

Contents

1 Application of Probabilistic Safety Analysis in Design and Maintenance of the ABWR	1
Masahiko Fujii, Shinichi Morooka,, and Hideaki Heki	
2 The Advanced Accumulator: A New Passive ECCS Component of the APWR.....	31
Tadashi Shiraishi	
3 Severe Accident Mitigation Features of APR1400.....	85
Sang-Baik Kim and Seung-Jong Oh	
4 Development and Design of the EPRTM Core Catcher	119
Dietmar Bittermann and Manfred Fischer	
5 Nuclear Power Development and Severe Accident Research in China	143
Xu Cheng	
6 Full MOX Core Design of the Ohma ABWR Nuclear Power Plant	177
Akira Nishimura	
7 CFD Analysis Applications in BWR Reactor System Design.....	199
Yuichiro Yoshimoto and Shiro Takahashi	
8 Next Generation Technologies in the Digital I&C Systems for Nuclear Power Plants	223
Tatsuyuki Maekawa and Toshifumi Hayashi	

9	Advanced 3D-CAD and Its Application to State-of-the-Art Construction Technologies in ABWR Plant Projects	251
	Junichi Kawahata	
10	Progress in Seismic Design and Evaluation of Nuclear Power Plants	265
	Shohei Motohashi	
	Index.....	289

Advances in Light Water Reactor Technologies

Saito, T.; Yamashita, J.; Ishiwatari, Y.; Oka, Y. (Eds.)

2011, XIV, 295 p., Hardcover

ISBN: 978-1-4419-7100-5
