1	General Anatomy of the Heart in the Chest	1
	Atrial Anatomy	2
	Tricuspid Valve Anatomy	5
	Right Ventricle Anatomy	6
	Pulmonary Valve Anatomy	6
	Mitral Valve Anatomy	6
	Left Ventricle Anatomy	8
	Aortic Valve Anatomy	8
	Echocardiography Considerations	9
	External Versus Internal Landmarks	14
	Summary	26
	References	26
2	Age-Related Cardiac Changes	27
	Fenestrations	27
	Lambl's Excrescences	27
	Mitral Annular Calcification	29
	Calcific Aortic Valve Changes	31
	Age-Related Amyloidosis	33
	Age-Related Cardiac Chamber Changes	34
	Summary	36
	References	36
3	Aortic Valve	39
	Aortic Stenosis	39
	Age-Related Calcific Valve Stenosis	41
	Congenitally Bicuspid Aortic Valve	42
	Post-inflammatory Rheumatic Aortic Stenosis	43
	Sub-aortic Valve Stenosis	44
	Dynamic Subaortic Obstruction	46
	Supravalvular Aortic Stenosis	47
	Echocardiographic Assessment of Aortic Valve Morphology	48
	Assessment of Aortic Stenosis Severity	53
	Left Ventricular Adaptation to Aortic Stenosis	57
	Aortic Valve Regurgitation	59
	Congenitally Bicuspid Valve	59

	Post-inflammatory Changes.....	60
	Other Valvular Causes of Aortic Regurgitation.....	61
	Aortic Causes of Aortic Valve Regurgitation.....	64
	Echocardiographic Consideration in Aortic Regurgitation.....	65
	Assessment of Aortic Regurgitation Severity.....	68
	Summary.....	69
	References.....	73
4	Mitral Valve	75

Echo-Guided Pericardiocentesis	275
Summary	277
References.....	277
11 Prosthetic Heart Valves	279
Types of Prostheses.....	279
Morphologic Assessment of Prosthetic Valves.....	283
Hemodynamic Assessment of Prosthetic Valves	290
Prosthetic–Patient Mismatch	293
High Transprosthetic Gradient and Prosthetic Dysfunction	293
Prosthetic Valvular Regurgitation	299
Stress Echocardiography	300
Prosthesis-Related Complications	301
Summary	306
References.....	314
12 Infective Endocarditis and Related Conditions	317
Predisposing Factors	317
Diagnostic Approach	318
Complications	320
Local	321
Echocardiographic Correlates	325
Paravalvular Complications.....	328
Echocardiographic Correlates	332
Right-Sided Endocarditis.....	334
Prosthetic Valve Endocarditis	335
Culture Negative Endocarditis.....	340
Fungal Endocarditis	341
Nonbacterial Thrombotic Endocarditis.....	342
Rheumatic Fever Verrucous Endocarditis.....	343
Libman Sacks Endocarditis, Antiphospholipid, and Anticardiolipin Antibody Syndrome	343
Summary	344
References.....	345

13 Neoplasm, Cardiac Tumor	349
Echocardiographic Approach	350
Primary Benign Cardiac Tumors	354
Cardiac Myxoma	354
Cardiac Rhabdomyoma	359
Papillary Fibroelastoma	362
Other Benign Neoplasms	363
Primary Malignant Cardiac Tumors	365
Sarcoma	365
Metastatic Secondary Tumors	369
Summary	372
References	372
 14 Congenital Heart Disease	 375
Segmental Approach	375
Unrepaired Lesions	377
Atrial Septal Defect	377
Ventricular Septal Defects	380
Atrioventricular Septal Defect	382
Patent Ductus Arteriosus	383
Coarctation	383
Left Superior Vena Cava	387
Congenital Sinus of Valsalva Aneurysm	388
Postsurgical Conditions	388
Tetralogy of Fallot Postrepair	389
Complete Transposition of the Great Arteries Post Repair	390
Fontan Operation	391
Summary	391
References	400
 15 Cardiac Source of Embolism	 403
Diagnostic Difficulties	403
Diagnostic Approach	403
Diagnostic Yield versus Therapeutic Yield	405
Echocardiographic Findings	405
High-Risk Findings	405
Atrial Fibrillation	406
Mitral Stenosis	406
Aortic Plaque	407
Moderate-Risk Findings	409
Myocardial Infarction and Left Ventricular Dysfunction	409
Prosthetic Valves	409
Spontaneous Echo Contrast	410
Uncertain, Likely Low-Risk Findings	411
Chronic Left Ventricular Aneurysm	411
Patent Foramen Ovale	411

Atrial Septal Aneurysm	412
Intrapulmonary Shunt.....	413
Valvular Strands, Lambl's Excrescences, Fibroelastoma	413
Valve Diseases	414
Summary	415
References.....	418
16 Assessment of Diastolic Function	421
Echo-Doppler Measures of Diastolic Function	422
Normal Diastolic Function	424
Mild Diastolic Dysfunction	425
Moderate Diastolic Dysfunction.....	425
Severe Diastolic Dysfunction	425
Summary.....	437
References.....	437
17 Cardiac Involvement by Systemic Diseases	439
Pathognomonic Findings	439
Nonspecific Findings	440
Any Part of the Cardiovascular System May Be Affected	440
The Cardiac Involvement Can Be Focal or Diffuse.....	442
Myocardial Involvement in Neuromuscular Diseases	442
Systemic Disease and Cardiomyopathy.....	443
Congenital Syndromes or Chromosomal Diseases and Cardiac Malformations	444
Conclusion	453
References.....	453
