

Contents

1	History and Current Importance	1
1.1	Origin	4
1.2	Domestication	7
1.3	Athens and Rome	10
1.4	Middle Ages	16
1.5	Renaissance	25
1.6	Age of Science	41
1.7	Researchers Involved in <i>B. maritima</i>	43
	References	65
2	Range of Distribution.....	75
	References	81
3	Morphology, Physiology, and Ecology.....	85
3.1	Seed and Germ	86
3.2	Germination.....	89
3.3	Leaves.....	91
3.4	Roots	94
3.5	Color.....	95
3.6	Chemical Composition.....	99
3.7	Seed Stalk.....	100
3.8	Flowers and Flowering.....	100
3.9	Pollen.....	105
3.10	Gene Flow	109
3.11	Male Sterility.....	111
3.12	Chromosome Number	112
3.13	Self-Incompatibility	113
3.14	Self-Fertility	114
3.15	Cross-Fertilization.....	114
3.16	Growth Habit.....	115
3.17	Life Span	117

3.18	Age at Maturity	118
3.19	Reproduction Systems.....	119
3.19.1	Gynodioecy	119
3.19.2	Sex Ratio	120
3.20	Interspecific Hybrids	120
3.21	Survival Strategies.....	123
3.22	Dispersal of the Species	125
	References.....	127
4	Taxonomy	137
	References.....	154
5	Uses	159
5.1	Medical Uses.....	159
5.2	Food Uses.....	165
5.3	Other Uses.....	168
	References.....	169
6	Source of Useful Traits	173
6.1	Resistances to Biotic Stresses	176
6.1.1	Virus Yellows	176
6.1.2	Beet Mosaic Virus	179
6.1.3	Rhizomania.....	181
6.1.4	<i>Beet Curly Top Virus</i>	187
6.1.5	Powdery Mildew	190
6.1.6	Root Rot	192
6.1.7	<i>Cercospora</i> Leaf Spot	194
6.1.8	<i>Polymyxa betae</i>	196
6.1.9	Black Root.....	200
6.1.10	Minor Fungal Diseases.....	200
6.1.11	Nematodes.....	201
6.1.12	Insects.....	207
6.1.13	Multiple Resistances	207
6.2	Resistances to Abiotic Stresses	207
6.2.1	Drought and Heat Tolerance.....	208
6.2.2	Salinity Tolerance.....	209
6.3	Other Traits	209
	References.....	210
7	Cultivated Offspring	225
7.1	Leaf Beet.....	227
7.2	Garden Beet	229
7.3	Fodder Beet.....	230
7.4	Sugar Beet.....	232
7.5	Energy Beet.....	238
7.6	Ornamental Beet	239
	References.....	240

8 The Future	245
8.1 Germplasm Conservation.....	245
8.2 Transgene Diffusion.....	251
8.3 Source of New Traits	252
References.....	254
 A Beta Chronology	 259
 B Authors Chronology	 261
 C Names and Synonyms of <i>Beta maritima</i>	 265
 D English Translation of Latin Names Given to <i>Beta maritima</i>.....	 269
 E Essential References.....	 271
 Index.....	 273

Beta maritima

The Origin of Beets

Biancardi, E.; Panella, L.W.; Lewellen, R.T.

2012, XVIII, 294 p., Hardcover

ISBN: 978-1-4614-0841-3
