

Table of Contents

I Mechanisms of Sepsis and Multiple Organ Failure

The Role of Receptor for Advanced Glycation Endproducts (RAGE) in Infection	
M.A.D. VAN ZOELLEN, A. ACHOUITI, and T. VAN DER POLL	3
The Endocannabinoid System: A Janus-faced Modulator of Inflammation in the Intestinal Microcirculation	
C. LEHMANN, V. CERNY, and M. MATEJOVIC	16
Remote Ischemic Conditioning against Ischemia/reperfusion Injury	
P. MEYBOHM and B. BEIN	26
Hypoxia-inducible Factors and the Prevention of Acute Organ Injury	
S.N. HEYMAN, S. ROSEN, and C. ROSENBERGER	37

II Coagulation System

Are Microparticles Reliable Deleterious Effectors in Septic Coagulopathy?	
X. DELABRANCHE, F. TOTI, and F. MEZIANI	51
The Inflammatory Potential of Fibrin(ogen) and its Degradation Products	
C. JENNEWEIN, N. TRAN, and K. ZACHAROWSKI	62
Iron Deficiency in Critically Ill Patients: Highlighting the Role of Hepcidin	
N. HEMING, P. MONTRAVERS, and S. LASOCKI	70
Heparin-induced Thrombocytopenia in the ICU: An Overview	
Y. SAKR	80

III Acute Respiratory Failure

The Next Generation of ALI Genetics: Insights into Pathophysiology	
N.J. MEYER and J.D. CHRISTIE	97
Use of B-type Natriuretic Peptides in Acute Exacerbation of Chronic Obstructive Pulmonary Disease Requiring Ventilatory Support	
F. DACHRAOUI, L. OUANES-BESBES, and F. ABROUG	109
Acute Lung Injury in the ICU: Focus on Prevention	
I. GALVIN and N.D. FERGUSON	117

IV Endotracheal Intubation

Rapid Sequence Intubation: Overview and Myths Versus Facts M.F. YAZBECK, J. FINKELSTEIN J, and R.P. DELLINGER	131
Research Priorities in Oral Care for Endotracheally-intubated Patients S. LABEAU and S. BLOT	144

V Ventilator Issues

Pros and Cons of Assisted Mechanical Ventilation in Acute Lung Injury M. GAMA DE ABREU, P.R.M. ROCCO, and P. PELOSI	159
Can 'Permissive' Hypercapnia Modulate the Severity of Sepsis-induced ALI/ARDS? G. CURLEY, M. HAYES, and J.G. LAFFEY	174
NAVA: Why, When, Who? C. SINDERBY and J. BECK	188
Therapeutic Aerosols in Mechanically Ventilated Patients S. RUICKBIE, A. HALL, and J. BALL	197

VI Cardiac Crises

Cardiac Mitochondria and Heart Failure: The Chicken or the Egg S. SCOLLETTA, B. BIAGIOLI, and P. GIOMARELLI	209
Evolving Rationale for Minimally-interrupted Chest Compressions during Cardiopulmonary Resuscitation J.G. WIGGINTON, A.H. IDRIS, and P.E. PEPE	220

VII Renal Aspects

Hypoalbuminemia as a Risk Factor for Acute Kidney Injury M. JOANNIDIS and C.J. WIEDERMANN	233
Developing Biological Markers: The Case of Urinary Neutrophil Gelatinase- associated Lipocalin in Acute Kidney Injury A.A.N.M. ROYAKKERS, P.E. SPRONK, and M.J. SCHULTZ	242
Biomarkers of Acute Kidney Injury in Cardiorenal Syndromes A.K. ROY, B.A. MCMAHON, and P.T. MURRAY	251
Cardio-renal Syndromes: A Complex Series of Combined Heart/Kidney Disorders C.Y. GOH and C. RONCO	263
Blood Purification in Sepsis and Acute Kidney Injury in Critically Ill Patients P.M. HONORÉ, N. DOBBELEIRE, and O. JOANNES-BOYAU	273

VIII Fluids

The Lymphatic Vasculature as a Participant in Microvascular Exchange J. SCALLAN and V.H. HUXLEY	287
--	-----

The Interstitium and Lymphatics have an Important Role in Edema Generation during Sepsis Ø.S. SVENDSEN, R.K. REED, and H. WIIG	297
Fluid is a Drug that can be Overdosed in the ICU S.L. GOLDSTEIN	307
Crystalloid or Colloid Fluids: A Matter of Volumes? R.J. TROF and A.B.J. GROENEVELD	313
Meaning of Pulse Pressure Variation during ARDS J.-L. TEBOUL and X. MONNET	322
The Fluid Challenge M. CECCONI, B. SINGER, and A. RHODES	332
Facing the Challenge: A Rational Strategy for Fluid and Volume Management K. HECKEL, M.S. STRUNDEN, and D.A. REUTER	340

IX The Microcirculation

Mitochondrial Function in Septic Shock M.A. PUSKARICH and A.E. JONES	355
How Can We Use Tissue Carbon Dioxide Measurement as an Index of Perfusion? E. FUTIER, J.-L. TEBOUL, and B. VALLET	366
Use of Non-invasive Tissue Oxygen Saturation Monitoring to Assess Cardiovascular Insufficiency X. GARCIA, F.X. GUYETTE, and M.R. PINSKY	375
The Microcirculation of the Critically Ill Pediatric Patient A.P.C. TOP, R.C. TASKER, and C. INCE	380

X Cardiovascular Monitoring

Heart Rate as Prognostic Marker and Therapeutic Target in MODS S. NUDING, K. WERDAN, and H. EBELT	393
Hemodynamic Monitoring in Cardiogenic Shock J. POELAERT	406
Non-invasive Estimation of Left Ventricular Filling Pressures by Doppler Echocardiography F. CLAU-TERRÉ, J. RELLO, and A. EVANGELISTA	418
Hemodynamics from the Periphery S. ROMAGNOLI, S.M. ROMANO, and D. PAYEN	424
Totally Non-invasive Continuous Cardiac Output Measurement with the Nexfin CO-Trek A. PEREL and J.J. SETTELS	434
Cardiac Output Monitoring: An Integrative Perspective J.A. ALHASHEMI, M. CECCONI, and C.K. HOFER	443

XI Perioperative Medicine

Perioperative Hemodynamic Optimization N. BRIENZA, L. DALFINO, and M.T. GIGLIO	459
Perioperative Myocardial Ischemia/reperfusion Injury: Pathophysiology and Treatment S.G. DE HERT and P.F. WOUTERS	471

XII Infection and Sepsis

A New Approach to Ventilator-associated Pneumonia Based on the PIRO System I. MARTIN-LOECHES, M. ULLDEMOLINS, and E. DIAZ	481
Selective Decontamination of the Digestive Tract and Antibiotic Resistance E. DE JONGE and E.H.R. VAN ESSEN	493
New Treatment Options against Gram-negative Organisms M. BASSETTI, F. GINOCCHIO, and M. MIKULSKA	501
Antifungal Therapy in the ICU: The Bug, the Drug, and the Mug J.M. PEREIRA and J.A. PAIVA	516
Mycobacterial Sepsis and Multiorgan Failure Syndrome S. JOG, B. PAWAR, and D. PATEL	531
Pentraxin 3 (PTX3): Possible Role in Critical Care Medicine T. MAURI, B. BOTTAZZI, and A. PESENTI	543
Role of IgM- and IgA-enriched Immunoglobulins in the Treatment of Sepsis and Septic Shock G. BERLOT, M.C. VASSALLO, and F. TARTAMELLA	550

XIII Liver Failure

Spontaneous Bacterial Peritonitis in Patients with Cirrhosis and Ascites S. PIANO, F. MORANDO, and P. ANGELI	559
Acute-on-chronic Liver Failure: An Entity Still in Search of Itself? L. VERBEKE, W. MEERSEMAN, and W. LALEMAN	576

XIV Trauma and Emergency Medicine

Cocaine Intoxication J.E. HOLLANDER and A.M. CHANG	591
Airway Management for Major Trauma C. HOMMERS and J. NOLAN	599
Goal-directed Coagulation Management in Major Trauma H. SCHOECHL, W. VOELCKEL, and C. SOLOMON	611

XV Neurological Aspects

Understanding Posterior Reversible Encephalopathy Syndrome S. LEGRIEL, F. PICO, and E. AZOULAY	631
---	-----

Prediction of Neurological Outcome after Cardiac Arrest C. SANDRONI, F. CAVALLARO, and M. ANTONELLI	654
Neuroprotection in Sepsis by Complement Inhibition and Immunoglobulin Therapy F. ESEN	664
Ethics in Disorders of Consciousness A. DEMERTZI, S. LAUREYS, and M.-A. BRUNO	675

XVI Metabolic Disorders and Nutrition

Metformin and Lactic Acidosis S. VECCHIO, P. PAPA, and A. PROTTI	685
Energy Goals in the Critically Ill Adult S.L. PEAKE, E. RIDLEY, and M. CHAPMAN	694

XVII ICU Organization and Management

Frailty: A New Conceptual Framework in Critical Care Medicine R.C. McDERMID and S.M. BAGSHAW	711
Access Block and Emergency Department Overcrowding R. FORERO, S. MCCARTHY, and K. HILLMAN	720
Triage of High-risk Surgical Patients for Intensive Care J. SOBOL and H. WUNSCH	729
Transportation of the Critically Ill: Moving in the Right Direction P.G. BRINDLEY and T. O'LEARY	741
Should we Still Order Chest X-rays in the ICU? V. IOOS, A. GALBOIS, and B. GUIDET	753
The Effect of Light on Critical Illness R. CASTRO, D.C. ANGUS, and M.R. ROSENGART	766
Context Information in Critical Care G. MURIAS, B. SALES, and L. BLANCH	781

XVIII The Future

Ambient Intelligence in the Intensive Care Unit: Designing the Electronic Medical Record of the Future B.W. PICKERING, J.M. LITELL, and O. GAJIC	793
Simulation in Critical Care Medicine: The Next Ten Years P.G. BRINDLEY	803
Intensive Care Medicine: Where We Are and Where We Want to Go? R.P. MORENO and A. RHODES	813

Subject Index	823
