
Contents

Part I Etiology of Narcolepsy

Etiology and Genetics of Human Narcolepsy	3
Emmanuel Mignot	
Narcolepsy: Autoimmunity or Secondary to Infection?	19
Adriano Fontana, Heidemarie Gast, and Thomas Birchler	
Is Narcolepsy a Neurodegenerative Disorder?	27
Christelle Peyron	

Part II Neurochemistry of Narcolepsy

The Roles of Hypocretin/Orexin in Narcolepsy, Parkinson's Disease, and Normal Behavior	37
Jerome Siegel	
Histamine in Narcolepsy and Excessive Daytime Sleepiness	47
Seiji Nishino	
Dopaminergic Substrates Underlying Hypersomnia, Sleepiness, and REM Sleep Expression	61
David B. Rye and Amanda A.H. Freeman	
The Serotonergic System in Sleep and Narcolepsy	73
Chloé Alexandre and Thomas E. Scammell	
Sleep Homeostasis, Adenosine, Caffeine, and Narcolepsy	85
Hans-Peter Landolt	
Prostaglandin D₂: An Endogenous Somnogen	93
Yoshihiro Urade and Osamu Hayaishi	

Part III The Role of the Hypocretins in Sleep–Wake Regulation

The Neurobiology of Sleep–Wake Systems: An Overview	107
Pierre-Hervé Luppi and Patrice Fort	

The Hypocretins/Orexins: Master Regulators of Arousal and Hyperarousal.....	121
Matthew E. Carter, Antoine Adamantidis, and Luis de Lecea	

Optogenetic Probing of Hypocretins' Regulation of Wakefulness.....	129
Antoine Adamantidis and Luis de Lecea	

Hypocretin/Orexin Receptor Functions in Mesopontine Systems Regulating Sleep, Arousal, and Cataplexy.....	139
Christopher S. Leonard, Mike Kalogiannis, and Kristi A. Kohlmeier	

Afferent Control of the Hypocretin/Orexin Neurons.....	153
Thomas S. Kilduff, Junko Hara, Takeshi Sakurai, and Xinmin Xie	

The Neural Basis of Sleepiness in Narcoleptic Mice	163
Thomas E. Scammell and Chloé Alexandre	

Mathematical Models of Narcolepsy	175
Cecilia Diniz Behn	

Part IV The Key Role of the Hypothalamus

The Hypothalamus and Its Functions	191
Giovanna Zoccoli, Roberto Amici, and Alessandro Silvani	

The Prehistory of Orexin/Hypocretin and Melanin-Concentrating Hormone Neurons of the Lateral Hypothalamus	205
Clifford B. Saper	

Metabolic Influence on the Hypocretin/Orexin Neurons	211
Denis Burdakov	

Endocrine Abnormalities in Narcolepsy	217
Thomas Pollmächer, Marietta Keckeis, and Andreas Schuld	

Appetite and Obesity	227
Alice Engel and Norbert Dahmen	

Part V Reward, Addiction, Emotions and the Hypocretin System

Effects of Orexin/Hypocretin on Ventral Tegmental Area Dopamine Neurons: An Emerging Role in Addiction	241
Stephanie L. Borgland	
Orexin/Hypocretin, Drug Addiction, and Narcolepsy	253
Ralph J. DiLeone, Maysa Sarhan, and Ruth Sharf	
Emotional Processing in Narcolepsy	261
Sophie Schwartz	
Depression in Narcolepsy	271
Michael Lutter	

Part VI REM Sleep Dysregulation and Motor Abnormalities in Narcolepsy

The Clinical Features of Cataplexy	283
Sebastiaan Overeem	
Parasomnias in Narcolepsy with Cataplexy	291
Yves Dauvilliers and Régis Lopez	
The Motor System and Narcolepsy: Periodic Leg Movements and Restless Legs Syndrome	301
Luigi Ferini-Strambi	

Part VII The Borderlands of Narcolepsy

Spectrum of Narcolepsy.....	309
Claudio L. Bassetti	
Secondary Narcolepsy.....	321
Philipp O. Valko and Rositsa Poryazova	
Posttraumatic Narcolepsy	341
Christian R. Baumann and Rositsa Poryazova	
The Hypocretin System and Sleepiness in Parkinson's Disease	347
R. Fronczek	
Idiopathic Hypersomnia.....	357
Ramin Khatami	

**Part VIII The Diagnosis of Narcolepsy and the Assessment
of Fitness to Drive**

Current Diagnostic Criteria for Adult Narcolepsy	369
Alex Iranzo	

The Arguments for Standardized Diagnostic Procedures.....	383
Geert Mayer	

Fitness to Drive in Narcolepsy	389
Johannes Mathis	

Part IX Treatment of Narcolepsy

Treatment of Narcolepsy	401
G.J. Lammers	

Treatment of Narcolepsy in Children.....	411
Michel Lecendreux	

Index.....	419
-------------------	------------

Narcolepsy

Pathophysiology, Diagnosis, and Treatment

Baumann, C.R.; Bassetti, C.L.; Scammell, Th.E. (Eds.)

2011, XVI, 428 p. 81 illus., 12 illus. in color., Hardcover

ISBN: 978-1-4419-8389-3
