Commissural Auditory System	117
	Troy A. Hackett and Dennis P. Phillips	
6	Intrinsic Connections of the Auditory Cortex	133
	Mark N. Wallace and Jufang He	
7	A Synthesis of Auditory Cortical Connections: Thalamocortical, Commissural and Corticocortical Systems	147
	Charles C. Lee and Jeffery A. Winer	
8	Auditory Cortical Projections to the Medial Geniculate Body	171
	Hisayuki Ojima and Eric M. Rouiller	
9	Descending Connections of Auditory Cortex to the Midbrain and Brain Stem	189
	Manuel S. Malmierca and David K. Ryugo	
10	Neurochemical Organization of the Medial Geniculate Body and Auditory Cortex	209
	Jeffery A. Winer	
11	Synaptic Integration in Auditory Cortex	235
	Michael Wehr and Raju Metherate	
12	Physiological Properties of Neurons in the Medial Geniculate Body	251
	Jean-Marc Edeline	
13	Spectral Processing in Auditory Cortex	275
	Christoph E. Schreiner, Robert C. Froemke, and Craig A. Atencio	
14	Temporal Coding in Auditory Cortex	309
	Jos J. Eggermont and Xiaoqin Wang	
15	Cortical Representation of Auditory Space	329
	Andrew J. King and John C. Middlebrooks	

16	Communication Sounds and their Cortical Representation	343
	Jagmeet S. Kanwal and Günter Ehret	
17	A Semantic Concept of Auditory Cortex Function and Learning	369
	Henning Scheich and Frank W. Ohl	
18	Functional Specialization in Primary and Non-primary Auditory Cortex . .	389
	Stephen G. Lomber and Amee J. McMillan	
19	The Evolution of Auditory Cortex: The Core Areas	407
	Jon H. Kaas	
20	The Avian Auditory Pallium	429
	Taffeta M. Elliott and Frédéric E. Theunissen	
21	Development of the Auditory Cortex	443
	Andrej Kral and Sarah L. Pallas	
22	Reconceptualizing the Primary Auditory Cortex: Learning, Memory and Specific Plasticity	465
	Norman M. Weinberger	
23	Cortical Effects of Aging and Hearing Loss	493
	Julie R. Mendelson and Ramesh Rajan	
24	Corticofugal Modulation and Plasticity for Auditory Signal Processing . . .	513
	Nobuo Suga	
25	Auditory Evoked Potentials and Their Utility in the Assessment of Complex Sound Processing	535
	Mitchell Steinschneider, Catherine Liégeois-Chauvel, and John F. Brugge	
26	Auditory Memories and Feedback Processing for Vocal Learning	561
	Ana Amador and Daniel Margoliash	
27	Population Dynamics in Auditory Cortex: Optical Imaging	577
	Hubert R. Dinse and Junsei Horikawa	
28	From Tones to Speech: Magnetoencephalographic Studies	597
	Bernd Lütkenhöner and David Poeppel	
29	The Relationship of Auditory Cortical Activity to Perception and Behavior	617
	Mitchell L. Sutter and Shihab A. Shamma	
30	Processing Strategies in Auditory Cortex: Comparison with Other Sensory Modalities	643
	Israel Nelken and Mike B. Calford	
31	Cortical Speech and Music Processes Revealed by Functional Neuroimaging	657
	Robert J. Zatorre and Marc Schönwiesner	
32	Toward a Synthesis of Cellular Auditory Forebrain Functional Organization	679
	Jeffery A. Winer and Christoph E. Schreiner	
Index	687
