

# Contents

<b>1</b>	<b>Introduction and Historical Remarks</b> .....	1
1.1	Background .....	1
1.2	Description of contents .....	7
<b>2</b>	<b>Fundamentals</b> .....	11
2.1	Fuzzy programming .....	11
2.1.1	Fuzzy sets .....	11
2.1.2	Fuzzy goals and Fuzzy constraints .....	14
2.1.3	Linear programming problems with fuzzy parameters .....	16
2.2	Stochastic programming .....	20
2.2.1	Random variables .....	20
2.2.2	Two-stage programming .....	21
2.2.3	Chance constraint programming .....	24
2.3	Multiobjective programming .....	26
2.3.1	Multiobjective programming problem .....	26
2.3.2	Interactive multiobjective programming .....	27
2.3.3	Fuzzy multiobjective programming .....	28
2.4	Two-level programming .....	32
2.4.1	Fuzzy programming for two-level programming .....	32
2.4.2	Stackelberg solution to two-level programming problem....	36
2.5	Genetic algorithms .....	40
2.5.1	Fundamental elements in genetic algorithms.....	40
2.5.2	Genetic algorithm for integer programming .....	44
<b>3</b>	<b>Fuzzy Multiobjective Stochastic Programming</b> .....	49
3.1	Fuzzy multiobjective stochastic linear programming .....	49
3.1.1	Expectation and variance models .....	50
3.1.2	Probability and fractile models .....	62
3.1.3	Simple recourse model .....	77
3.2	Extensions to integer programming .....	83
3.2.1	Expectation and variance models .....	84

3.2.2	Probability and fractile models .....	90
3.2.3	Simple recourse model .....	95
<b>4</b>	<b>Multiobjective Fuzzy Random Programming .....</b>	<b>101</b>
4.1	Multiobjective fuzzy random linear programming .....	101
4.1.1	Possibility-based expectation and variance models .....	104
4.1.2	Possibility-based probability and fractile models .....	118
4.1.3	Level set-based models .....	131
4.2	Extensions to integer programming .....	149
4.2.1	Possibility-based expectation and variance models .....	150
4.2.2	Possibility-based probability and fractile models .....	154
4.2.3	Level set-based models .....	159
<b>5</b>	<b>Stochastic and Fuzzy Random Two-Level Programming .....</b>	<b>169</b>
5.1	Cooperative two-level programming .....	169
5.1.1	Stochastic two-level linear programming .....	170
5.1.2	Fuzzy random two-level linear programming .....	177
5.1.3	Extensions to integer programming .....	188
5.2	Noncooperative two-level programming .....	200
5.2.1	Stochastic two-level linear programming .....	201
5.2.2	Fuzzy random two-level linear programming .....	207
5.2.3	Extensions to integer programming .....	215
<b>6</b>	<b>Future Research Directions .....</b>	<b>225</b>
6.1	Random fuzzy variable .....	225
6.2	Random fuzzy linear programming .....	227
6.2.1	Possibility-based probability model .....	228
6.2.2	Possibility-based fractile model .....	231
6.3	Multiobjective random fuzzy programming .....	232
6.3.1	Possibility-based probability model .....	233
6.3.2	Possibility-based fractile model .....	235
6.4	Random fuzzy two-level programming .....	237
6.4.1	Possibility-based probability model .....	238
6.4.2	Possibility-based fractile model .....	242
