

Contents

- 1 Introduction to Geolocation of RF Signals** 1
 - 1.1 Geolocation of RF Signals Systems 1
 - 1.2 History and Background 3
 - 1.3 Geolocation of RF Signals System Concept 3
 - 1.4 Technical Definition and Classification 5
 - 1.5 Requirements of Geolocation of RF Signals Systems 7
 - 1.6 Geolocation of RF Signals Main Description 15
 - 1.7 Best State-of-the-Art Geolocation of RF Signals Techniques 17
 - 1.8 Applications of Geolocation of RF Signals 19
 - 1.9 A Generic Geolocation of RF Signals System 19
 - 1.9.1 Principles of Operation 21
 - 1.9.2 RF Transmitter 22
 - 1.9.3 RF Channel 23
 - 1.9.4 GRFS Receiver 24
 - 1.10 Conclusions 25
 - References 27
- 2 Requirements for Description of GRFS Systems** 35
 - 2.1 Overview 35
 - 2.2 Introduction 36
 - 2.3 Requirements for Description of Indoor GRFS Systems 38
 - 2.3.1 Requirements for Description of Indoor Ground GRFS Systems 39
 - 2.3.2 Requirements for Description of Indoor Air GRFS Systems 40
 - 2.3.3 Requirements for Description of Indoor Space GRFS Systems 43
 - 2.3.4 Requirements for Description of Indoor Water GRFS Systems 44

2.4	Requirements for Description of Urban GRFS Systems	45
2.4.1	Requirements for Description of Urban Ground GRFS Systems	46
2.4.2	Requirements for Description of Urban Air GRFS Systems	47
2.4.3	Requirements for Description of Urban Water GRFS Systems	47
2.4.4	Requirements for Description of Urban Space GRFS Systems	48
2.4.5	Requirements for Description of Urban Ground-to-Air (Air-to-Ground) GRFS Systems	49
2.4.6	Requirements for Description of Urban Ground-to-Water (Water-to-Ground) GRFS Systems	52
2.4.7	Requirements for Description of Urban Air-to-Water (Water-to-Air) GRFS Systems	52
2.4.8	Requirements for Description of Urban Air-to-Space (Space-to-Air) GRFS Systems	54
2.5	Requirements for Description for Suburban GRFS Systems	55
2.5.1	Requirements for Description of Suburban Ground GRFS Systems	56
2.5.2	Requirements for Description of Suburban Air GRFS Systems	57
2.5.3	Requirements for Description of Suburban Water GRFS Systems	58
2.5.4	Requirements for Description of Suburban Space GRFS Systems	59
2.5.5	Requirements for Description of Suburban Ground-to-Air (Air-to-Ground) GRFS Systems	61
2.5.6	Requirements for Description of Suburban Ground-to-Water (Water-to-Ground) GRFS Systems	62
2.5.7	Requirements for Description of Suburban Air-to-Water (Water-to-Air) GRFS Systems	63
2.5.8	Requirements for Description of Suburban Air-to-Space (Space-to-Air) GRFS Systems	65
2.5.9	Requirements for Description of Suburban Ground-to-Air-to-Water (Air-to-Water-to-Ground or Water-to-Air-to-Ground) GRFS Systems	66
2.6	Requirements for Description of Global GRFS Systems	66
2.6.1	Requirements for Description of Global Ground GRFS Systems	68
2.6.2	Requirements for Description of Global Air GRFS Systems	68
2.6.3	Requirements for Description of Global Water GRFS Systems	69

2.6.4	Requirements for Description of Global Space GRFS Systems	70
2.6.5	Requirements for Description of Global Ground-to-Air (Air-to-Ground) GRFS Systems	71
2.6.6	Requirements for Description of Global Ground-to-Water (Water-to-Ground) GRFS Systems	73
2.6.7	Requirements for Description of Global Air-to-Water (Water-to-Air) GRFS Systems	73
2.6.8	Requirements for Description of Global Air-to-Space (Space-to-Air) GRFS Systems	74
2.6.9	Requirements for Description of Global Ground-to-Air-to-Water (Air-to-Water-to-Ground or Water-to-Ground-to-Air) GRFS Systems	76
2.7	Requirements for Description for Satellite GRFS Systems	78
2.7.1	Requirements for Description of Satellite Space GRFS Systems	80
2.7.2	Requirements for Description of Satellite Ground-to-Air (Air-to-Ground) GRFS Systems	81
2.7.3	Requirements for Description of Satellite Ground-to-Space (Space-to-Ground) GRFS Systems	81
2.7.4	Requirements for Description of Satellite Air-to-Water (Water-to-Air) GRFS Systems	83
2.7.5	Requirements for Description of Satellite Air-to-Space (Space-to-Air) GRFS Systems	84
2.7.6	Requirements for Description of Satellite Ground-to-Air-to-Water (Air-to-Ground-to-Water or Water-to-Air-to-Ground) GRFS Systems	85
2.7.7	Requirements for Description of Satellite Ground-to-Space-to-Water (Space-to-Ground-to-Water or Water-to-Space-to-Ground) GRFS Systems	86
2.7.8	Requirements for Description of Satellite Air-to-Space-to-Water (Space-to-Air-to-Water or Water-to-Space-to-Air) GRFS Systems	86
2.7.9	Requirements for Description of Satellite Ground-to-Air-to-Space-to-Water (All Other Combinations of Four) GRFS Systems	87
2.8	Conclusions	88

6.1 Introduction	235
6.2 Adaptive Array Beamforming for Interference Mitigation of GRFS Systems Main Description and Discussion	238
6.3 Adaptive Array Beamforming for Interference Mitigation of GRFS Systems (GPS or GNSS) Main Description and Discussion	239
6.4 ATSA Mathematical Model	242
6.4.1 Principle Illustration Example 1	247
6.5 ASTSA Mathematical Model	251
6.6 Improved ASTSA (or ASTSA with Restored Phase) Mathematical Model	260
6.7 ATSA Simulations	262
6.7.1 Principle Illustration Example 2	264

6.7.2 Principle Illustration Example 3	266
6.8 ATSA Implementation	267
6.8.1 Principle Illustration Example 4	269
6.9 ASTSA Simulations	270
6.9.1 Principle Simulation Example 5.1	270
6.9.2 Principle Simulation Example 5.2	271
6.9.3 Principle Simulation Example 5.3	272
6.9.4 Principle Simulation Example 6.1	272
6.9.5 Principle Simulation Example 6.2	274
6.9.6 Principle Simulation Example 6.3: ASSA with 4 Sensors Beampattern Main Plots	276
6.9.7 Principle Simulation Example 7.1	277
6.9.8 Principle Simulation Example 7.2	278
6.9.9 Principle Simulation Example 7.3: ASTSA with 6 Taps and 4 Sensors Beampattern Main Plots	279
6.10 Improved ASTSA (or ASTSA with Restored Phase) Simulations	280
6.10.1 Principle Simulation Example 8: ASTSA with Two Antennae and One Tap (2E-1T) and One CW and Ideal Phase Restorer	281
6.10.2 Principle Simulation Example 9: The 2E-1T ASTSA and One WB Interference Source and Ideal Phase Restorer	283
6.10.3 Principle Simulation Example 10: The 2E-1T ASTSA and One WB Interference Source and a Realistic Phase Restorer	285
6.11 Summary and Conclusions	286
6.11.1 ATSA Summary and Conclusions	286
6.11.2 ASTSA Summary and Conclusions	287
6.11.3 Improved ASTSA Summary and Conclusions	288
6.12 Future Direction for Research	288
Appendix A	289
