

Contents

Part I Fundamentals: Synthesis of Multifunctional Nanomaterials and their Potential for Medical Application

Physical Properties of Carbon Nanotubes for Therapeutic Applications	3
<i>Vittoria Raffa, Orazio Vittorio, Cristina Riggio, Gianni Ciofani and Alfred Cuschieri</i>	
Carbon Nanotubes in Regenerative Medicine	27
<i>Bhavna S. Paratala and Balaji Sitharaman</i>	
Filling of Carbon Nanotubes with Compounds in Solution or Melted Phase	41
<i>P. Lukanov, C.-M. Tîlmaciu, A. M. Galibert, B. Soula and E. Flahaut</i>	
Filling of Carbon Nanotubes: Containers for Magnetic Probes and Drug Delivery.	67
<i>E. Borowiak-Palen, C. Tripisciano, M. Rütteli, S. Costa, X. Chen and R. J. Kalenczuk</i>	

Part II Magnetically Functionalised Carbon Nanotubes for Medical Diagnosis and Therapy

Magnetic Nanoparticles for Diagnosis and Medical Therapy	85
<i>Martin Sobik, Kirsten M. Pondman, Ben Ern�, Bonny Kuipers, Bennie ten Haken and Horst Rogalla</i>	

Feasibility of Magnetically Functionalised Carbon Nanotubes for Biological Applications: From Fundamental Properties of Individual Nanomagnets to Nanoscaled Heaters and Temperature Sensors	97
<i>Matthias U. Lutz, Kamil Lipert, Yulia Krupskaya, Stefan Bahr, Anja Wolter, Ahmed A. El-Gendy, Silke Hampel, Albrecht Leonhardt, Arthur Taylor, Kai Krämer, Bernd Büchner and Rüdiger Klingeler</i>	
Nuclear Magnetic Resonance Spectroscopy and Imaging of Carbon Nanotubes.	125
<i>Vijay K. Anuganti and Aldrik H. Velders</i>	

Part III Interaction with Biological Systems

Exploring Carbon Nanotubes and Their Interaction with Cells Using Atomic Force Microscopy	153
<i>Constanze Lamprecht, Andreas Ebner, Ferry Kienberger and Peter Hinterdorfer</i>	
Uptake, Intracellular Localization and Biodistribution of Carbon Nanotubes.	169
<i>V. Neves, H. M. Coley, J. McFadden and S. R. P. Silva</i>	
Recognition of Carbon Nanotubes by the Human Innate Immune System.	183
<i>Malgorzata J. Rybak-Smith, Kirsten M. Pondman, Emmanuel Flahaut, Carolina Salvador-Morales and Robert B. Sim</i>	
Toxicity and Environmental Impact of Carbon Nanotubes	211
<i>E. Flahaut</i>	

Part IV Towards Targeted Chemotherapy and Gene Delivery

Carbon Nanotubes Loaded with Anticancer Drugs: A Platform for Multimodal Cancer Treatment	223
<i>Elena Heister, Vera Neves, S. Ravi P. Silva, Johnjoe McFadden and Helen M. Coley</i>	

Carbon Nanotubes Filled with Carboplatin: Towards Carbon Nanotube-Supported Delivery of Chemotherapeutic Agents	247
<i>D. Haase, S. Hampel, K. Kraemer, D. Kunze, A. Taylor, M. Arlt, J. Thomas, S. Oswald, M. Ritschel, R. Klingeler, A. Leonhardt and B. Büchner</i>	
Functionalized Carbon Nanotubes for Gene Bidelivery	259
<i>V. Sanz-Beltrán, Ravi Silva, Helen Coley and Johnjoe McFadden</i>	
Index	275

Carbon Nanotubes for Biomedical Applications

Klingeler, R.; Sim, R.B. (Eds.)

2011, XX, 278 p., Hardcover

ISBN: 978-3-642-14801-9
