

Contents

MacMahon’s Dream	1
George E. Andrews and Peter Paule	
Ramanujan’s Elementary Method in Partition Congruences	13
Bruce C. Berndt, Chadwick Gugg, and Sun Kim	
Coefficients of Harmonic Maass Forms	23
Kathrin Bringmann and Ken Ono	
On the Growth of Restricted Integer Partition Functions	39
E. Rodney Canfield and Herbert S. Wilf	
On Applications of Roots of Unity to Product Identities	47
Zhu Cao	
Lecture Hall Sequences, q-Series, and Asymmetric Partition Identities ...	53
Sylvie Corteel, Carla D. Savage, and Andrew V. Sills	
Generalizations of Hutchinson’s Curve and the Thomae Formulae	69
Hershel M. Farkas	
On the Parity of the Rogers-Ramanujan Coefficients	83
Basil Gordon	
A Survey of Classical Mock Theta Functions	95
Basil Gordon and Richard J. McIntosh	
An Application of Cauchy–Sylvester’s Theorem on Compound Determinants to a BC_n-Type Jackson Integral	145
Masahiko Ito and Soichi Okada	

Partitions, q-Series, and Modular Forms

Alladi, K.; Garvan, F. (Eds.)

2012, XII, 224 p., Hardcover

ISBN: 978-1-4614-0027-1
