

Contents

1	Securing Water and Wastewater Systems: An Overview	1
	Robert M. Clark, Simon Hakim, and Avi Ostfeld	
2	Water/Wastewater Infrastructure Security: Threats and Vulnerabilities	27
	Laurie J. Van Leuven	
3	EPA Drinking Water Security Research Program	47
	Hiba S. Ernst, K. Scott Minamyer, and Kim R. Fox	
4	Drinking Water Critical Infrastructure and Its Protection	65
	Rakesh Bahadur and William B. Samuels	
5	Wastewater Critical Infrastructure Security and Protection	87
	Rakesh Bahadur and William B. Samuels	
6	Protecting Water and Wastewater Systems	103
	Randy G. Fischer	
7	Spatial Distributed Risk Assessment for Urban Water Infrastructure	119
	Michael Möderl and W. Rauch	
8	US Water and Wastewater Critical Infrastructure	135
	Robert M. Clark	
9	Microbial Issues in Drinking Water Security	151
	Eugene W. Rice	
10	Rapid Detection of Bacteria in Drinking Water and Wastewater Treatment Plants	163
	Rolf A. Deininger, Jiyoung Lee, and Robert M. Clark	
11	Chlorine Residual Management for Water Distribution System Security	185
	Jeanne M. VanBriesen, Shannon L. Isovitsch Parks, Damian E. Helbling, and Stacia T. McCoy	

12	Biosensors for the Detection of <i>E. coli</i> O157:H7 in Source and Finished Drinking Water	205
	Mark D. Burr, Andreas Nocker, and Anne K. Camper	
13	Guidelines, Caveats, and Techniques for the Evaluation of Water Quality Early Warning Systems	229
	Dan Kroll	
14	Protecting Water and Wastewater Systems: Water Distribution Systems Security Modeling	247
	Avi Ostfeld	
15	Protecting Consumers from Contaminated Drinking Water During Natural Disasters	265
	Craig L. Patterson and Jeffrey Q. Adams	
16	Cyber Security: Protecting Water and Wastewater Infrastructure	285
	Srinivas Panguluri, William Phillips, and Patrick Ellis	
17	Real-World Case Studies for Sensor Network Design of Drinking Water Contamination Warning Systems	319
	Regan Murray, Terra Haxton, William E. Hart, and Cynthia A. Phillips	
18	Enhanced Monitoring to Protect Distribution System Water Quality	349
	Zia Bukhari and Mark LeChevallier	
19	Testing and Evaluation of Water Quality Event Detection Algorithms	369
	Sean A. McKenna, David B. Hart, Regan Murray, and Terra Haxton	
20	Water Infrastructure Protection Against Intentional Attacks: The Experience of Two European Research Projects . . .	397
	Cristiana Di Cristo, Angelo Leopardi, and Giovanni de Marinis	
21	Utility of Supercomputers in Trace-Back Algorithms for City-Sized Distribution Systems	419
	Hailiang Shen and Edward McBean	
22	Water/Wastewater Infrastructure Security: A Multilayered Security Approach	435
	Laurie J. Van Leuven	
23	Vulnerability of Water and Wastewater Infrastructure and Its Protection from Acts of Terrorism: A Business Perspective . . .	457
	Dave Birkett, Jim Truscott, Helena Mala-Jetmarova, and Andrew Barton
