

# Contents

<b>Structural and Functional Discrimination of Membrane Proteins</b> .....	1
M. Michael Gromiha, Yu-Yen Ou, and Shu-An Chen	
<b>Pharmacology of Hyperpolarization-Activated Cyclic Nucleotide-Gated (HCN) Channels</b> .....	33
Patrick Bois, Aurelien Chatelier, Jocelyn Bescond, and Jean-François Faivre	
<b>Advanced Molecular Modeling Techniques Applied to Ion Channels Blockers</b> .....	53
Supa Hannongbua, Witcha Treesuwan, and Warabhorn Boonyarat	
<b>Advances in Design and Development of Sodium Channel Blockers</b> .....	79
Valentina Zuliani, Laura Amori, and Mirko Rivara	
<b>Potassium Channel Blockers as Antiarrhythmic Agents</b> .....	117
Qidong You, Qian Yang, and Xiaojian Wang	
<b><i>h</i>ERG Potassium Channels in Drug Discovery and Development</b> .....	149
Jitendra N. Singh and Shyam S. Sharma	
<b>Prediction of <i>h</i>ERG Channel Inhibition Using In Silico Techniques</b> .....	191
Andrea Schiesaro and Gerhard F. Ecker	
<b>Advances in Structure–Activity Relationship Studies on Potassium Channel Modulators</b> .....	241
Brij K. Sharma, Prithvi Singh, and Yenamandra S. Prabhakar	

<b>Calcium Ion Channels and Their Blockers</b> .....	265
Dimitra Hadjipavlou-Litina	
<b>Therapeutic Potential of N-Type Voltage-Gated <math>\text{Ca}^{2+}</math> Channel</b> .....	289
C. Gopi Mohan, Ashish Pandey, and Jignesh Mungalpara	
<b>Chloride Ion Channels: Structure, Functions, and Blockers</b> .....	309
Satya P. Gupta and Preet K. Kaur	
<b>Index</b> .....	341

Ion Channels and Their Inhibitors

Gupta, S.P. (Ed.)

2011, XIII, 348 p., Hardcover

ISBN: 978-3-642-19921-9
