## Part I    Getting Started as a Physician-Scientist

<b>1    Beginnings</b>	3
Introduction	3
Early Years	3
Medical School	4
Residency	5
Harvard School of Public Health	7
Transition	8
Back to Israel	8
Cardiology and Research Training	8
Principal Investigator	10
Summary	11
Key Points	11
<b>2    Is a Physician-Scientist Career Right for You?</b>	13
Introduction	13
What Is a Physician-Scientist?	13
What Types of Biomedical Research Do Physician-Scientists Perform?	14
Basic Science Research	14
Translational Research	15
Clinical Research	16
Population Research	16
Research and Clinical Activities	16
What Is a Clinician-Educator?	17
Qualities and Skills Necessary to be a Physician-Scientist	18
Are You Suited for a Career as a Physician-Scientist?	18
Paths to a Physician-Scientist Career	18
Early Bloomers	19
Late Bloomers	20
Very Late Bloomers	21

Additional Research Training . . . . .	21
Choosing Your Training . . . . .	22
Timeline for Training Programs . . . . .	23
After Training . . . . .	23
Summary . . . . .	24
Key Points . . . . .	24
Suggested Reading . . . . .	25
<b>3 Training as a Physician-Scientist . . . . .</b>	<b>27</b>
Introduction . . . . .	27
Choosing a Research Training Program . . . . .	27
Stay or Go? . . . . .	28
Other Considerations . . . . .	28
Funding . . . . .	29
Tips for Applying to Training Programs . . . . .	29
Reference Letters . . . . .	30
Phone Calls . . . . .	30
Track Record . . . . .	30
Interviewing . . . . .	31
Choosing Research Projects . . . . .	32
Primary Research Project . . . . .	32
Secondary Research Projects . . . . .	34
What to Avoid During Training . . . . .	35
Summary . . . . .	35
Key Points . . . . .	36
Suggested Reading . . . . .	36
 <b>Part II Launching Your Career as a Physician-Scientist</b>	
<b>4 Getting a Job . . . . .</b>	<b>41</b>
Introduction . . . . .	41
When and Where Are the Best Places to Look for Jobs? . . . . .	41
Journal Advertisements . . . . .	41
Mentors . . . . .	42
Cold Inquiries . . . . .	42
Headhunters . . . . .	43
Your Training Institutions . . . . .	43
Best-Case Scenario . . . . .	43
What to Look for . . . . .	44
The Academic CV . . . . .	45
General Points . . . . .	47
Cover Letter . . . . .	47
The Interview Process . . . . .	47
Visiting the Institution . . . . .	48
Job Talk . . . . .	48
The Interview . . . . .	49

Negotiations . . . . .	51
Start-Up Package . . . . .	51
Summary . . . . .	52
Key Points . . . . .	52
Suggested Reading . . . . .	53
<b>5 Appointments, Tenure, Promotions, and Sabbaticals . . . . .</b>	<b>55</b>
Introduction . . . . .	55
University and Hospital Appointments . . . . .	55
Tenure . . . . .	57
Negotiating a Tenure-Track Position . . . . .	57
Guidelines and Requirements . . . . .	57
Tenure-Like Awards . . . . .	58
Physician-Scientists Versus Humanities and Science Professors . . . . .	58
Likelihood of Obtaining Tenure . . . . .	59
Promotions . . . . .	59
Assistant to Associate Professor . . . . .	60
Associate to Full Professor . . . . .	63
Sabbaticals . . . . .	64
My Philosophy . . . . .	64
Traditional Sabbaticals . . . . .	65
Non-Traditional Sabbaticals . . . . .	65
Finances . . . . .	65
Maintaining Your Laboratory . . . . .	65
Application for Sabbatical . . . . .	66
Clinical and Family Issues . . . . .	66
Summary . . . . .	66
Key Points . . . . .	67
Suggested Reading . . . . .	67
<b>6 Teaching . . . . .</b>	<b>69</b>
Introduction . . . . .	69
Teaching Documentation . . . . .	69
Teaching Opportunities . . . . .	70
Teaching at the Bedside . . . . .	70
Teaching Courses . . . . .	70
Small Group Sessions . . . . .	71
Research Methods . . . . .	72
Continuing Medical Education . . . . .	72
Graduate Students . . . . .	73
Post-Doctoral Students . . . . .	74
Summary . . . . .	75
Key Points . . . . .	75
Suggested Reading . . . . .	76

<b>7 Administration</b>	77
Introduction	77
Types of Administrative Activities	77
Departmental/Institutional Activity	78
National/International Activity	79
How to Say “No”	86
Summary	87
Key Points	88
Suggested Reading	88
<b>8 Research</b>	89
Introduction	89
Identifying a Primary Research Topic	89
Secondary Research Topics	91
Establishing a Research Team	91
Co-Investigators and Collaborators	92
Co-Investigators	93
Collaborators	94
Collaboration and Communication	95
Chief Collaborator	96
Getting Organized	97
Setting Up Your Laboratory	97
Setting Up Your Office	98
Staying Up-to-Date	100
Meetings and Conferences	100
Staying Informed	103
Summary	104
Key Points	104
Suggested Reading	104

### **Part III Building Your Career as a Physician-Scientist**

<b>9 Writing</b>	109
Introduction	109
Why Improve Your Biomedical Writing?	109
Why Take a Biomedical Writing Course?	110
Harvard	110
University of California	111
Writing an Original Research Article	112
First Draft	112
General Stylistic Tips	113
Title Page	114
Abbreviations	115
Structured Abstract	115
Condensed Abstract and Key Words	115
Structure of the Text	115

Introduction . . . . .	116
Methods . . . . .	116
Results . . . . .	117
Discussion . . . . .	118
Limitations . . . . .	118
Conclusions . . . . .	118
References . . . . .	119
Tables . . . . .	119
Figures . . . . .	120
Summary . . . . .	120
Key Points . . . . .	120
Suggested Reading . . . . .	121
<b>10 Publishing . . . . .</b>	<b>123</b>
Introduction . . . . .	123
Why Produce a Continuous Stream of Publications? . . . . .	123
Types of Projects to Tackle . . . . .	124
Narrative Reviews . . . . .	126
Systematic Reviews . . . . .	126
Meta-analyses . . . . .	127
Editorials . . . . .	128
Book Chapters and Books . . . . .	129
Choosing a Topic . . . . .	129
Choosing a Journal . . . . .	131
Revisions . . . . .	131
Summary . . . . .	134
Key Points . . . . .	135
Suggested Reading . . . . .	135
<b>11 Grants . . . . .</b>	<b>137</b>
Introduction . . . . .	137
What Are Grants and Why Are They Important? . . . . .	138
Where to Apply for Grants . . . . .	138
Federal Sources of Funding . . . . .	139
State, Provincial, and Local Sources of Funding . . . . .	140
Non-Governmental Sources of Funding . . . . .	140
Types of Operating Grants . . . . .	141
Research Grants (R Series) . . . . .	141
Invited Grant Applications . . . . .	142
Letter of Intent (LOI) . . . . .	143
Career Awards . . . . .	143
United States . . . . .	144
Canada . . . . .	144
Applying for a Career Award . . . . .	145
Summary . . . . .	147

Key Points . . . . .	147
Suggested Reading . . . . .	148
<b>12 Grantsmanship . . . . .</b>	<b>149</b>
Introduction . . . . .	149
Identifying a Fundable Topic . . . . .	149
Compelling Topics . . . . .	149
Scope of Proposal . . . . .	150
Making Your Case . . . . .	151
Structure . . . . .	151
Feasibility . . . . .	152
Public Health or Clinical Impact . . . . .	153
Competition . . . . .	153
Funding Agencies, Guidelines, and Committees . . . . .	154
Choosing the Right Funding Agency . . . . .	156
Choosing the Right Committee . . . . .	157
Establishing a Strong Research Team . . . . .	158
Choosing the Right Co-Investigators . . . . .	158
Choosing the Right Collaborators . . . . .	159
Other Team-Related Issues . . . . .	159
Budgets . . . . .	159
Make-Up of a Budget . . . . .	160
Duration . . . . .	161
Committee Considerations . . . . .	161
Funding Agency Guidelines . . . . .	162
Strategies for Success . . . . .	162
Targeting Smaller Agencies . . . . .	162
Sub-Studies of Trials in Progress . . . . .	163
Renewals . . . . .	163
Summary . . . . .	164
Key Points . . . . .	165
Suggested Reading . . . . .	165
<b>13 Peer Review of Grant Applications . . . . .</b>	<b>167</b>
Introduction . . . . .	167
Committee Members . . . . .	167
Committee Discussions . . . . .	168
Discussions About the Principal Investigator . . . . .	168
Response to Previous Reviews . . . . .	169
Scoring . . . . .	169
Conflicts of Interest . . . . .	170
Tips for a Strong Grant Proposal . . . . .	170
Summary . . . . .	176
Key Points . . . . .	176
Suggested Readings . . . . .	177

<b>14</b>	<b>Managing Your Team, Time, and Money</b>	179
	Introduction	179
	Managing Your Team	179
	Make-up of a Good Research Team	180
	Assembling a Research Team	180
	Expanding Your Team	184
	Strategies for Managing Your Team	184
	Planning for Departures	188
	Letting Someone Go	189
	Managing Your Time	189
	Delegating and Leveraging	190
	Managing Your Research Funds	191
	Role of the Research Institute	191
	Role of the Financial Officer	192
	Direct Versus Indirect Costs	192
	Managing Accounts	193
	Financial Commitment to New Physician-Scientists	194
	Additional Funds for Junior Investigators	194
	Summary	194
	Key Points	194
	Suggested Readings	195
<b>15</b>	<b>Mentorship</b>	197
	Introduction	197
	My Experiences	197
	Undergraduate Research	198
	Year Off During Medical School	198
	Cardiology Elective in Medical School	199
	Mentorship During Residency	199
	Mentor at the Harvard School of Public Health	200
	Research Experience After Residency	200
	Finding Mentors: What to Look for	200
	Mentorship for Focused Research Training	201
	Mentorship for New Physician-Scientists	202
	Being a Mentor	203
	What Makes a Good Mentor?	204
	Benefits of Being a Mentor	205
	Reflections on Mentorship	205
	Summary	206
	Key Points	206
	Suggested Reading	207
<b>16</b>	<b>Lectures and Presentations</b>	209
	Introduction	209
	General Tips	209
	Use Uniform Structure	210

Minimize Your Slides . . . . .	211
Simplify and Reduce the Number of Text Slides . . . . .	212
Use Tables and Figures to Illustrate Important Information . . . . .	212
Lecturing . . . . .	213
Oral Abstracts . . . . .	213
Full-Length Lectures . . . . .	215
Question-and-Answer Session . . . . .	216
Ancillary Issues . . . . .	216
Summary . . . . .	217
Key Points . . . . .	218
Suggested Reading . . . . .	218
<b>17 Relations with Industry . . . . .</b>	<b>219</b>
Introduction . . . . .	219
Types of Relationships . . . . .	219
Company Representatives . . . . .	219
Industry-Sponsored Presentations . . . . .	220
Speaker's Bureau . . . . .	220
Investigator-Initiated Grants . . . . .	221
Multi-Center Trials . . . . .	222
Contract Research and Consulting . . . . .	222
Sponsorship for Conferences, Workshops, and Seminars . . . . .	223
Conflicts of Interest . . . . .	223
Ethics . . . . .	224
Summary . . . . .	225
Key Points . . . . .	225
Suggested Readings . . . . .	225
<b>Part IV Parting Words of Advice – Putting It All Together</b>	
<b>18 Balancing Research, Clinical Activities, and Family Life . . . . .</b>	<b>229</b>
Introduction . . . . .	229
Balancing Work and Family Activities . . . . .	229
Starting a Family . . . . .	232
Additional Issues . . . . .	233
Men in Academic Medicine . . . . .	233
Women in Academic Medicine . . . . .	233
Outside Activities . . . . .	235
Summary . . . . .	235
Key Points . . . . .	236
Suggested Readings . . . . .	236
<b>19 Improving the Physician-Scientist Pathway . . . . .</b>	<b>237</b>
Introduction . . . . .	237
Survey of Physician-Scientists . . . . .	237
System-Level Changes . . . . .	239

Experiences as Director of Clinical Research for the McGill	
Cardiology Fellowship Program . . . . .	240
Potential Interventions . . . . .	240
Formal Mentorship Program . . . . .	241
Mandatory Grant Review . . . . .	241
Internal Awards for Junior Faculty . . . . .	241
Research Design and Methodology Course . . . . .	242
Biomedical Writing Course . . . . .	242
Summer Course for High School and University Students . . . . .	242
Seminar for Physician-Scientists . . . . .	242
Improving the Physician-Scientist Pathway: The Steering Committee	243
Summary . . . . .	243
Key Points . . . . .	244
Suggested Reading . . . . .	244
