<b>1 Stating the Economic Problem and Basic Principles</b>	<b>1</b>
§ 1. Stating the Economic Problem	1
§ 2. Systems of Market Structures	2
§ 3. Elements of the Economic Model	3
§ 4. Basic Principles of the Free Market Capitalist Economy	5
§ 5. The Classical General Equilibrium Model	5
§ 6. The General Notion of Individual Equilibrium in a Market	8
<b>2 General Analysis of Typical Market Structures</b>	<b>11</b>
§ 1. Methods	11
§ 2. Classical Equilibrium by Free Competition	12
§ 3. Monopsony and Monopoly	13
§ 4. Oligopolistic Supply and Demand	15
§ 5. Bilateral Monopoly	22
§ 6. Bilateral Oligopoly, Reduced Monopsony, Reduced Monopoly	25
<b>3 Analysis of the Relationship Between Dual Markets and Multiple Markets</b>	<b>27</b>
§ 1. System of Relationships Between Two Markets	27
§ 2. Two Monopsonies with Tied Supply (Type I)	30
§ 3. Two Monopolies with Tied Demand (Type II)	34
§ 4. The Intermediary Bilateral Monopoly (Type III)	36
§ 5. Market Equilibrium and Equilibrium	37
<b>4 Dyopolistic Market Share Ranking</b>	<b>41</b>
§ 1. General Analysis	41
§ 2. The Simple Dyopoly	48
I. The Demand Dyopoly	48
II. The Supply Dyopoly	48
§ 3. The Supply Relationship Between Two Monopsonies	49
I. Alternative Products	49
II. Complementary Products	51

§ 4. The Demand Relationship Between Two Monopolies .....	53
I. Rival Goods .....	53
II. Complementary Goods .....	54
§ 5. The Intermediary Bilateral Monopoly .....	54
§ 6. A Numerical Example .....	55
<b>5 Landmark History of Economic Thought .....</b>	<b>61</b>
§ 1. First Attempt to Solve the Problem of Dyopoly .....	61
I. August Cournot 1838 .....	61
II. Joseph Bertrand 1883 .....	62
III. Francis Isidro Edgeworth 1897 .....	64
IV. Vilfredo Pareto 1909 .....	66
§ 2. Development of Dyopoly Theory .....	68
I. The Bertrand–Edgeworth School .....	68
II. The Lausanne School .....	69
III. The Rebirth of Cournot's Theory .....	70
IV. The Term, "The Position of Independence" .....	73
V. The Eclectic School .....	75
§ 3. Overview of the Development of Bilateral Monopoly Theory .....	80
<b>6 Market Structure and Economic Policy .....</b>	<b>85</b>
§ 1. The Significance of the Unstable Market in the Real Economy .....	85
§ 2. Safeguarding the Equilibrium as a Function of Economic Policy .....	88
§ 3. The Theoretical Model of Fascist Corporative Markets .....	92
<b>Mathematical Appendix .....</b>	<b>95</b>
I. The general notion of individual equilibrium in a market. (First Chap., § 6) .....	95
II. The Classical equilibrium in a market with free competition. (Second Chap., § 2) .....	97
III. The Monopoly. (Second Chap., § 3) .....	100
IV. The Oligopoly. (Second Chap., § 4) .....	101
V. The Bilateral monopoly. (Second Chap., § 5) .....	104
VI. Preliminary remarks for the third chapter .....	108
VII. Two monopsonies with tied supply. (Third Chap., § 2) .....	111
VIII. The intermediary bilateral monopoly (Third chap., § 4) .....	116
IX. The Dyopoly. (Numerical Example) .....	118
X. The demand relationship between monopolies. (Algebraic Example) .....	122
XI. Additional item. R.F. Harrod's attempt at a solution .....	129
