Contents

1 Viruses: Sophisticated Biological Machines 1
Michael G. Rossmann and Venigalla B. Rao

2 F_1-ATPase: A Prototypical Rotary Molecular Motor 5
Kazuhiko Kinosita, Jr.

3 Principles of Virus Structural Organization 17
B.V. Venkataram Prasad and Michael F. Schmid

4 Reconstructing Virus Structures from Nanometer to Near-Atomic Resolutions with Cryo-Electron Microscopy and Tomography 49
Juan Chang, Xiangan Liu, Ryan H. Rochat, Matthew L. Baker, and Wah Chiu

Part I Viral Entry Machines

5 Contractile Tail Machines of Bacteriophages 93
Petr G. Leiman and Mikhail M. Shneider

6 Long Noncontractile Tail Machines of Bacteriophages 115
Alan R. Davidson, Lia Cardarelli, Lisa G. Pell, Devon R. Radford, and Karen L. Maxwell

7 Short Noncontractile Tail Machines: Adsorption and DNA Delivery by Podoviruses 143
Sherwood R. Casjens and Ian J. Molineux

8 Infection of Cells by Alphaviruses 181
Dennis T. Brown and Raquel Hernandez

9 Influenza Virus Entry 201
Ming Luo

10 Molecular Mechanisms of HIV Entry 223
Craig B. Wilen, John C. Tilton, and Robert W. Doms

Part II Genome Replication Machines

11 Bunyavirus: Structure and Replication 245
Tom S.Y. Guu, Wenjie Zheng, and Yizhi J. Tao

12 Viral Polymerases 267
Kyung H. Choi

Part III Capsid Assembly and Maturation

13 Chaperonin-Mediated Folding of Viral Proteins 307
Zacariah L. Hildenbrand and Ricardo A. Bernal

14 Building the Machines: Scaffolding Protein Functions During Bacteriophage Morphogenesis 325
Peter E. Prevelige and Bentley A. Fane

15 Bacteriophage HK97 Capsid Assembly and Maturation 351
Roger W. Hendrix and John E. Johnson

16 Lipid-Containing Viruses: Bacteriophage PRD1 Assembly 365
Sarah J. Butcher, Violeta Manole, and Nelli J. Karhu

17 Assembly of Large Icosahedral Double-Stranded RNA Viruses 379
Minna M. Poranen and Dennis H. Bamford

18 The Papillomavirus Virion: A Machine Built to Hide Molecular Achilles' Heels 403
Christopher B. Buck and Benes L. Trus

19 Procapsid Assembly, Maturation, Nuclear Exit: Dynamic Steps in the Production of Infectious Herpesvirions 423
Giovanni Cardone, J. Bernard Heymann, Naiqian Cheng, Benes L. Trus, and Alasdair C. Steven

20 Assembly and Architecture of HIV 441
Barbie K. Ganser-Pornillos, Mark Yeager, and Owen Pornillos

Part IV Genome Packaging Machines

21 Condensed Genome Structure 469
Lindsay W. Black and Julie A. Thomas

22 The Bacteriophage DNA Packaging Machine 489
Michael Feiss and Venigalla B. Rao

23 The dsDNA Packaging Motor in Bacteriophage ø29 511
Marc C. Morais

24 Single-Molecule Studies of Viral DNA Packaging 549
Yann R. Chemla and Douglas E. Smith

25 Genome Gating in Tailed Bacteriophage Capsids 585
Paulo Tavares, Sophie Zinn-Justin, and Elena V. Orlova

26 Packaging in dsRNA Viruses 601
Leonard Mindich

27 Mechanism of RNA Packaging Motor 609
Erika J. Mancini and Roman Tuma

28 Helical Viruses 631
Gerald Stubbs and Amy Kendall

Index 659
