

Contents

Foreword by Kurt Benirschke	vii
Preface to the First Edition	ix
Preface to the Second Edition	xi

Section I Approach to the Specimen

1 Evaluation of the First-Trimester Products of Conception.....	3
2 Evaluation of the Second-Trimester Products of Conception.....	13
3 Macroscopic Evaluation of the Second- and Third-Trimester Placenta.....	23
4 Microscopic Evaluation of the Second- and Third-Trimester Placenta.....	43

Section II Development and Normal Histology

5 Early Placental Development.....	59
6 Chorionic Villi: Histology and Villous Development	69
7 Overview and Microscopic Survey of the Placenta.....	85
8 Extravillous Trophoblast, Trophoblastic Invasion, and Fibrinoid	109

Section III Multiple Gestation

9 Multiple Gestation: General Aspects	121
10 Multiple Gestation: Twin Variants and Related Conditions.....	141

Section IV Abnormalities of the Placenta

11	Abortion and the Placenta in Chromosomal Anomalies	165
12	Postpartum Hemorrhage, Subinvolution of the Placental Site, and Placenta Accreta	185
13	Placental Shape Aberrations.....	203
14	Pathology of the Fetal Membranes	219
15	Pathology of the Umbilical Cord.....	247

Section V Disease Processes and the Placenta

16	Infectious Diseases.....	281
17	Maternal Diseases Complicating Pregnancy	321
18	Placental Malperfusion	335
19	Miscellaneous Placental Lesions.....	355
20	Placental Abnormalities in Fetal Conditions	379
21	Fetal Thrombotic Vasculopathy	401

Section VI Neoplasms and Gestational Trophoblast Disease

22	Neoplasms.....	415
23	Hydatidiform Moles	427
24	Choriocarcinoma	447
25	Lesions of Extravillous Trophoblast.....	459

Section VII Legal Considerations and New Directions

26	Legal Considerations.....	475
27	New Directions: What is New in Placental Studies?.....	487
	Appendix A.....	495
	Appendix B.....	499
	Index	525

Manual of Pathology of the Human Placenta

Second Edition

Baergen, R.N.

2011, XIV, 544 p. 8 illus. in color., Softcover

ISBN: 978-1-4419-7493-8
