Preface: How to use this book

<i>Philip M. Hartigan</i>	v
---------------------------------	---

I. Essential Foundations

1. Thoracic Radiology <i>Thomas Edrich and Beatrice Trotman-Dickenson</i>	3
2. Respiratory Physiology <i>Michael Nurok and George P. Topulos</i>	17
3. Respiratory Pathophysiology <i>Shannon S. McKenna</i>	41
4. Respiratory Effects of General Anesthesia <i>Philip M. Hartigan</i>	59
5. Physiology of One-Lung Ventilation <i>Philip M. Hartigan</i>	71
6. Idiopathic Acute Lung Injury Following Thoracic Surgery <i>Philip M. Hartigan</i>	93

II. Essential Technical Aspects

7. Thoracic Positioning and Incisions <i>Teresa M. Bean</i>	111
8. Bronchoscopic Anatomy <i>Thomas Edrich</i>	127
9. Technical Aspects of Lung Isolation <i>Sarah H. Wiser</i>	141
10. Special Airway Devices for Thoracic Anesthesia: CPAP, PEEP, and Airway Exchange Catheters <i>Sarah H. Wiser</i>	177

11. Alternative Ventilatory Techniques <i>Gyorgy Frendl</i>	191
12. Respiratory Therapy Devices <i>David A. Silver</i>	209
13. Technical Aspects of Common Pain Procedures for Thoracic Surgery <i>Nelson L. Thaemert</i>	221

III. Essential Principles of Clinical Management

14. Preoperative Evaluation of the Thoracic Surgical Patient <i>Nicholas Sadovnikoff</i>	239
15. Overview: Surgeon's Approach to the Patient with Lung Cancer <i>Steven J. Mentzer</i>	259
16. Principles of Anesthetic Management for Pulmonary Resection <i>Philip M. Hartigan</i>	269
17. Management of Common Complications Following Thoracic Surgery <i>Andrew D. Friedrich</i>	291

IV. Specific Thoracic Surgical Procedures: Surgical & Anesthetic Management Essentials

Editor of Surgical Considerations: Steven J. Mentzer, M.D.

18. Flexible Bronchoscopy <i>Philip M. Hartigan</i>	313
19. Mediastinoscopy <i>Philip M. Hartigan</i>	323
20. Anterior Mediastinal Mass <i>Ju-Mei Ng and Philip M. Hartigan</i>	335
21. Lung-Sparing Pulmonary Resections: Bronchoplastic/Sleeve Resection <i>Philip M. Hartigan</i>	355

22. Pneumonectomy <i>Ju-Mei Ng</i>	363
23. Extrapleural Pneumonectomy <i>Ju-Mei Ng</i>	375
24. Lung Volume Reduction Surgery <i>Nelson L. Thaemert</i>	389
25. Plueral Space Procedures <i>Shannon S. McKenna</i>	403
26. Rigid Bronchoscopy <i>Eric D. Skolnick</i>	417
27. Laser Surgery of the Airway and Laser Safety <i>Gyorgy Frendl</i>	427
28. Tracheal Stent Placement <i>David A. Silver</i>	445
29. Anesthesia for Tracheotomy <i>David A. Silver</i>	463
30. Tracheal Resection and Reconstruction <i>David A. Silver and Philip M. Hartigan</i>	473
31. Bronchopleural Fistula <i>Ju-Mei Ng</i>	497
32. Esophagectomy <i>Ju-Mei Ng</i>	511
33. Esophageal Perforation <i>Ju-Mei Ng</i>	519
34. Lung Transplantation <i>Ju-Mei Ng and Vladimir Formanek</i>	527
35. Miscellaneous Thoracic Surgical Procedures <i>Teresa M. Bean and Shannon S. McKenna</i>	549
36. Anesthesia for Pediatric Thoracic Surgery <i>Juan C. Ibla</i>	563

V. Essential of Pain Management Following Thoracic Surgery

37. Acute Postoperative Pain Control Following
Thoracic Surgery
Peter Gerner and Philip M. Hartigan 589
38. Chronic Post-Thoracotomy Pain Syndrome
Peter Gerner..... 609

Index 617
