

# Contents

- 1 Introduction . . . . . 1**
  - 1.1 Game Theory in Networks . . . . . 1
  - 1.2 Optical Networks . . . . . 2
  - 1.3 Scope of This Monograph . . . . . 5
  
- Part I Game Theory Essentials**
  
- 2 Basics of Game Theory . . . . . 11**
  - 2.1 Introduction . . . . . 11
  - 2.2 Game Formulations . . . . . 12
  - 2.3 Games in Extensive Form . . . . . 13
  - 2.4 Games in Normal Form . . . . . 16
  - 2.5 Game Features . . . . . 17
    - 2.5.1 Strategy Space: Matrix vs. Continuous Games . . . . . 17
    - 2.5.2 Mixed vs. Pure Strategy Games . . . . . 18
    - 2.5.3 Competitive Versus Cooperative . . . . . 18
    - 2.5.4 Repetition . . . . . 20
    - 2.5.5 Knowledge Information . . . . . 21
  - 2.6 Solution Concepts . . . . . 21
    - 2.6.1 Minimax Solution . . . . . 21
    - 2.6.2 Best Response . . . . . 22
    - 2.6.3 Nash Equilibrium Solution . . . . . 23
    - 2.6.4 Pareto Optimality . . . . . 24
  - 2.7 The Rationality Assumption . . . . . 25
  - 2.8 Learning in Classical Games . . . . . 25
  - 2.9 Notes . . . . . 26
  
- 3 Matrix Games . . . . . 27**
  - 3.1 Introduction . . . . . 27
  - 3.2 Bimatrix Games . . . . . 27
    - 3.2.1 Mixed Strategies . . . . . 30
  - 3.3  $m$ -Player Games . . . . . 32

|  |   |           |
|--|---|-----------|
| 3.3.1  | Pure and Mixed Strategies . . . . .                                       | 32        |
| 3.3.2  | Mixed-Strategy Cost Functions . . . . .                                   | 33        |
| 3.4  | Dominance and Best Replies . . . . .                                      | 35        |
| 3.4.1  | Best-Response Correspondence . . . . .                                    | 36        |
| 3.5  | Nash Equilibria Theorem . . . . .   | 36        |
| 3.6  | Nash Equilibria Refinements . . . . .                                     | 41        |
| 3.6.1  | Perfect Equilibrium . . . . .   | 41        |
| 3.6.2  | Proper Equilibrium . . . . .  | 42        |
| 3.6.3  | Strategically Stable Equilibrium . . . . .                                | 43        |
| 3.7  | Notes . . . . .   | 43        |
| <b>4</b>                                       | <b>Games with Continuous Action Spaces . . . . .</b>                      | <b>45</b> |
