

Contents

Part I The food chain

- | | | |
|----------|---|-----------|
| 1 | Introduction to the global agri-food system..... | 3 |
| | Nadia Gagnon | |
| 2 | Key drivers of the food chain..... | 23 |
| | Corinne Gendron and René Audet | |

Part II Life cycle/environmental impact assessment

- | | | |
|----------|---|------------|
| 3 | Life cycle assessment and the agri-food chain | 43 |
| | John E. Hermansen and Thu Lan T. Nguyen | |
| 4 | Life cycle assessment of crop production | 61 |
| | Frank Brentrup | |
| 5 | LCA of animal production..... | 83 |
| | Xavier P.C. Vergé, Devon E. Worth, Raymond L. Desjardins,
Brian G. McConkey, and James A. Dyer | |
| 6 | Life cycle assessment of processed food..... | 115 |
| | Yves Arcand, Dominique Maxime, and Reza Zareifard | |

Part III Green technologies in food production

- | | | |
|----------|--|------------|
| 7 | Managing nutrient cycles in crop and livestock
systems with green technologies..... | 151 |
| | Jonathan Vayssières and Mariana Cristina Rufino | |
| 8 | Environmental performance of organic farming | 183 |
| | Christian Schader, Matthias Stolze, and Andreas Gattinger | |

9 Food transportation issues and reducing carbon footprint	211
Wayne Wakeland, Susan Cholette, and Kumar Venkat	
Part IV Green technologies in food processing	
10 Supercritical and near-critical CO₂ processing.....	239
Eric J. Beckman	
11 Green separation technologies in food processing: supercritical-CO₂ fluid and subcritical water extraction.....	273
John Shi, Sophia Jun Xue, Ying Ma, Yueming Jiang, Xingqian Ye, and Dianyue Yu	
12 Electrodialysis in food processing	295
Martin Mondor, Denis Ippersiel, and François Lamarche	
13 Enzyme-assisted food processing	327
Benjamin K. Simpson, Xin Rui, and Jiang XiuJie	
14 Emerging technologies for microbial control in food processing.....	363
Michael O. Ngadi, Mohsin Bin Latheef, and Lamin Kassama	
15 Green technologies in food dehydration	413
Stefan Grabowski and Joyce I. Boye	
16 Green packaging	443
Susan E.M. Selke	
Part V Environmentally friendly approaches to R&D and QA	
17 Microtechnology and nanotechnology in food science	471
Filomena Nazzaro, Florinda Fratianni, and Raffaele Coppola	
18 Bead-based arrays: multiplex analyses	495
Anne Maltais and Joyce I. Boye	
19 Greening of research and development	519
Joyce I. Boye, Anne Maltais, Steve Bittner, and Yves Arcand	
20 Massidea.org: a greener way to innovate	541
Teemu Santonen	
Part VI Health and social perspectives	
21 Reducing process-induced toxins in foods	571
Humayoun Akhtar	
22 The fallacy of bio-based materials and biodegradability	607
Rita Schenck	

23 “Green” food processing technologies: factors affecting consumers’ acceptance 615
Elisabeth Gauthier

24 Food biodiversity and sustainable diets: implications of applications for food production and processing 643
Barbara Burlingame, U. Ruth Charrondiere, Sandro Dernini, Barbara Stadlmayr, and Stefano Mondovì

Erratum..... E1

Author description 659

Book cover description. 661

Index..... 663

Green Technologies in Food Production and Processing

Boye, J.; Arcand, Y. (Eds.)

2012, XVIII, 686 p., Hardcover

ISBN: 978-1-4614-1586-2
