

Contents

1	Biosystematics of <i>Biomphalaria</i> spp. with an Emphasis on <i>Biomphalaria glabrata</i>	1
	Philippe Jarne, Jena-Pierre Pointier, and Patrice David	
2	Laboratory Rearing of <i>Biomphalaria glabrata</i> Snails and Maintenance of Larval Schistosomes In Vivo and In Vitro	33
	L.K. Eveland and M.A. Haseeb	
3	<i>Biomphalaria</i>: Natural History, Ecology and Schistosome Transmission	57
	David Rollinson	
4	Studies of <i>Biomphalaria</i> Snails Infected with Larval Trematodes Using Chromatography and Atomic Spectrometry	81
	Joseph Sherma and Bernard Fried	
5	Effects of Larval Schistosomes on <i>Biomphalaria</i> Snails	103
	Judith Humphries	
6	Effects of Nonschistosome Larval Trematodes on <i>Biomphalaria</i> Snails	127
	Jose-Guillermo Esteban, Carla Muñoz-Antoli, Maria Trelis, and Rafael Toledo	
7	Immunobiology of <i>Biomphalaria</i>–Trematode Interactions	159
	Timothy P. Yoshino and Christine Coustau	
8	Advances in the Genomics and Proteomics of the Freshwater Intermediate Snail Host of <i>Schistosoma mansoni</i>, <i>Biomphalaria glabrata</i>	191
	Wannaporn Ittiprasert, Jocelyn Myers, Edwin C. Odoemelam, Nithya Raghavan, Fred Lewis, Joanna M. Bridger, and Matty Knight	

**9 The Biological Control of the Snail Hosts of Schistosomes:
The Role of Competitor Snails and Biological Invasions 215**
Jean-Pierre Pointier, Patrice David, and Philippe Jarne

Index 239
