

Contents

1 Basics of Stem and Progenitor Cells.....	1
Matthew T. Harting	
2 Progenitor Cell Tissue Engineering.....	19
Kevin R. Aroom and Brijesh S. Gill	
3 Stem Cell Delivery Methods and Routes.....	47
Peter A. Walker	
4 Neural Progenitor Cells for Traumatic Brain and Spinal Cord Injury: Endogenous Cell Rescue Versus Replacement Mechanisms.....	69
Shinil K. Shah, Fernando Jimenez, and Peter A. Walker	
5 Traumatic Brain Injury Pathophysiology/Models	97
Peter A. Walker and Nathan D. Allison	
6 Traumatic Brain Injury: Relationship of Clinical Injury to Progenitor Cell Therapeutics.....	123
Charles S. Cox, Jr., James E. Baumgartner, Linda Ewing-Cobbs, and Mary-Clare Day	
7 Cell-Based Therapy for Stroke	143
Vivek Misra, Bing Yang, Sushil Sharma, and Sean Savitz	
8 Spinal Cord Injury Pathophysiology and Progenitor Cell Therapy	163
James E. Baumgartner	

9 Progenitor Cell Therapy for the Treatment of Central Nervous System Injury: A Review of the State of Current Clinical Trials 181
Peter A. Walker, Shinil K. Shah, and James E. Baumgartner

Index 193
