

---

# Contents

## Section I Hot Topics in Vascular Biology

- 1 Pericytes: Adaptable Vascular Progenitors .....** 3  
Gareth D. Hyde and Ann E. Canfield
- 2 Benefits and Risks of Manipulating the HIF Hydroxylase  
Pathway in Ischemic Heart Disease.....** 17  
Tammie Bishop and Peter J. Ratcliffe
- 3 Cytoprotective Mechanisms in the Vasculature .....** 27  
Justin C. Mason
- 4 Notch Signaling in Vascular Development.....** 45  
Shalini Jadeja and Marcus Fruttiger

## Section II Novel Molecular Mediators Regulating Cardiovascular System

- 5 The Therapeutic Potential of Dimethylarginine  
Dimethylaminohydrolase–Mediated Regulation of Nitric  
Oxide Synthesis.....** 61  
James Leiper, F. Arrigoni, and B. Ahmetaj
- 6 Potassium Channels Regulating the Electrical Activity  
of the Heart .....** 89  
Andrew Tinker and Stephen C. Harmer
- 7 Free Radicals, Oxidative Stress, and Cardiovascular Disease .....** 111  
K. Richard Bruckdorfer

## Section III Clinical Aspects of Cardiovascular Disease

- 8 The Takotsubo (Broken Heart Syndrome).....** 129  
Lawrence S. Cohen

<b>9</b>	<b>Lymphatic Vessels in Health and Disease .....</b>	<b>137</b>
	Elisabetta Weber, Francesca Sozio, Erica Gabbrielli, and Antonella Rossi	
<b>10</b>	<b>Importance of Subtype Selectivity for Endothelin Receptor Antagonists in the Human Vasculature.....</b>	<b>151</b>
	Janet J. Maguire and Anthony P. Davenport	
<b>11</b>	<b>Non-Pharmacological Treatment of Peripheral Vascular Disease.....</b>	<b>173</b>
	Janice Tsui and George Hamilton	
<b>12</b>	<b>Surgical Approaches to Abdominal Aortic Aneurysm Repair .....</b>	<b>187</b>
	Matt Thompson, Peter Holt, Rob Hinchliffe, and Ian Loftus	
 <b>Section IV Clinical and Translational Aspects of Pulmonary Vascular Disease</b>		
<b>13</b>	<b>Understanding the Pathobiology of Pulmonary Vascular Disease .....</b>	<b>203</b>
	Kristin B. Highland	
<b>14</b>	<b>Inflammation in Pulmonary Arterial Hypertension .....</b>	<b>213</b>
	Frédéric Perros, Sylvia Cohen-Kaminsky, Peter Dorfmueller, Alice Huertas, Marie-Camille Chaumais, David Montani, and Marc Humbert	
<b>15</b>	<b>Endothelin Receptor Antagonists in Cardiovascular Medicine: Challenges and Opportunities.....</b>	<b>231</b>
	Matthias Barton	
	<b>Index.....</b>	<b>261</b>

Translational Vascular Medicine

Pathogenesis, Diagnosis, and Treatment

Abraham, D.; Handler, C.; Dashwood, M.; Coghlan, G.

(Eds.)

2012, XIV, 266 p., Hardcover

ISBN: 978-0-85729-919-2
