

Contents

Introduction 1

Scaling Laws 3

Elastic Deformations 5

Thin Films 9

Conductor Paths 21

Membranes 29

Strain Gauges on Membranes 53

Beams 65

Vibrations 85

Capillaries 107

Capacitive Forces 131

Piezoelectric Effect 137

Thermal Actuators 159

Microoptics 177

Diffusion 191

Microvalves	203
Micropumps	229
Microdosing	251
Analogies of Physical Domains	253
Mechanical Devices for Electronics	261
Pressure Sensors	275
Flow Sensors	289
Inertial Sensors	303
References	311
Index	317
