Part I Points of Departure

1 The Sustainable City	3
1.1 Historical Background	3
1.2 Today and Perspectives Forwards	6
Bibliography	9
2 Limitations and Necessities	11
2.1 Backcasting	11
2.2 Shared Traits and Differing Dimensions in the Images of the Future	14
2.3 Household Perspective	18
2.4 Creating Images of the Future.....	22
Bibliography	23
3 Limits of Urban Sustainability	25
3.1 Sustainable Development.....	25
3.2 What is a City and What are its System Boundaries?.....	29
3.3 Today's Energy Utilization on Global and Local Levels	30
3.4 New Energy-Related Technology	32
3.5 Energy Access and Distribution in the Future	33
Bibliography	36
4 Urban Tempo and Structure	37
4.1 Tempo	38
4.2 Urban Structure	40
4.3 Two Times Three: A Formula for Images of the Future Sustainable City	41
Bibliography	42

Part II Building Blocks

5 Introduction: Urban Structure, Activity Patterns and Technology	45
Bibliography	48
6 Development of Urban Structures	49
6.1 Introduction	49
6.2 Variations in Urban Development	51
6.2.1 Residences and Worksites	52
6.2.2 Industrial Production	54
6.2.3 Wholesaling and Goods Distribution	54
6.2.4 Office Localization	55
6.2.5 Capital Goods Trade	55
6.3 Cityscape Segmentation and Reinforcement of Relatively Independent Suburban Regions	56
6.4 The Polycentric City	57
Bibliography	59
7 Visions and Urban Structures	61
7.1 The Decentralized Low-Rise City	62
7.2 The Reinforced Centralized Urban Structure	65
7.3 New Mega-Centers and City Nodes in a Polycentric City	71
7.4 Summary	75
Bibliography	76
8 Stockholm's Urban Development	77
8.1 Focus on Transport in Urban Development	80
8.1.1 A Historical Perspective	81
8.2 Transport Systems in Today's Stockholm	86
8.3 Urban Structure and Travel Patterns	86
8.4 Transport System Loads	90
8.4.1 Goods Transports	94
8.5 Critical Problems in Today's Transport Systems Seen from a Sustainability Perspective	96
8.6 Conclusion	97
Bibliography	99
9 Future Cities – Possible Changes	101
9.1 Human Transportation	103
9.2 Construction	105
9.3 Three Different Shapes of the Future City	106
Bibliography	108

10 Time and Consumption	109
10.1 Introduction	109
10.2 Fundamental Categories of Temporal Perception	110
10.2.1 Cyclic Versus Linear Time Conception	110
10.2.2 Female Versus Male Time.....	113
10.2.3 Organic Versus Artifact Time	114
10.3 Trends in Time Rationalization	115
10.3.1 Work and Time Discipline	116
10.3.2 Rationalization of the Households' Free Time	119
10.3.3 Time Discipline Colonizes Even Free Time	122
10.4 Acceleration.....	126
10.5 Pluralization.....	129
10.6 Growing Time Shortage and Partial Prosperity	131
10.7 Changes in Consumption Patterns	133
10.7.1 Temporal Perception and Consumption.....	133
10.7.2 Time Scarcity and Consumption.....	136
10.7.3 Consumption and Energy Use.....	138
10.8 Conclusions	140
Bibliography	142
11 Housing and Other Premises	147
11.1 Housing Utilization, Land Use and Energy.....	148
11.2 Premises.....	151
11.3 Institutional Conditions	152
11.4 The Forces Motivating Households and Users of Commercial Premises.....	156
11.5 Possible Changes	159
Bibliography	162
12 Food	163
12.1 Introduction	163
12.2 Today's Foodstuffs Systems	164
12.2.1 Agricultural Production	166
12.2.2 The Foodstuffs Industry	169
12.2.3 Trade	170
12.2.4 Consumers.....	171
12.3 Where the Food Comes From.....	174
12.4 Images of Future Food – Suggestions for Solutions and Alternatives	178
12.4.1 Producing Food Within the City Limits.....	178
12.4.2 Changed Food Habits.....	179
12.4.3 Changed Food Preparation Habits	180
12.4.4 Changed Purchasing Habits	181
Bibliography	183

13 Travel	185
13.1 Introduction	185
13.2 Today's Trips and the Energy Used for Them.....	188
13.2.1 Work Related Travel	192
13.3 Change Potential.....	193
13.3.1 Tempo Slow in Relation to Fast	194
13.3.2 Suburban Centers	194
13.3.3 Urban Cores	196
13.3.4 Low-Rise Settlements	197
13.4 Work Related Travel	197
Bibliography	199
14 Durable Goods	201
14.1 Introduction	201
14.1.1 What Counts as Durable Goods?	202
14.2 Passive Energy Use.....	202
14.2.1 Passive Energy Use in Cars.....	204
14.2.2 Passive Energy Use in the Home	205
14.2.3 Trends in Passive Energy Use	205
14.3 Active Energy Use	206
14.4 Energy-Efficient Durable Goods?	208
14.4.1 Use of Durable Goods in the Future	209
14.4.2 Fewer, More Compact Goods	210
14.5 Durable Goods in the Images of the Future	210
14.5.1 Low-Rise Settlements – Fast.....	210
14.5.2 Low-Rise Settlements – Slow	211
14.5.3 Urban Cores – Fast.....	211
14.5.4 Urban Cores – Slow	211
14.6 Conclusions	212
Bibliography	213
15 Time Use in the Future	215
15.1 Long-Term Trends.....	216
15.1.1 Earning a Living.....	218
15.1.2 Unpaid Work in the Home	219
15.1.3 Spare Time	220
15.2 Time Use in Stockholm Households 1991–2001	223
15.3 Possible Alternatives to Today's Time Use	229
15.3.1 Municipal Time Planning.....	231
15.3.2 Visions of Another Time Use in Working Life: Flextime and the 3/3 Model	232
15.3.3 Self-Help Literature	233

15.4	Time Conventionalists and Pioneers	234
15.4.1	Città Slow and Slow Food.....	235
15.5	In Closing – Two Time Ideologies and Regimes.....	236
	Bibliography	238
16	Production.....	241
16.1	Foodstuffs Production.....	242
16.2	Agricultural Production	243
16.3	Foodstuffs Industries	244
16.3.1	Trends.....	245
16.4	Production of Durable Goods	245
16.4.1	Product Innovations and Process Innovations.....	246
16.4.2	Trends.....	250
16.5	Potential.....	250
	Bibliography	251
17	Vehicles.....	253
17.1	Introduction	253
17.2	Current Situation and Development Tendencies	253
17.2.1	Goods Transport.....	253
17.2.2	Passenger Transport	255
17.3	Possible Changes/Future Potential	257
17.3.1	Goods Transport.....	257
17.3.2	Passenger Transport	257
	Bibliography	258
18	Buildings	261
18.1	Today's Energy Use in Buildings	261
18.2	Potential.....	263
	Bibliography	264
19	Summary of Technical Potential.....	265
	Bibliography	266
Part III Images of the Future		
20	Introduction.....	269
21	Six Images of the Future – Introduction and Definitions.....	271
21.1	Fast	271
21.2	Slow.....	272
21.3	Urban Cores.....	273

21.4	Suburban Centers.....	274
21.5	Low-Rise Settlements.....	275
22	Urban Cores 2050 – Fast and Slow.....	279
22.1	Fast and Slow in Urban Cores	282
23	Suburban Centers – Fast and Slow	287
23.1	Fast and Slow in Suburban Centers.....	290
24	Low-Rise Settlements – Fast and Slow.....	293
24.1	Fast and Slow in Low-Rise Settlements	296
25	Measures and Possibilities in Concentration.....	301
25.1	Urban Cores.....	301
25.2	Suburban Centers.....	305
25.3	Low-Rise Settlements.....	306
	Bibliography	308
26	Time Use Today and in Images of the Future.....	309
26.1	Fast – Cities with Little Time	310
26.2	Slow – The City at an Easy Pace.....	312
26.3	Summarizing Temporal Structures	314
26.3.1	Fast.....	315
26.3.2	Slow	316
	Bibliography	317
27	Energy Use from the Household Perspective.....	319
27.1	Calculating Energy Use for Private and Public Consumption in Sweden	319
27.2	Calculating Stockholm Residents’ Share of Energy Use	322
27.3	Calculating Energy Use by Stockholm Residents Per Household Function	323
27.4	Stockholm Residents’ Energy Use 2000	324
	Bibliography	327
28	Energy Use in 2000 and 2050	329
28.1	Residence.....	330
28.1.1	Residence in 2000.....	330
28.1.2	Residence in 2050.....	330
28.2	Personal	332
28.2.1	Personal in 2000	332
28.2.2	Personal in 2050	332

28.3	Food.....	336
28.3.1	Food in 2000.....	336
28.3.2	Food in 2050.....	337
28.4	Support.....	341
28.4.1	Support in 2000.....	341
28.4.2	Support in 2050.....	342
28.5	Care.....	343
28.5.1	Care in 2000.....	343
28.5.2	Care in 2050.....	344
28.6	Indirect Energy Use.....	345
28.6.1	Facilities in 2000.....	346
28.6.2	Facilities in 2050.....	347
28.6.3	Goods Transports in 2000.....	347
28.6.4	Goods Transports in 2050.....	347
28.6.5	Business Travel in 2000.....	348
28.6.6	Business Travel in 2050.....	348
28.7	Summary.....	349
	Bibliography.....	351

Part IV Perspectives

29	Suburban and Inner City Families with Children and No Car.....	355
29.1	Four Families with Children.....	356
29.1.1	Student Families.....	357
29.1.2	Inner City Residents.....	357
29.2	Getting Around.....	359
29.2.1	Daily Rhythm.....	359
29.2.2	Weekly Rhythm.....	360
29.2.3	Annual Rhythm.....	361
29.3	The Road to the Inner City or the Suburbs.....	363
29.3.1	Always Inner City Residents.....	363
29.3.2	The Academic Path to the Metropolis.....	365
29.4	Plans for the Future.....	366
29.4.1	Bottlenecks and Wishes.....	368
29.5	Analysis.....	369
29.5.1	Every Day.....	369
29.5.2	Open Daily Schedule.....	371
29.5.3	Vacation.....	372
29.5.4	Motivations.....	373
29.5.5	The Importance of Choices.....	373
29.5.6	Long-term Choices.....	375
29.6	Some Suggested Solutions.....	376
29.6.1	Shopping.....	376
29.6.2	Vacation Baggage.....	377
	Bibliography.....	379

30 Images of the Future from a National Economic Perspective.....	381
30.1 Are Higher Energy Prices Necessary for a Sustainable Society?	382
30.1.1 Case 1: The Relative Energy Price Rises	383
30.1.2 Case 2: Unchanged Relative Energy Price	385
30.2 Welfare Effects	388
30.3 What Economic Development Is Caused by the Images for the Future?	388
30.4 Technological Development and Energy Use.....	390
30.5 Consumption of Services.....	391
30.6 Change in Working Hours	392
30.7 Conclusions	394
Bibliography	395
31 The Sustainable City: Necessary System Shifts and Their Conditions	397
31.1 The City in the Images of the Future.....	398
31.2 Feasibility	400
31.2.1 Inner Strains.....	400
31.2.2 Financial and Technological Conditions	404
31.2.3 The Images' Attractiveness and Brilliance.....	406
31.3 Barriers	413
31.3.1 Bonds to the Old.....	413
31.3.2 Systemic Shifts and How They Can Be Understood.....	417
31.3.3 Possibilities for Change and the Vitality in the New.....	424
Bibliography	432
 Part V Appendixes	
 Appendix A Energy Use by Stockholm Residents Distributed Over Consumption Posts According to COICOP and Over Household Functions	437
 Appendix B Household Functions and Time Use 1991 and 2001	443
Personal.....	443
Residence	443
Food	444
Care	444
Support.....	444

Appendix C Stockholm County Population (1997) According to Distance to the Nearest Track-Bound Public Transport and Car/Public Transport Travel Time Relations	447
Appendix D Specification of Images of the Future	449
Geographic specification of the three urban structures in Chaps. 22–24.....	453
Saltsjö Line	456

Images of the Future City

Time and Space For Sustainable Development

Höjer, M.; Gullberg, A.; Pettersson, R.

2011, XXXI, 457 p., Hardcover

ISBN: 978-94-007-0652-1
