The Cone of Betti Diagrams of Bigraded Artinian Modules of Codimension Two	1
Mats Boij and Gunnar Fløystad	
1 Introduction	1
2 Preliminaries	3
2.1 Betti Diagrams and the Multigraded Herzog–Kühl Equations	3
2.2 The Equivariant Resolution	5
2.3 The Linear Space of Betti Diagrams of Multigraded Artinian Modules	5
2.4 The Linear Space in the Case of Two Variables	6
3 The Positive Cone of Bigraded Betti Diagrams	7
3.1 Partitions	7
3.2 Decomposing	9
4 Existence of Resolutions	11
5 Resolutions of Trigraded Artinian Modules of Codimension Three	14
References	16
Koszul Cycles	17
Winfried Bruns, Aldo Conca and Tim Römer	
1 Introduction	17
2 Notation and Generalities	18
3 Bounds for Koszul Cycles	21
4 Green–Lazarsfeld Index for Segre–Veronese Rings	26
5 Generating Koszul Cycles	29
References	32
Boij–Söderberg Theory	35
