

Contents

1 Executive Summary	1
William T. Pennell	
2 Introduction	19
George M. Hidy, Jeffrey R. Brook, Kenneth L. Demerjian, Luisa T. Molina and Richard D. Scheffe	
3 Decision-Making Framework for Air Quality Management	23
George M. Hidy, Jeffrey R. Brook, Kenneth L. Demerjian, Luisa T. Molina and Richard D. Scheffe	
4 Risk-Based Assessment and Management Framework	45
Bryan Hubbell and Chris Frey	
5 Health Assessment Aspects of Risk- and Results-Based Multipollutant Air Quality Management	67
Joe Mauderly and Ron Wyzga	
6 Ecosystems	139
Thomas A. Clair, Douglas Burns, Irma Rosas Pérez, Jules Blais and Kevin Percy	
7 Atmospheric Science of Air Pollution Phenomena—Current Directions Toward Exposure Characterization	231
Kenneth L. Demerjian	
8 Source Emissions in Multipollutant Air Quality Management	261
C. Andrew Miller	
9 Atmospheric Modeling	299
Christian Seigneur and Robin Dennis	

10	Air Quality Measurements	339
	Richard D. Scheffe, Jeffrey R. Brook and Kenneth L. Demerjian	
11	Global Change and Air Quality	395
	Daniel J. Jacob, Denise L. Mauzerall, Julia Martínez Fernández and William T. Pennell	
12	Past Examples of Multipollutant Air Quality Management and Accountability	433
	George M. Hidy, Jeffrey R. Brook and Kenneth L. Demerjian	
13	Toward Risk- and Results-Based Multipollutant Air Quality Management—What’s Next?	505
	George M. Hidy, Jeffrey R. Brook, Kenneth L. Demerjian, Luisa T. Molina and Richard D. Scheffe	
14	Conclusions and Recommendations	529
	George M. Hidy, Jeffrey R. Brook, Kenneth L. Demerjian, Luisa T. Molina and Richard D. Scheffe	
	Index	541

Technical Challenges of Multipollutant Air Quality
Management

Hidy, G.M.; Brook, J.R.; Demerjian, K.L.; Molina, L.T.;
Pennell, W.T.; Scheffe, R.D. (Eds.)

2011, XXVIII, 553 p., Hardcover

ISBN: 978-94-007-0303-2
