

Contents

1	Introduction	1
1.1	Innovation in Software Engineering	2
1.2	Blending Innovation Management and Software Engineering	3
1.3	Rationale of This Book	3
1.4	Structure of This Book	4
1.5	Software and Innovation	4
1.5.1	Software as an Instrument for Innovation in Products and Services	5
1.5.2	Software as an Enabler of Innovation Processes	6
1.5.3	Software as an Enabler for Business Model Innovation	6
1.6	Why Innovation in Software Is Different	7
1.6.1	Software Is Malleable	7
1.6.2	Software Is ‘Intangible’	7
1.6.3	The Threshold to Enter the Software Market Is Low	8
1.6.4	The Role Users Play in Software Development	9
1.6.5	The Huge Impact of Expert/Critical Resources in Software Innovation	9
1.7	Leaving the Comfort Zone of Feature Development	9
1.7.1	Increased Technology Confrontation	10
1.7.2	Increased Market Confrontation	10
1.7.3	The Software Jungle: Threat or Opportunity?	10
1.7.4	The Battle for User Attention	11
1.7.5	Leaving the Comfort Zone	12
1.8	Different Software Companies Have Different Innovation Needs	12
1.8.1	Innovation in Project Based Development	14
1.8.2	Innovation in Out of the Box Development	15
1.8.3	Innovation in Customized Product Development	17
	References	17

2	The Practice Areas	19
2.1	The Practice Areas at a Glance	19
2.1.1	The Art of Focusing	19
2.1.2	The Art of Idea Harvesting	20
2.1.3	The Art of Idea Valuation	21
2.1.4	The Art of Openness	21
2.1.5	The Art of Optimizing the Impact of Critical Experts	22
2.1.6	The Art of Crafting Smart Products	22
2.1.7	The Art of Innovation Stimulation	22
2.1.8	The Art of Innovation Incubation	23
2.2	Structure of the Practice Areas	23
2.2.1	Description and Scope	23
2.2.2	Main Activities	24
2.2.3	Links to Other Practice Areas	24
2.2.4	Questions	25
2.3	The Art of Focusing	25
2.3.1	Description and Scope	25
2.3.2	The Art of Focusing – Main Activities	30
2.3.3	Relations with Other Practice Areas	32
2.3.4	Questions	33
2.4	The Art of Idea Harvesting	33
2.4.1	Description and Scope	33
2.4.2	The Art of Idea Harvesting – Main Activities	36
2.4.3	Relations with Other Practice Areas	47
2.4.4	Questions/Checklist	48
2.5	The Art of Idea Valuation	48
2.5.1	Description and Scope	48
2.5.2	The Art of Idea Valuation – Main Activities	51
2.5.3	Relationships with Other Practice Areas	57
2.5.4	Questions	57
2.6	The Art of Openness	57
2.6.1	Description and Scope of the Art of Openness	58
2.6.2	The Art of Openness – Main Activities	61
2.6.3	Relations with Other Practice Areas	67
2.6.4	Questions	68
2.7	The Art of Optimizing the Impact of Critical Experts	68
2.7.1	Description and Scope	68
2.7.2	The Art of Optimizing the Impact of Critical Experts – Main Activities	72
2.7.3	Relations with Other Practice Areas	78
2.7.4	Questions	78
2.8	The Art of Crafting Smart Products	79
2.8.1	Description and Scope	79
2.8.2	The Art of Crafting Smart Products – Main Activities	82

2.8.3 Relations with Other Practice Areas	92
2.8.4 Questions	92
2.9 The Art of Innovation Stimulation	93
2.9.1 Description and Scope	93
2.9.2 Main Activities	94
2.9.3 Relations with Other PAs	102
2.9.4 Questions/Checklist	103
2.10 The Art of Innovation Incubation	104
2.10.1 Introduction and Scope	104
2.10.2 Activities of Radical Innovation Incubation	106
2.10.3 Links to Other Practice Areas	112
2.10.4 Questions	113
2.11 The Software Innovation Canvas	113
References	117
3 Industrial Cases About Software Innovation	123
3.1 Steria, Focusing Innovation in a Large ICT Company	123
3.1.1 Challenge of the Company	123
3.1.2 How the Case Was Executed	124
3.1.3 Lessons Learned – Solutions	127
3.1.4 Managerial Implications	127
3.2 Mobideas, Co-creating B2C Software Together with End-Users ..	128
3.2.1 Challenges Related to B2C Software Development	128
3.2.2 How the Case Was Executed	128
3.2.3 Lead User Identification	129
3.2.4 Idea Generation and Product Concept Design with Lead Users	130
3.2.5 Lead users Drive Agile development	131
3.2.6 Lessons Learned	131
3.3 Movial, Case of Innovation Improvement	134
3.3.1 Challenge of a Company	134
3.3.2 How the Case Was Executed	134
3.3.3 Lessons Learned and Solutions	135
3.3.4 Managerial Implications	136
3.4 Movial, Selecting Innovation Tools	137
3.4.1 Challenge in a Company	137
3.4.2 How the Case Was Executed	137
3.4.3 Lessons Learned and Solutions	139
3.5 DS2, the Idea Management Process	141
3.5.1 Description of the Company	141
3.5.2 Challenges – Innovation strategy by DS2	141
3.5.3 Case Objectives	142
3.5.4 Initial State	142

3.5.5	How the Case Was Executed	143
3.5.6	Lessons Learned – Solutions	147
3.6	Metso, Harvesting Product Ideas as Part of a Global Innovation Process	148
3.6.1	The Challenge of Harvesting Product Ideas in a Global Innovation Environment	148
3.6.2	How the Case Was Executed	148
3.6.3	Lessons Learned – Solutions	149
3.6.4	Managerial Implications	149
3.7	Financial Company, Customer Values and Innovation	150
3.7.1	Challenge of Aligning Innovation with the Company's Capabilities and Customer Values	150
3.7.2	How the Case Was Executed	151
3.7.3	Lessons Learned – Solutions	152
3.8	Owela, Online Co-creation with End-Users	153
3.8.1	Challenge of Co-creation with End-Users	153
3.8.2	How the Case Was Executed	154
3.8.3	Lessons Learned – Solutions	154
3.9	Inno-W, Practical Open Idea Management, Case Finnish Forestcluster	155
3.9.1	Challenge of Open Idea Co-creation	155
3.9.2	How the Case Was Executed	156
3.9.3	Lesson Learned – Solutions and Managerial Implications ...	157
3.10	Mahiti Infotech, Open Source as an Innovation Enabler in India ..	159
3.10.1	Challenge of Using Open Source Software in Software Business	159
3.10.2	How the Case Study Was Executed	159
3.10.3	Lessons Learned	160
3.10.4	Managerial Implications	161
3.11	Answare, Idea Generation Within the Company's Human Resources	161
3.11.1	How the Case Was Executed	161
3.11.2	Lessons Learned – Solutions	162
3.12	Sisteplant, Idea Valuation	165
3.12.1	Challenge	165
3.12.2	How the Case Is Executed	166
3.12.3	Lessons Learned – Solutions	167
3.12.4	Managerial Implications	167
3.13	Polar Elektro, InnoCoop – A Method to Support Innovation	167
3.13.1	Innovation competition and the InnoCoop Method	167
3.13.2	Theoretical Background and Development	168
3.13.3	Why Does InnoCoop Work?	168
3.13.4	InnoCoop in Figures	169

3.13.5 InnoCoop in Polar Electro Ltd	169
3.13.6 What Kind of Results Can InnoCoop Deliver?	169
3.14 Invicor, Flying Start to Merge Three Organizations	169
3.14.1 Challenge	171
3.14.2 How the Case Was Executed	172
3.14.3 Lessons Learned – Solutions	173
3.15 Tecnalia, the Art of Innovation Stimulation	174
3.15.1 Challenge	174
3.15.2 How the Case Was Executed	174
3.15.3 Lessons Learned – Solutions	175
3.16 AuraPortal, Incubating a BPMS Company	176
3.16.1 Challenge: Incubating a New Venture	177
3.16.2 How the New Venture Was Incubated	177
3.16.3 Lesson Learned	178
3.17 Sisteplant, Experiment of the Mobile Devices	179
3.17.1 Challenge	179
3.17.2 How the Case Was Executed	179
3.17.3 Lessons Learned – Solutions	180
3.18 Metallurgy, Example of Experimentation	181
3.18.1 Challenge	181
3.18.2 How the Case Was Executed	181
3.18.3 Lessons Learned – Solutions	182
3.19 NSN, the Art of Transforming Ideas into Market Solutions	182
3.19.1 A Challenge in Innovation Treatment	182
3.19.2 How the Case Was Executed	182
3.19.3 Lessons Learned – Solutions	183
3.20 Keraben, the Human Driven Dynamic Workflow Experiment	183
3.20.1 Challenge	184
3.20.2 How the Case Was executed?	185
3.20.3 Lessons Learned	188
3.21 Sisteplant, Making the Most of Critical People in the Company ...	189
3.21.1 Challenge	189
3.21.2 How the Case Was Executed	190
3.21.3 Lessons Learned – Solutions	190
References	191
4 Conclusions	193
