
Contents

1	New Insights in the Development of Human B Lymphocytes	1
	Bianca Blom	
2	The Aging Lymphocyte	17
	Hector F. Valenzuela and Rita B. Effros	
3	The Bone Marrow Microenvironment and Its Impact in Acute and Chronic B Cell Malignancies	35
	Jan A. Burger and Dorothy A. Sipkins	
4	The Expanding Diagnostic Role of Flow Cytometry in Bone Marrow Studies of Patients with Lymphomas and Plasma Cell Disorders	47
	Anna Porwit	
5	The Application of Molecular Techniques on Bone Marrow Trephines	67
	Falko Fend and Leticia Quintanilla-Martínez	
6	Residual Disease Assessment and Its Role in Monitoring Lymphoid and Plasma Cell Neoplasms	83
	Konnie M. Hebeda, Patricia J.T.A. Groenen, and J. Han van Krieken	
7	Reporting of Bone Marrow Lymphoid Infiltrates	97
	Yi-Hua Chen and LoAnn Peterson	
8	Janus-Faced Lymphoid Infiltrates	113
	Dimitra Anagnostou	
9	Singularities in Pediatric Bone Marrow Lymphoid Processes	145
	Sophia L. Yohe and Robert W. McKenna	
10	Bone Marrow Involvement in Primary Mature B and T Cell Leukemias	171
	Ayoma D. Attygalle and Estella Matutes	
11	A Step Forward in the Diagnosis of B-Cell Lymphomas in the Bone Marrow	191
	Ahmet Dogan, Mine Hekimgil, and Nazan Ozsan	

12	New Insights in Waldenström's Macroglobulinemia	223
	Meletios A. Dimopoulos and Evangelos Terpos	
13	Bone Marrow in Hodgkin Lymphoma and Mimickers.	237
	Stefano A. Pileri, Elena Sabattini, and Claudio Agostinelli	
14	Misleading Features of Bone Marrow Involvement by Peripheral T-Cell Lymphomas	253
	Philippe Gaulard and Sylvia Hoeller	
15	Systemic Mastocytosis Associated with Lymphoproliferative Disorders (SM-AHNMD).	271
	Hans-Peter Horny, Karl Sotlar, and Peter Valent
