<b>1</b>	<b>Introduction</b>	<b>1</b>
<b>Part I Preferences Modeling and Representation</b>		
<b>2</b>	<b>Preferences Modeling</b>	<b>11</b>
2.1	Introduction	11
2.2	Crisp Preference Relations	12
2.3	Fuzzy Preference Relations	15
2.4	The Language	16
	References	16
<b>3</b>	<b>Preference Representation Languages</b>	<b>19</b>
3.1	Introduction	19
3.2	Numerical Language	20
3.3	Weighted Logics	21
3.3.1	Penalty Logic	24
3.3.2	Distance-Based Closeness to Preferences	25
3.3.3	Possibilistic Logic	26
3.3.4	Discrimin and Lexicographical Orderings	32
3.3.5	Guaranteed Possibilistic Logic	34
3.3.6	Qualitative Choice Logic	36
3.3.7	Partially Ordered Formulas	37
3.4	Conditional Logics	38
3.4.1	Preference Semantics	38
3.4.2	From a Preference Set to a Preference Relation	41
3.4.3	Strong and Ceteris Paribus Semantics	42
3.4.4	Optimistic Semantics	45
3.4.5	Pessimistic Semantics	46
3.4.6	Opportunistic Semantics	48
3.4.7	Beyond Semantics	48
3.4.8	Related Work	50

3.4.9	Advanced Logics for Comparative Preference Statements . .	54
3.5	Graphical Languages . . . . .	61
3.5.1	Generalized Additive Independence Networks . . . . .	61
3.5.2	Conditional Preference Networks . . . . .	64
3.5.3	Conditional Preference Networks with Tradeoffs . . . . .	70
3.5.4	Conditional Importance Networks . . . . .	71
3.5.5	Conditional Preference Networks with Utilities . . . . .	72
3.5.6	Soft Constraint Satisfaction Problems . . . . .	72
3.6	Bipolar Preferences . . . . .	76
3.6.1	Representing Bipolar Preferences in Weighted Logics . . . . .	76
3.6.2	Representing Bipolar Preferences in Conditional Logics . . . . .	79
3.6.3	Representing Bipolar Preferences in Graphical Languages . .	80
3.7	Conclusion . . . . .	81
	References . . . . .	81
<b>4</b>	<b>Making Hidden Priorities Explicit . . . . .</b>	<b>87</b>
4.1	Introduction . . . . .	87
4.2	Conditional Logics and Weighted Logics . . . . .	88
4.2.1	Optimistic Semantics vs. Prioritized Preferences . . . . .	88
4.2.2	Strong Semantics vs. Prioritized Preferences . . . . .	92
4.2.3	Pessimistic Semantics vs. Prioritized Preferences . . . . .	95
4.3	Positive and Negative Preferences . . . . .	96
4.4	Conditional Preference Networks and Weighted Preferences . . . . .	99
4.5	Conclusion . . . . .	104
	References . . . . .	104
<b>5</b>	<b>What Psychology Has to Say About Preferences . . . . .</b>	<b>107</b>
5.1	Introduction . . . . .	107
5.2	Origins of Preferences . . . . .	108
5.3	The Role of Affect in Human Preferences . . . . .	109
5.4	The Constructive Nature of Preferences . . . . .	111
5.5	Conclusion . . . . .	114
	References . . . . .	114

## Part II Reasoning with Preferences

<b>6</b>	<b>Preferences in Argumentation Theory . . . . .</b>	<b>121</b>
6.1	Introduction . . . . .	121
6.2	Dung's Argumentation Framework . . . . .	122
6.3	Preference-Based Argumentation Framework . . . . .	125
6.4	Where Does the Preference Relation Come from? . . . . .	132
6.4.1	Implicit Priorities . . . . .	132
6.4.2	Explicit Priorities . . . . .	133
6.4.3	Value-Based Argumentation Framework . . . . .	134
6.4.4	Extended Value-Based Argumentation Framework . . . . .	136
6.4.5	Arguing About Preferences . . . . .	138

6.4.6	Preference-Based Argumentation Framework with Fuzzy Preference Relation .....	139
6.5	Higher Use of Preferences in Preference-Based Argumentation Frameworks .....	145
6.6	Conclusion .....	148
	References .....	149
<b>7</b>	<b>Preferences in Database Queries .....</b>	<b>151</b>
7.1	Introduction .....	151
7.2	Preliminaries .....	152
7.3	Database Queries with Preferences .....	153
7.4	Database Queries with the Skyline Operator .....	153
7.5	Database Queries with Preference Constructors .....	155
7.6	Database Queries with Logical Formulas .....	155
7.7	Database Queries with a CP-net .....	158
7.8	Database Queries with an Incomplete CP-net .....	160
7.9	Database Queries with Comparative Preference Statements .....	161
7.10	Conclusion .....	166
	References .....	166
<b>8</b>	<b>Preferences Aggregation .....</b>	<b>173</b>
8.1	Introduction .....	173
8.2	Multiple Criteria Decision .....	175
8.2.1	Multiple Aggregation Decision vs. Conditional Logics .....	176
8.2.2	Numerical Aggregation Approach: Discrete Choquet Integral .....	179
8.2.3	Conditional Logics vs. Choquet Integral .....	181
8.3	Temporal Reasoning .....	185
8.3.1	Qualitative Interval Algebra .....	186
8.3.2	Conditional Logics vs. Allen's Algebra .....	188
8.4	Conclusion .....	192
	References .....	192
<b>9</b>	<b>Conclusion .....</b>	<b>195</b>
	<b>Index .....</b>	<b>201</b>
