PART I IMMUNOENDOCRINOLOGY: SCIENTIFIC AND CLINICAL ASPECTS

1 Primer on Immunoendocrinology 3
Jean Jasinski and George S. Eisenbarth

2 Discovering Novel Antigens 15
Janet M. Wenzlau, Leah Sheridan, and John C. Hutton

3 Developing and Validating High Sensitivity/Specificity Autoantibody Assays 41
Ezio Bonifacio, Anne Eugster, and Vito Lampasona

4 Characterizing T-Cell Autoimmunity 53
Ivana Durinovic-Belló and Gerald T. Nepom

5 Metabolic Syndrome and Inflammation 69
Rodica Pop-Busui and Massimo Pietropaolo

PART II SYNDROMES

6 The Mouse Model of Autoimmune Polyglandular Syndrome Type 1 95
James Gardner and Mark Anderson

7 Autoimmune Polyendocrine Syndrome Type I: Man 115
Eystein S. Husebye and Olle Kämpe

8 IPEX Syndrome: Clinical Profile, Biological Features, and Current Treatment 129
Rosa Bacchetta, Laura Passerini, and Maria Grazia Roncarolo

9 Autoimmune Polyendocrine Syndrome Type 2: Pathophysiology, Natural History, and Clinical Manifestations 143
Jennifer M. Barker

10 Drug-Induced Endocrine Autoimmunity 157
Paolo Pozzilli, Rocky Strollo, and Nicola Napoli

PART III SPECIFIC DISEASES

11 The BB Rat 183
Ulla Nøhr Dalberg, Claus Haase, Lars Hornum, and Helle Markholst

12 Immunopathogenesis of the NOD Mouse 199
Li Zhang and George S. Eisenbarth

13 Virus-Induced Type 1 Diabetes in the Rat 215
Travis R. Wolter and Danny Zipris
14 Autoimmune Pathology of Type 1 Diabetes 231
Roberto Gianani and Mark Atkinson
15 Genetics of Type 1 Diabetes 251
Aaron Michels, Joy Jeffrey, and George S. Eisenbarth
16 Epidemiology of Type 1 Diabetes 267
Molly M. Lamb and Jill M. Norris
17 Natural History of Type 1 Diabetes 279
Spiros Fourlanos, Leonard C. Harrison, and Peter G. Colman
18 Immunotherapy of Type-1 Diabetes: Immunoprevention and Immunoreversal 293
Frank Waldron-Lynch and Kevan C. Herold
19 Latent Autoimmune Diabetes in Adults 315
Barbara M. Brooks-Worrell and Jerry P. Palmer
20 Fulminant Type 1 Diabetes Mellitus 331
Akihisa Imagawa and Toshiaki Hanafusa
21 Insulin Autoimmune Syndrome (Hirata Disease) 343
Yasuko Uchigata and Yukimasa Hirata
22 Lessons from Patients with Anti-Insulin Receptor Autoantibodies 369
Angeline Y. Chong and Phillip Gorden
23 Islet and Pancreas Transplantation 385
Gaetano Ciancio, Alberto Pugliese, George W. Burke, and Camillo Ricordi
24 Addison's Disease 399
Alberto Falorni
25 Animal Models of Autoimmune Thyroid Disease 415
Yuji Nagayama and Norio Abiru
26 Genetics of Thyroid Autoimmunity 427
Yaron Tomer
27 Immunopathogenesis of Thyroiditis 443
Su He Wang and James R. Baker
28 Immunopathogenesis of Graves' Disease 457
Syed A. Morshed, Rauf Latif, and Terry F. Davies
29 Graves' Ophthalmopathy 483
Wilmar M. Wiersinga
30 Hypoparathyroidism 501
Ogo I. Egbuna and Edward M. Brown
31 Premature Gonadal Insufficiency 519
Janice Huang, Micol S. Rothman, and Margaret E. Wierman
32 Celiac Disease and Intestinal Endocrine Autoimmunity 535
Leonardo Mereiles, Marcella Li, Danielle Loo, and Edwin Liu
33 Pituitary Autoimmunity 547
Annamaria De Bellis, Antonio Bizzarro, and Antonio Bellastella
