

Contents

1 History of Selenium Research.....	1
Elias S.J. Arnér	

Part I Selenocysteine Biosynthesis and Incorporation into Protein

2 Selenocysteine Biosynthesis and the Replacement of Selenocysteine with Cysteine in the Pathway.....	23
Xue-Ming Xu, Anton A. Turanov, Bradley A. Carlson, Min-Hyuk Yoo, Vadim N. Gladyshev, and Dolph L. Hatfield	
3 Molecular Mechanism of Eukaryotic Selenocysteine Incorporation.....	33
Michael T. Howard, Jonathan N. Gonzales-Flores, and Paul R. Copeland	
4 SECIS-Binding Proteins Regulate the Expression of the Selenoproteome.....	47
Donna M. Driscoll and Jodi L. Bubenik	
5 A Ribosomal Perspective on the Mechanism of Selenocysteine Incorporation.....	61
Kelvin Caban and Paul R. Copeland	
6 Chemical Basis for the Use of Selenocysteine.....	73
Erik L. Ruggles, Gregg W. Snider, and Robert J. Hondal	
7 Evolutionary Basis for the Use of Selenocysteine.....	85
Louise White and Sergi Castellano	
8 Selenocysteine Lyase: Mechanism, Structure, and Biological Role	95
Hisaaki Mihara and Nobuyoshi Esaki	

Part II Selenoproteins and Selenoproteins in Health

9 Selenoproteins and Selenoproteomes	109
Vadim N. Gladyshev	
10 Structural Characterization of Mammalian Selenoproteins	125
Stefano M. Marino, Vadim N. Gladyshev, and Alexander Dikiy	
11 Selenoproteins: Hierarchy, Requirements, and Biomarkers	137
Roger A. Sunde	
12 Selenoproteins and the Thioredoxin System	153
Jun Lu and Arne Holmgren	
13 Selenoproteins of the Glutathione Peroxidase Family	167
Leopold Flohé and Regina Brigelius-Flohé	
14 Glutathione Peroxidase-4	181
Matilde Maiorino, Valentina Bosello, Giorgio Cozza, Antonella Roveri, Stefano Toppo, and Fulvio Ursini	
15 Selenoprotein M	197
Mariclaire A. Reeves and Marla J. Berry	
16 Selenium Transport in Mammals: Selenoprotein P and Its Receptors.....	205
Josef Köhrle, Ulrich Schweizer, and Lutz Schomburg	
17 Selenoproteins in the Endoplasmic Reticulum	221
Dmitri E. Fomenko	
18 Selenoproteins in Nervous System Development, Function, and Degeneration	235
Ulrich Schweizer	
19 Selenoproteins in Cardiovascular Redox Pathology	249
Diane E. Handy and Joseph Loscalzo	
20 Glutathione Peroxidase 1 and Diabetes	261
Xin Gen Lei and Xiaodan Wang	
21 Glutathione Peroxidase 2 and Its Role in Cancer	271
Antje Banning, Anna Kipp, and Regina Brigelius-Flohé	
22 Selenoprotein N: Its Role in Disease.....	283
Alain Lescure, Perrine Castets, David J. Grunwald, Valérie Allamand, and Michael T. Howard	

Part III Selenium and Selenoproteins in Human Health

23 Prostate Cancer Prevention and the Selenium and Vitamin E Cancer Prevention Trial (SELECT): A Selenium Perspective	297
Barbara K. Dunn and Philip R. Taylor	
24 Selenium as a Cancer Preventive Agent.....	313
Matthew I. Jackson and Gerald F. Combs, Jr.	
25 Selenoproteins Harboring a Split Personality in Both Preventing and Promoting Cancer	325
Min-Hyuk Yoo, Bradley A. Carlson, Petra A. Tsuji, Ryuta Tobe, Salvador Naranjo-Suarez, Byeong Jae Lee, Cindy D. Davis, Vadim N. Gladyshev, and Dolph L. Hatfield	
26 An Emerging Picture of the Biological Roles of Selenoprotein K.....	335
Peter R. Hoffmann	
27 Polymorphisms in Selenoprotein Genes and Cancer.....	345
Margaret E. Wright and Alan M. Diamond	
28 Schizophrenia, Oxidative Stress and Selenium	355
Matthew W. Pitts, Arjun V. Raman, and Marla J. Berry	
29 Control of Thyroid Hormone Activation and Inactivation by the Iodothyronine Deiodinase Family of Selenoenzymes	369
Ann Marie Zavacki, Alessandro Marsili, and P. Reed Larsen	
30 Role of Selenium in HIV/AIDS	383
Adriana Campa and Marianna K. Baum	
31 Seafood Selenium in Relation to Assessments of Methylmercury Exposure Risks	399
Laura J. Raymond, Lucia A. Seale, and Nicholas V.C. Ralston	
32 Selenium and Male Reproduction	409
Anton A. Turanov, Mikalai Malinouski, and Vadim N. Gladyshev	
33 Variations in Selenium Metabolism in Males and Females.....	419
Lutz Schomburg	
34 Selenium in Alzheimer's Disease	433
Frederick P. Bellinger and Edwin J. Weeber	
35 Selenium and Inflammation.....	443
Naveen Kaushal, Ujjawal H. Gandhi, Shakira M. Nelson, Vivek Narayan, and K. Sandeep Prabhu	
36 Selenium Metabolism in Prokaryotes	457
Michael Rother	

37 Selenoproteins in Parasites.....	471
Gustavo Salinas, Mariana Bonilla, Lucía Otero, Alexey V. Lobanov, and Vadim N. Gladyshev	
38 Selenium and Methionine Sulfoxide Reduction	481
Hwa-Young Kim and Vadim N. Gladyshev	
39 Inactivation of Glutathione Peroxidase 1 and Peroxiredoxin 2 by Peroxides in Red Blood Cells	493
Chun-Seok Cho and Sue Goo Rhee	
40 Functional Aspects of the Genomics of Selenoproteins and Selenocysteine Incorporation Machinery	505
Catherine Méplan and John Hesketh	
41 Selenium: Dietary Sources and Human Requirements	517
Petra A. Tsuji, Cindy D. Davis, and John A. Milner	
42 Selenium and Adverse Health Conditions of Human Pregnancy	531
Margaret P. Rayman	
 Part IV Mouse Models for Elucidating the Role of Selenium and Selenoproteins in Health	
43 Mouse Models for Glutathione Peroxidase 4 (GPx4).....	547
Marcus Conrad	
44 Mouse Models that Target Removal or Overexpression of the Selenocysteine tRNA^{[Ser]Sec} Gene to Elucidate the Role of Selenoproteins in Health and Development	561
Bradley A. Carlson, Min-Hyuk Yoo, Petra A. Tsuji, Ryuta Tobe, Salvador Naranjo-Suarez, Fang Chen, Lionel Feigenbaum, Lino Tessarollo, Byeong Jae Lee, Vadim N. Gladyshev, and Dolph L. Hatfield	
45 Selenoproteins in Skeletal Development and Disease: Lessons from <i>Trsp</i> Deletion in Murine Bone and Cartilage Progenitor Cells	573
Charlene M. Downey and Frank R. Jirik	
Index.....	589

Selenium

Its Molecular Biology and Role in Human Health

Hatfield, D.L.; Berry, M.J.; Gladyshev, V.N. (Eds.)

2012, XXVI, 598 p., Hardcover

ISBN: 978-1-4614-1024-9
