<i>Preface</i> . . . . .	<i>v</i>
<i>Acknowledgments</i> . . . . .	<i>xiii</i>

SECTION I

1. Introduction . . . . .	3
Knowledge-Based Diagnosis . . . . .	4
Systematic Examination of the Lymph Node . . . . .	7
Cell Type Identification . . . . .	9
Cell Size and Cellularity . . . . .	9
Immunohistology . . . . .	10
Cytological Preparations . . . . .	11
The Pattern Approach to Diagnosis . . . . .	14
Selected Reading . . . . .	18
2. Handling of the Lymph Node Biopsy . . . . .	19
Introduction . . . . .	19
The Biopsy . . . . .	19
Lymph Node Triage . . . . .	20
3. Immunohistology and Other Diagnostic Techniques . . . . .	23
Introduction . . . . .	23
Immunohistology . . . . .	24
B Cell Markers . . . . .	26
T Cell Markers . . . . .	33
Natural Killer and T/NK Cell Markers . . . . .	38
Precursor B- and T Cell Markers . . . . .	38
Monocyte/ Macrophage Markers . . . . .	39
Langerhans Cell, Follicular Dendritic Cell, and Interdigitating Dendritic Reticulum Cell Markers . . . . .	41
Markers of Reed–Sternberg Cells in Hodgkin Lymphoma . . . . .	42
Miscellaneous Markers . . . . .	45
Myeloid Cell Markers . . . . .	46
Mast Cell Markers . . . . .	47
Diagnostic Approach with Immunohistochemical Stains . . . . .	47
Staining for Follicular Dendritic Cells . . . . .	47
Immunohistological Identification of Diffuse Lymphoid Infiltrates . . . . .	49
Histochemical Stains . . . . .	51
Flow Cytometry . . . . .	53
Molecular Diagnostics . . . . .	57
Detection of Clonality . . . . .	57
Immunoglobulin Heavy- and Light-Chain Genes . . . . .	57
T Cell Receptor Chain Genes . . . . .	58

Genotype Subgroups . . . . .	59
Conventional Cytogenetics . . . . .	60
Fluorescence In Situ Hybridization (FISH) . . . . .	60
Southern Blot Analysis . . . . .	60
Polymerase Chain Reaction (PCR) . . . . .	60
Gene Expression Profiling . . . . .	61
4. Anatomical and Functional Compartments . . . . .	63
B Cell Differentiation and Corresponding B Cell Lymphomas . . . . .	64
The Cortex . . . . .	64
The Lymphoid Follicle . . . . .	64
T Cell Differentiation . . . . .	69
The Paracortex . . . . .	73
High-Endothelial Venules . . . . .	79
Medullary Area . . . . .	79
Connective Tissue Framework . . . . .	80
SECTION II	
5. Nodular Lymphoid Infiltrates . . . . .	83
Follicular Pattern . . . . .	84
Neoplastic Follicles . . . . .	85
Follicular Lymphoma (FL) . . . . .	85
Follicular Hyperplasia Versus Follicular Lymphoma . . . . .	91
Other Follicular Patterns . . . . .	97
Mantle Pattern . . . . .	100
Mantle Cell Lymphoma . . . . .	100
Marginal Zone Pattern . . . . .	105
Nodal Marginal Zone Lymphoma (Monocytoid B Cell Lymphoma) . . . . .	107
Nodular Pattern . . . . .	111
Heterogenous Nodules . . . . .	111
Pseudofollicular Pattern . . . . .	111
Hodgkin Lymphoma (HL) . . . . .	112
Classical Hodgkin Lymphoma (CHL) . . . . .	116
Post-transplant Lymphoproliferative Disorders . . . . .	127
Colonization of Follicles by Neoplastic Cells . . . . .	131
Homogenous Nodules . . . . .	132
Reactive Hyperplasia . . . . .	134
Follicular and Paracortical Hyperplasia . . . . .	136
Non-specific Follicular Hyperplasia . . . . .	137
Progressive Transformation of Germinal Centers (PTGC) . . . . .	137
Rheumatoid Lymphadenopathy . . . . .	138
Toxoplasma Lymphadenopathy . . . . .	139
Human Immunodeficiency Virus/Acquired Immunodeficiency Disease Syndrome (HIV/AIDS) Lymphadenitis . . . . .	142
Kimura Disease . . . . .	144
Castleman Disease . . . . .	145
Syphilis Lymphadenopathy . . . . .	151
Kikuchi Disease . . . . .	153

Systemic Lupus Erythematosus . . . . .	157
Infectious Mononucleosis Lymphadenopathy . . . . .	158
Other Viral Lymphadenopathies . . . . .	161
Paracortical Nodules/Expansion . . . . .	165
Dermatopathic Lymphadenopathy (DL) . . . . .	165
Drug-Induced Lymphadenopathy . . . . .	166
The Diagnostic Approach to Nodular Infiltrates in Lymph Nodes . . . . .	167
Are They Follicles or Nodules? . . . . .	168
Are the Follicles Reactive or Neoplastic? . . . . .	168
Are Follicles Infrequent and “Constricted”? . . . . .	168
Are the Follicles Exceptionally Large? . . . . .	169
Do the Enlarged Germinal Centers Contain Atypical Cells? . . . . .	169
Are the Nodules Homogenous or Heterogenous in Composition? . . . . .	169
Homogenous Nodules . . . . .	169
Heterogenous Nodules . . . . .	169
If There Is Marked Follicular Hyperplasia, Can a Specific Diagnosis Be Made? . . . . .	170
Do the Vague Nodules Represent Paracortical Nodules? . . . . .	171
6. Diffuse Lymphoid Infiltrations . . . . .	175
B Cell Neoplasms . . . . .	176
Chronic Lymphocytic Leukemia/Small Lymphocytic Lymphoma (CLL/SLL) . . . . .	176
Lymphoplasmacytic Lymphoma (LPL) . . . . .	186
Diffuse Large B Cell Lymphoma (DLBCL) . . . . .	194
Clinical Subtypes . . . . .	207
Burkitt Lymphoma . . . . .	212
B Cell Lymphoma, Unclassifiable, with Features Intermediate Between DLBCL and BL . . . . .	217
Nodal Involvement by Primary Extranodal Lymphomas and Leukemias . . . . .	218
T Cell and NK Cell Neoplasms . . . . .	218
T-Lymphoblastic Leukemia/Lymphoma (Precursor T Cell Lymphoblastic Leukemia/Lymphoma) . . . . .	219
Peripheral T Cell Lymphoma, Not Otherwise Specified (PTCL-NOS) . . . . .	223
Angioimmunoblastic T Cell Lymphoma . . . . .	229
Anaplastic Large Cell Lymphoma (ALCL), ALK-Positive . . . . .	238
Immunohistology . . . . .	244
Anaplastic Large Cell Lymphoma, ALK-Negative . . . . .	249
Adult T Cell Leukemia/Lymphoma . . . . .	250
Nodal Involvement by the Cutaneous T Cell Lymphomas . . . . .	255
Histiocytic and Dendritic Neoplasms . . . . .	260
Histiocytic Sarcoma . . . . .	262
Langerhans Cell Histiocytosis . . . . .	268
Interdigitating Dendritic Cell (IDC) Sarcoma . . . . .	272
Follicular Dendritic Cell (FDC) Sarcoma . . . . .	275
Hodgkin Lymphoma . . . . .	278
Diagnostic Approach to Diffuse Infiltrates in lymph Nodes . . . . .	279
Is the Infiltrate Truly Diffuse? . . . . .	279
Does the Diffuse Infiltrate Involve the Node Partially or Completely? . . . . .	280
Is the Infiltrate Monomorphous or Polymorphous? Are the Cells Small or Large? . . . . .	281

7.	Defining Microscopic Features . . . . .	287
	Granulomas and Foam Cells . . . . .	287
	Infective Granulomatous Lymphadenitis . . . . .	287
	Mycotic Lymphadenitis . . . . .	294
	Protozoan and Parasitic Lymphadenitides . . . . .	300
	Non-infective Granulomatous Lymphadenitis . . . . .	301
	Granulomas, Non-necrotizing . . . . .	304
	Foreign Body and Lipid Granulomatous Lymphadenitis . . . . .	307
	Lipid Lymphadenopathy . . . . .	310
	Sinus Pattern . . . . .	313
	Sinus Histiocytosis . . . . .	314
	Rosai–Dorfman Disease (Sinus Histiocytosis with Massive Lymphadenopathy) . . . . .	316
	Necrosis, Apoptosis, and Infarction . . . . .	317
	Clear Cells . . . . .	319
	Mast Cell Disease . . . . .	320
	Hairy Cell Leukemia . . . . .	321
	Spindled Cells . . . . .	324
	Inflammatory Myofibroblastic Tumor . . . . .	325
	Palisaded Myofibroblastoma . . . . .	325
	Kaposi Sarcoma . . . . .	327
	Vascular Prominence . . . . .	330
	Bacillary Angiomatosis . . . . .	331
	Vascular Transformation of Lymph Node Sinuses . . . . .	331
	Hemorrhage . . . . .	333
	Starry Sky Pattern . . . . .	334
	Mottled Pattern . . . . .	334
	Fibrosis/Hyalinization . . . . .	335
	Signet Ring Cells . . . . .	336
	Bizarre or Multinucleated Cells . . . . .	337
	Extramedullary Hematopoiesis . . . . .	337
	Prominent Eosinophils . . . . .	337
	Prominent Neutrophils . . . . .	338
	Prominent Plasma Cells . . . . .	339
	Infiltration of Pericapsular Fat . . . . .	339
	Extraneous Cells – Pigmented Cells, Epithelial Cells, Foreign Material, Dermatopathic Lymphadenitis, Hemosiderin . . . . .	340
	Inclusions of Benign Extraneous Cells . . . . .	340
8.	Nodal Involvement by Leukemias and Extranodal Lymphomas . . . . .	345
	Nodal Involvement by Leukemia . . . . .	345
	Myeloid Leukemia/Myeloid Sarcoma . . . . .	345
	Primary Myelofibrosis . . . . .	346
	B and T Cell Prolymphocytic Leukemias . . . . .	348
	NK Cell Lymphoproliferative Disorders . . . . .	350
	Nodal Involvement by Extranodal Lymphomas . . . . .	351
	Splenic B Cell Marginal Zone Lymphoma . . . . .	352
	Hairy Cell Leukemia (HCL) . . . . .	353
	Heavy-Chain Disease . . . . .	354

Plasma Cell Neoplasms . . . . .	355
Mucosa-Associated Lymphoid Tissue (MALT) Lymphoma . . . . .	356
Primary Cutaneous Diffuse Large B Cell Lymphoma (DLBCL) – Leg Type . . . . .	358
Lymphomatoid Granulomatosis . . . . .	359
Extranodal NK/T Cell Lymphoma – Nasal Type . . . . .	359
Blastic Plasmacytoid Dendritic Cell Neoplasm . . . . .	361
EBV-Associated T Cell Lymphoproliferative Disorders . . . . .	363
EBV-Positive T Cell Lymphoproliferative Disorders of Childhood . . . . .	363
9. Needle Core Biopsies and Aspirates . . . . .	367
Needle Core Biopsies . . . . .	367
Advantages of Needle Core Biopsies . . . . .	367
Disadvantages of Needle Core Biopsies . . . . .	368
Handling of Needle Core Biopsies . . . . .	368
Diagnostic Approach to Needle Core Biopsies of Lymph Nodes and Potential Pitfalls . . . . .	368
Fine-Needle Aspiration Samples . . . . .	399
Polymorphous Infiltrates . . . . .	400
Monomorphous Infiltrates . . . . .	402
<i>Subject Index</i> . . . . .	405

A Pattern Approach to Lymph Node Diagnosis

Leong, A.S.-Y.

2011, XIII, 418 p., Hardcover

ISBN: 978-1-4419-7175-3
