

Contents

Photometric Precision and Accuracy	1
Christiaan Sterken, E.F. Milone, and Andrew T. Young	
The High Road to Astronomical Photometric Precision: Differential Photometry	33
E.F. Milone and Jan Willem Pel	
High Precision Differential Photometry with CCDs: A Brief History	69
Steve B. Howell	
The Pierce-Blitzstein Photometer	83
Carol W. Ambruster, Anthony B. Hull, Robert H. Koch, and Richard J. Mitchell	
Johnson Photometry and Its Descendants	107
Arlo U. Landolt	
The Rise and Improvement of Infrared Photometry	125
E.F. Milone and Andrew T. Young	
On the Use of Photometry in Spectral Classification	143
Robert F. Wing	
Absolute Photometry: Past and Present	177
Martin Cohen	
Optical Region Spectrophotometry: Past and Present	187
Saul J. Adelman	
Measurement of Polarized Light in Astronomy	199
Pierre Bastien	
Index	211

Astronomical Photometry
Past, Present, and Future
Milone, E.F.; Sterken, C. (Eds.)
2011, XII, 220 p., Hardcover
ISBN: 978-1-4419-8049-6
