About the author xv

List of figures xvii

List of tables xix

List of panels xxi

List of abbreviations and acronyms xxiii

Section I Space Medicine 1

1 Medicine onboard the International Space Station 3

 Radiation 6

 Bone loss 9

 Muscle atrophy. 10

 Behavioral health and fatigue 11

 Balance. 12

2 Interplanetary health care 15

 Medical capabilities 15

 Medical strategies 19

 The interplanetary flight surgeon 20

 In-flight health care 27

 Anesthesia 32

 Airway management. 32

 Surgery 33

 Rehabilitating astronauts 35

 References 37

3 Medical qualification for exploration class missions 39

 Medical selection of astronauts. 39

 Genetic screening 47

 Types of genetic testing. 49

 Precautionary surgery 49

Appendicitis	52
Appendectomy	52
Pre-mission medical selection	53
References	53
Section II Exploration Class Medical Challenges.	55
4 Radiation	57
Radiation types.	57
Measuring radiation	59
Radiation damage.	60
Radiation exposure guidelines.	64
Countermeasures	66
Operations	66
Shielding.	66
Biological	67
Nanotech	68
Installation	73
References	75
5 Bone loss.	77
Effect of microgravity on the skeletal system	78
Countermeasures to bone demineralization	82
Artificial gravity	86
Joosten's spinning spaceships	89
6 Behavior and performance	91
Shackleton	94
Nansen	96
Interplanetary stressors	100
Mission operations	109
Post-mission mental health care	112
Section III Future Developments.	113
7 Bioethics, sex, and cloning	115
The survivor scenario	115
The terrorist attack scenario	117
The injured crewmember scenario	117
The solutions	119
No sex please, we're astronauts.	121
Pulling the plug	127
The one-way trip option	127
Gattaca.	131
Cloning.	134
Cloning ethics.	138

8	Robotic surgery and telemedicine	141
	Telemedicine	141
	Supervisory-controlled systems	144
	Telesurgery	145
	Autonomous	148
	Nanobots	150
	Trauma pods	152
	Medical monitoring	155
9	Stasis	159
	Animal hibernation	162
	Human hibernation	165
	Entry	166
	Hibernation period	166
	Exit	167
	Stasis monitoring	170
	Life support	171
	Appendix: The Interplanetary Bioethics Manual	173
	Index	179

Trailblazing Medicine

Sustaining Explorers During Interplanetary Missions

Seedhouse, E.

2011, XXVI, 180 p. 56 illus., 41 illus. in color., Softcover

ISBN: 978-1-4419-7828-8
