

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Scientific Approach	1
1.2	Scope	1
1.3	Data Base	4
1.4	Data Acquisition and Methodology	4
<b>2</b>	<b>Setting</b>	<b>7</b>
2.1	Geology & Tectonics	7
2.1.1	Introduction	7
2.1.2	Pre-Mesozoic Craton	7
2.1.3	Australian Southern Rift System	7
2.1.4	Cenozoic Continental Margin Wedge	9
2.1.5	Tectonic Inversion	10
2.2	Meteorology & Climate	11
2.2.1	Introduction	11
2.2.2	Anticyclonic Highs	13
2.2.3	Mid-Latitude Depressions	14
2.2.4	Tropical Cyclones (Hurricanes)	14
2.2.5	Temperature, Precipitation and Evapotranspiration	14
2.3	Oceanography	15
2.3.1	Introduction	15
2.3.2	Sea State	15
2.3.3	Oceanographic Zones	16
2.3.4	Water Masses	18
2.3.5	Current Systems	20
2.3.6	Tidal Currents and Internal Waves	22
2.3.7	Seasonal Variability and Trophic Resources	22
2.4	Synopsis	23
<b>3</b>	<b>The Pleistocene Record</b>	<b>25</b>
3.1	Introduction	25
3.2	The Continental Slope Record	26
3.2.1	Slope Sedimentation	26
3.2.2	Biogenic Mounds	28
3.3	The Highstand Aeolianite Record	32
3.4	The Spencer Gulf and Gulf St. Vincent Record	33

3.5	The Continental Shelf Record .....	34
3.5.1	Overview .....	34
3.5.2	Relict Particles .....	37
3.5.3	Stranded Particles .....	38
3.5.4	Late Pleistocene Shelf Paleoenvironments .....	39
3.6	Synopsis .....	41
<b>4</b>	<b>The Neritic Carbonate Factory .....</b>	<b>45</b>
4.1	Introduction .....	45
4.2	Biogenic Sediment Production .....	45
4.2.1	Seagrass and Macroalgae .....	46
4.2.2	Calcareous Algae .....	51
4.2.3	Bryozoans .....	54
4.2.4	Molluscs .....	62
4.2.5	Foraminifers .....	66
4.2.6	Echinoderms .....	68
4.2.7	Barnacles .....	68
4.2.8	Calcareous Worms .....	68
4.2.9	Ostracods .....	68
4.2.10	Coccoliths .....	68
4.2.11	Sponges .....	68
4.2.12	Ascidians .....	69
4.3	Other Components .....	69
4.3.1	Corals .....	69
4.3.2	Brachiopods .....	70
4.4	Authigenic Mineral Particles .....	70
4.4.1	Glauconite .....	70
4.5	Detrital Grains .....	70
4.5.1	Siliciclastic Particles .....	70
4.5.2	Dolomite .....	71
4.5.3	Older Cenozoic Carbonates .....	71
4.6	Synopsis .....	71
<b>5</b>	<b>Marginal Marine Deposystems .....</b>	<b>73</b>
5.1	Introduction .....	73
5.2	Setting .....	73
5.3	Rocky Peritidal .....	73
5.4	Barrier Island—Aeolianite—Lagoon—Saline Lake Complexes ....	75
5.4.1	Beaches .....	75
5.4.2	Aeolianite Dunes .....	78
5.4.3	Lagoons .....	79
5.4.4	Lakes .....	80
5.5	Muddy Tidal Flats .....	81
5.6	Synopsis .....	83
<b>6</b>	<b>Neritic Sedimentary Facies .....</b>	<b>85</b>
6.1	Introduction .....	85
6.2	Megafacies C—Recent Carbonate .....	85
6.2.1	Grainy Carbonate Facies .....	85
6.2.2	Muddy Carbonate Facies .....	100

6.3	Megafacies M—Relict-Rich Carbonate	101
6.3.1	Facies M1—Relict-Rich Skeletal Sand and Gravel	101
6.3.2	Facies M2—Relict-Rich Quartzose Skeletal Sand and Gravel	102
6.3.3	Facies M3—Relict-Rich Molluscan Sand	102
6.3.4	Facies M4—Relict-Rich Bryozoan Sand	103
6.3.5	Facies M5—Relict-Rich Fine Skeletal Sand	103
6.4	Megafacies R—Relict Carbonate	104
6.4.1	Facies R1—Relict Sand	104
6.4.2	Facies R2—Mollusc-Rich Relict Sand	105
6.4.3	Facies R3—Bryozoan-Rich Relict Sand	105
6.4.4	Facies R4—Limestone Gravel	106
6.5	Megafacies Q—Quartz Sand	106
6.5.1	Facies Q1—Calcareous Quartz Sand	106
6.6	Megafacies B—Biosiliceous Mud	107
6.6.1	Facies B1—Spiculitic Peloidal Siliciclastic Mud	107
6.7	Synopsis	107
<b>7</b>	<b>Neritic Depositional Environments</b>	<b>109</b>
7.1	Introduction	109
7.2	Shallow Neritic Environments	111
7.2.1	Setting	111
7.3	Middle Neritic Environments	119
7.3.1	Setting	119
7.4	Deep Neritic Environments and Facies	123
7.4.1	Setting	123
7.4.2	Epibenthic Scrub	123
7.5	Upper Slope Environments and Facies	125
7.5.1	Setting	125
7.5.2	Epibenthic Turf	125
7.5.3	Burrowed Mud Barren	125
7.6	Synopsis	125
<b>8</b>	<b>The Southwestern Shelf</b>	<b>129</b>
8.1	Introduction	129
8.2	The Albany Shelf	129
8.2.1	General Attributes	129
8.2.2	Oceanography	129
8.2.3	Marginal Marine	130
8.2.4	Shelf Sediments	132
8.3	The Great Australian Bight	134
8.3.1	General Attributes	134
8.3.2	Oceanography	134
8.3.3	Neritic Sediments	138
8.4	Baxter Sector (Western Great Australian Bight)	140
8.4.1	General Attributes	140
8.4.2	Local Oceanography	140
8.4.3	Marginal Marine	140
8.4.4	Neritic Sediments	140

8.5	Eyre Sector (Central Great Australian Bight)	143
8.5.1	General Attributes	143
8.5.2	Oceanography	143
8.5.3	Marginal Marine	143
8.5.4	Shelf Sediments	143
8.6	Ceduna Sector (Eastern Great Australian Bight)	144
8.6.1	General Attributes	144
8.6.2	Oceanography	144
8.6.3	Marginal Marine	145
8.6.4	Shelf Sediments	145
8.7	Synopsis	147
<b>9</b>	<b>The South Australian Sea</b>	<b>149</b>
9.1	Introduction	149
9.2	Spencer Gulf	149
9.2.1	General Attributes	149
9.2.2	Local Oceanography	154
9.2.3	Shallow Neritic Facies	154
9.3	Gulf St. Vincent	156
9.3.1	General Attributes	156
9.3.2	Local Oceanography	156
9.3.3	Shallow Neritic Sedimentary Facies	156
9.4	Investigator Strait and Backstairs Passage	159
9.4.1	General Attributes	159
9.4.2	Local Oceanography	159
9.4.3	Shallow Neritic Sedimentary Facies	159
9.5	Lincoln Shelf	160
9.5.1	General Attributes	160
9.5.2	Oceanography	160
9.5.3	Marginal Marine	162
9.5.4	Neritic Sediments	162
9.6	The Lacepede Shelf	162
9.6.1	General Attributes	162
9.6.2	Local Oceanography	164
9.6.3	Marginal Marine	166
9.6.4	Shelf Sediments	166
9.7	Synopsis	169
<b>10</b>	<b>The Southeastern Continental Margin</b>	<b>171</b>
10.1	Introduction	171
10.2	Otway Shelf	172
10.2.1	General Attributes	172
10.2.2	Local Oceanography	172
10.2.3	Marginal Marine	173
10.2.4	Shelf Sediments	174
10.2.5	Zone of Mixed Facies	179
10.3	Tasmania	179
10.3.1	Introduction	179
10.4	The Bass Basin	180
10.4.1	General Attributes	180

10.4.2	Local Oceanography	180
10.4.3	Neritic Sediments	180
10.5	West Tasmania Shelf	181
10.5.1	General Attributes	181
10.5.2	Local Oceanography	181
10.5.3	Marginal Marine	183
10.5.4	Marine Depositional Systems	183
10.6	Eastern Tasmania	185
10.6.1	Oceanography	185
10.6.2	Sedimentology	185
10.7	Synopsis	185
<b>11</b>	<b>Diagenesis</b>	187
11.1	Introduction	187
11.2	Marginal Marine Environments	187
11.3	Neritic Environments	187
11.3.1	Biological Alteration	187
11.3.2	Chemical Diagenesis	188
11.3.3	Synsedimentary Cementation	189
11.3.4	Fe-oxide Coating and Impregnation	190
11.3.5	Synsedimentary Dissolution	191
11.4	Synopsis	193
<b>12</b>	<b>Summary &amp; Synthesis</b>	195
12.1	Introduction	195
12.2	Environmental Controls	195
12.2.1	Geography	195
12.2.2	Sea Level History	195
12.2.3	Geology and Tectonic History	196
12.2.4	Climate	196
12.2.5	Oceanography	198
12.2.6	Trophic Resources	199
12.3	Zones	201
12.4	Sedimentology	201
12.4.1	Epibenthic Sediment Production	201
12.4.2	Physical Disturbance	203
12.4.3	Authigenesis and Diagenesis	203
12.4.4	Sedimentary Facies	204
12.5	Accumulation Dynamics	210
12.5.1	Tectonics and Accommodation	210
12.5.2	Holocene Stratigraphy	210
12.6	Forward Modelling	212
12.6.1	Hydrodynamic Energy	213
12.6.2	Trophic Resources	213
12.6.3	Accommodation	214
12.7	Global Comparison	214
12.7.1	Southern Hemisphere	215
12.7.2	Northern Hemisphere	215
12.8	Conclusion	216

<b>Appendices</b> .....	219
Appendix A   Seafloor Sample Sites–Albany Sector .....	219
Appendix B   Seafloor Sample Sites–Great Australian Bight Sector .....	220
Appendix C   Seafloor Sediment Sample Sites–South Australian Sea Sector–Bonney Shelf .....	224
Appendix D   Seafloor Sample Sites–Bass Strait & Tasmania .....	229
<b>References</b> .....	235
<b>Index</b> .....	247

Neritic Carbonate Sediments in a Temperate Realm  
Southern Australia

James, N.P.; Bone, Y.

2011, XIV, 254 p., Hardcover

ISBN: 978-90-481-9288-5
