Part I Defining and Assessing Quality and Quality-of-Life	
1 The Difficulty of Assessing Quality or Quality-of-Life	3
Abbreviations.....	3
1 Introduction	3
2 Should Quality or Quality-of-Life be Assessed?	6
2.1 Counter Arguments.....	6
2.2 Wittgenstein's Language Games	8
2.3 The Simplest Measure: A Self-Assessment	9
3 What Does the Term Quality Mean?.....	10
3.1 Is Quality a <i>Quale</i> ?.....	10
3.2 Quality as a Conceptual Space	12
3.3 Types of Quality Assessments.....	14
4 What are the Objectives of This Book?.....	17
5 Summary of Chapter	20
Notes	20
References.....	21
2 The Role of Language in Assessing Quality or Quality-of-Life	25
Abbreviations.....	25
1 Introduction	25
2 Language Usage Principles	26
2.1 The Elements of Language.....	26
2.2 The Optimal Expression of Quality-of-Life or HRQOL.....	27
2.3 Literal Expression.....	28
2.4 Figurative Expression and Its Complexities	30
2.4.1 Defining a Linguistic Metaphor.....	32
2.4.2 The Importance of Conceptual Metaphors	35
2.4.3 Embodiment and Metaphors.....	36
3 Application of Language Usage Principles	37
3.1 The Metaphoric Basis of Quality-of-Life or HRQOL Definitions.....	37
4 Summary of Chapter	44
Notes	45
References.....	46
3 What Role Do Cognitive Processes Play in Assessing Quality or Quality-of-Life?	49
Abbreviations.....	49
1 Introduction	49

2	Cognitive Principles	51
2.1	The Neural Basis of Cognition.....	51
2.2	The Formation of a Cognitive Entity.....	54
2.3	The Classification of Cognitive Entities.....	55
2.3.1	Hierarchical Classification.....	56
2.3.2	Cross-Classification.....	57
2.3.3	Applications to a Qualitative Assessment	58
2.3.4	Hieroglyphics: A Language Based on Classification	60
2.4	Concept Formation	62
2.5	Metacognition.....	64
3	The Application of Cognitive Principles.....	66
3.1	The Fast and Automatic Assessment of Quality	66
3.1.1	Affordance.....	67
3.1.2	Trait (Facial) Perception.....	68
3.1.3	Emotion Inference and the Appraisal Process.....	69
3.1.4	Summary.....	71
3.2	Cognitive Models of Quality-of-Life Assessments	72
3.2.1	Brunswik, Social Judgment Theory and the SEIQoL	72
3.2.2	Norman Anderson's Cognitive Algebra and the QWB	74
3.3	Summary.....	76
4	Summary of Chapter	77
	Notes.....	77
	References	78
	Summary of Part I	83
	Part II Issues in Assessing Quality or Quality-of-Life	
4	The Role of Objective or Subjective Indicators	91
	Abbreviations.....	91
1	Introduction	91
2	Self-Reports as Data.....	93
3	Positional Objectivity	95
4	What to Measure: Objective, Subjective, or Some Combination of Indicators?	97
4.1	Social Indicators: The Subjective Processing of Objective and Subjective Information	98
4.2	Models that Combine Objective and Subjective Indicators.....	99
4.2.1	Hierarchical or Taxonomic Modeling.....	102
4.2.2	Linear Modeling	104
4.2.3	Nonlinear Modeling.....	107
4.3	Summary.....	109
5	Objective Assessment of Subjective Indicators I: Kahneman's Model of Objective Happiness	109
6	Objective Assessment of Subjective Indicators II: The Rasch Model	110
7	Invariance	112
8	Summary of Chapter	114
	Notes	115
	References.....	116
5	The Role of Signs or Symptoms.....	121
	Abbreviations.....	121
1	Introduction	121
2	On the Nature of a Symptom.....	123

2.1	Language Usage and Symptoms	124
2.1.1	Metaphors in Patient Symptom Reporting	125
2.1.2	Metaphors in Doctor–Patient Symptom Reporting	125
2.1.3	Symptoms as Metaphors.....	126
2.2	Assessing Symptoms	127
2.2.1	Symptom Assessment and the Qualification Process	128
2.2.2	The Accuracy of Symptom Reports	129
3	The Objective Assessment of Signs and Symptoms	131
3.1	<i>Truth-to-Nature</i> : Qualitative Assessment	132
3.2	From Mechanical to Structural Objectivity: Quantitative Assessment	135
3.3	Trained Judgment: Expertise	139
4	Symptoms, Subjectivity and Clinical Medicine	141
4.1	Defining Adverse Events	143
4.2	Clinical Management of Symptoms	148
4.3	Clinimetric and Psychometric Perspectives	149
5	Summary of Chapter	152
	Notes	154
	References.....	154
6	Summary Measurement: The Role of Categories or Domains	159
	Abbreviations	159
1	Introduction	160
2	The Formation of Categories.....	161
2.1	Introduction	161
2.2	Categories and Language Usage.....	162
2.3	Category Learning	164
2.4	Kinds of Categories	166
2.5	Cultural Determinants of Category Formation.....	168
3	The Construction of Domains	170
3.1	Introduction	170
3.2	Domains: Language Usage.....	171
3.3	The Role of Cognitive Processes in Domain Formation	171
3.4	Objectification Methods and Domain Formation	173
3.5	The Complex Structure of Domains.....	174
3.6	The Modular Basis of Domains.....	175
3.6.1	Are Symptoms Modular?	177
3.6.2	Are Health States Modular?	178
3.6.3	Are Functional States Modular?.....	180
3.6.4	Are Neurocognitive Indicators Modular?.....	181
3.6.5	Are Subjective Well-Being Indicators Modular?.....	182
3.6.6	Summary.....	183
4	Applied Classification	183
4.1	Modularity Applied: Visual HRQOL Assessments.....	183
4.2	Classification and Domain Systems	186
5	Summary of Chapter	187
	Notes	188
	References.....	189
	Summary of Part II.....	193
	Part III The Content of a HRQOL Assessment	
7	Symptoms and HRQOL Assessment.....	199
	Abbreviations	199
1	Introduction: Symptom Domain Formation	200

2	Cognitive Basis of Symptom Domain Formation	204
2.1	Fatigue as a Prototypical Symptom Domain	207
2.1.1	The Assessment of Fatigue.....	208
2.1.2	Fatigue, Depression, and HRQOL.....	211
2.2	Pain as a Prototype Symptom Domain.....	217
2.2.1	The Language of Pain	217
2.2.2	The Assessment of Pain.....	221
2.2.3	Acquired and Functional (Pain) Modularity	224
2.2.4	The Classification of Pain	228
2.2.5	Assessment of Pain in the Compromised Person	230
2.3	Summary.....	231
3	Symptom Domains and HRQOL Assessment	232
3.1	Introduction	232
3.2	Integrating Symptoms into HRQOL Assessments	232
3.3	The Role of HRQOL in Symptom Management	237
4	Summary of Chapter	239
	Notes	240
	References.....	240
8	Health Status and HRQOL Assessment	247
	Abbreviations.....	247
1	Theoretical Foundation.....	248
1.1	Introduction	248
1.1.1	Definitions of Health	250
1.1.2	Defining a Disorder	255
1.2	Assessing Health Status.....	259
1.2.1	End-Results and Outcomes Movement	259
1.2.2	Operations Research in Health Care	260
1.2.3	Donabedian's Definition of Quality (of Care).....	262
1.2.4	Patient Satisfaction as an Indicator of Quality (of Care).....	264
1.3	Summary of Theoretical Foundations	268
2	Applications of Health Status Assessment.....	269
2.1	Assessing HRQOL	269
2.1.1	The Components of a Quality-of-Life or HRQOL Assessment.....	270
2.1.2	Health Status and HRQOL Assessment	276
2.2	Applications of HRQOL: The "QALY"	282
2.3	Summary of Applications.....	284
3	Summary of Chapter	285
	Notes	286
	References.....	286
9	Functional Status and HRQOL	293
	Abbreviations.....	293
1	Theoretical Issues.....	294
1.1	Introduction	294
1.2	The Language of Function.....	295
1.2.1	Function: Its Definition and Expression as a Mathematical Statement	297
1.2.2	Function as a Form of Figurative Expression	298
1.3	The Cognitive Basis of Function Statements.....	299
1.4	Function Statements in Health and Disease	300
1.5	Function as a Teleological Explanations	302

1.5.1	Causes Without Teleology	304
1.5.2	Teleology Without Values.....	305
1.5.3	Teleology with Values	305
1.6	Summary.....	306
1.7	Functionalism: A Philosophical Tradition.....	306
1.7.1	Models of Function and Functionalism.....	308
1.7.2	Parsons' Structural–Functional Analysis of Medical Practice	310
1.8	Summary.....	313
2	Applications of Functional Assessments.....	314
2.1	The Role of Functional Assessment in the Rehabilitation of a Person with Disabilities.....	314
2.1.1	The Language of Rehabilitation and Disability.....	315
2.1.2	Models of Disability	316
2.1.3	Functional Assessment, HRQOL, and the International Classification of Function.....	320
2.2	Summary.....	329
3	Summary of Chapter	331
	Notes	333
	References.....	334
10	Neurocognition and HRQOL Assessment	339
	Abbreviations	339
1	Introduction	340
2	Finding a Common Metric: The Qualification of Objective Indicators	343
3	The Substitution Hypothesis	344
4	The Preservation of Neurocognition	347
4.1	Introduction	347
4.2	Neurocognitive Preservation	348
4.3	Neurocognitive Capacity and Degeneration.....	352
5	Neurocognitive Degeneration.....	353
5.1	Introduction	353
5.2	Progressive Semantic Degeneration	355
5.3	The Psychometric Properties of Qualitative Assessments of Persons with Alzheimer's and Related Dementias.....	359
5.4	Aging and Neurodegeneration.....	363
5.5	Summary.....	368
6	Neurocognition Recovery.....	368
6.1	Introduction	368
6.2	Metaphoric Properties of a Quality-of-Life or HRQOL Assessment.....	369
6.3	The Neurocognitive Basis of Metaphor Expression.....	370
6.4	Stroke and Metaphoric Expression.....	371
6.5	Stroke and the Meaning of Metaphors: The Visual Analog Scale	373
6.6	The Right Hemisphere, the Sense of Self- and Qualitative Assessment.....	375
6.7	Neurocognition Recovery.....	376
7	Models of the Relationship Between Neurocognitive Capacity and Performance	376
7.1	Introduction	376
7.2	Neural Network Models and Optimality Theory	378
7.3	Embodiment and the Assessment of Quality	381
7.4	Summary	383
8	Summary of Chapter: Neurocognitive Indicators and Quality-of-Life or HRQOL Assessment.....	384
	Notes	385
	References.....	386

11 Well-Being as an Indicator of Quality or Quality-of-Life	393
Abbreviations	393
1 Introduction	393
2 The Language of Well-Being	399
2.1 Well-Being in Ordinary Discourse	400
2.2 Subjective Well-Being as a Form of Metaphoric Expression.....	401
2.3 The Language Used in Subjective Well-Being Assessments	403
2.4 Summary	405
3 The Cognitive Basis of Well-Being.....	405
3.1 Introduction	405
3.2 Subjective Well-Being as a Persistent Affective State	407
3.3 Subjective Well-Being as a Momentary Emotional State	410
4 Subjective Well-Being and the Emotions.....	412
4.1 Introduction	412
4.2 Is Subjective Well-Being a Discrete Emotion?	413
4.2.1 The Metaphoric Nature of Emotion Statements.....	417
4.2.2 On the Nature of Affect	418
4.3 Is Subjective Well-Being a Cognitive-Emotional Process?.....	421
4.3.1 The Affect Primacy Hypothesis.....	422
4.3.2 The Cognitive-Primacy Hypothesis.....	423
4.3.3 The Cognitive Structure of Emotions	424
4.3.4 Appraisal in Well-Being and Quality-of-Life Assessment.....	426
4.4 Subjective Well-Being as an Outcome of Cognitive-Emotional Regulation	428
4.4.1 Emotional Regulation and Subjective Well-Being	430
4.4.2 Regulatory Models of Subjective Well-Being	433
5 Modeling of Subjective Well-Being.....	437
5.1 The Neurobiology of Subjective Well-Being	438
5.2 Nonlinear Modeling, Appraisal and Subjective Well-Being	438
5.3 Embodiment Models of Subjective Well-Being.....	439
6 Summary of Chapter	441
Notes	442
References.....	444

Part IV Summary and Future Directions

12 Summary and Future Directions	453
Abbreviations	453
1 Overview	454
2 Determinants of Valuation.....	457
2.1 Weighting Procedures.....	457
2.2 Cognitive Basis of Valuation Methods	466
2.3 Values and Language-Usage.....	471
2.4 Summary: Valuation and Quality Assessment	473
3 Can Quality be Quantified?	473
4 Summary and Conclusions.....	477
Notes	479
References.....	480
Epilogue	485
Index.....	487

Quality

Its Definition and Measurement As Applied to the
Medically Ill

Barofsky, I.

2012, XVIII, 496 p., Hardcover

ISBN: 978-1-4419-9818-7
