# Contents

<b>1</b>	<b>Introduction to Satellite Communications.....</b>	<b>1</b>
	Why Write a “Short Book” on Satellite Communications?.....	1
	What Is the Best Way to Grasp the Field of Satellite Communications? .....	2
<b>2</b>	<b>Orbits, Services and Systems .....</b>	<b>5</b>
	Satellite Orbits .....	5
	LEO Constellations.....	6
	MEO Constellations.....	8
	GEO Communications Satellites .....	9
	Equatorial Circular Orbit (ECO).....	12
	Highly Elliptical Orbits (HEO), Extremely Elliptical Orbits (EEO), Molniya Orbits and Loopus Orbits.....	12
	Quazi-Zenith or “Figure 8” Orbit .....	13
	Super Synchronous Orbits .....	13
	Satellite Services and Applications.....	13
<b>3</b>	<b>Overview of Communications Satellite Technology and Operation .....</b>	<b>19</b>
	Introduction.....	19
	The Communications Subsystem.....	19
	Spacecraft and Major Subsystems .....	27
	The Spacecraft Structure and Physical Deployment Devices.....	27
	The Power Subsystem.....	29
	The Thermal and Space Environmental Control Systems .....	30
	The Positioning and Orientation Systems.....	31
	The Problem of Space Debris .....	33

<b>4</b>	<b>The Design, Engineering, Manufacture, and Operation of a Communications Satellite .....</b>	<b>37</b>
	Introduction.....	37
	The Design and Engineering of the Communications Subsystem and Electronics .....	37
	Satellite Communications Antennas.....	37
	The Filters and Dual Polarization Systems.....	42
	Amplifiers .....	43
	Digital Modulation.....	43
	Multiplexing.....	46
	Onboard Processing .....	48
	TTC&M .....	49
	The Satellite Design and Engineering Process .....	51
	Satellite Manufacture and Testing.....	53
	Satellite Deployment and Operation.....	56
	Satellite Sparing and Restoration of Satellite and Terrestrial Service .....	56
	End of Life .....	58
	Geosynchronous Satellites .....	58
	MEO Constellations.....	59
	LEO Constellations.....	60
	Conclusion .....	60
<b>5</b>	<b>Earth Stations, Antennas and User Devices .....</b>	<b>63</b>
	Introduction.....	63
	Earth Stations and Ground Antennas.....	64
	Antennas for Fixed Satellite Services .....	64
	Antennas for Broadcast Satellite Services .....	68
	Antennas for Mobile Satellite Services.....	69
	Antennas for Store and Forward (Machine to Machine Service) .....	72
	Antennas for Tracking, Telemetry, Command and Monitoring.....	72
	The Future .....	72
<b>6</b>	<b>Satellite Deployment, Station-Keeping and Related Insurance Coverage .....</b>	<b>75</b>
	Introduction.....	75
	Key Developments in the Launch Services Industry .....	76
	Launch Operations.....	79
	The Future of Launch Systems and Station-Keeping .....	81
	Space Insurance and Risk Management .....	82
	Conclusions.....	83
<b>7</b>	<b>Key Business, Trade and Regulatory Issues .....</b>	<b>85</b>
	Introduction.....	85
	Regulatory and Frequency Allocation Issues.....	85
	Global Trade Issues for Satellite Communications Services .....	86
	Technical Standards .....	87

---

Competitive Business and Strategic Issues .....	88
The Shift from “Wholesale” to “Retail” .....	89
The Shift from Technology to Applications .....	90
The Shift Toward Globally Integrated Services .....	90
Increased Scale of Operation .....	92
Conclusions .....	94
<b>8 The Future of Communications Satellites .....</b>	<b>95</b>
Introduction .....	95
Key Satellite Technology and Market Trends .....	95
Market Trends Related to Military and Defense-Related Satellite Services .....	98
New Trends in Mobile Satellite Service .....	100
Changing Market Demands and Sources of Revenue for Commercial Satellite Systems .....	101
Integration of Existing and New Global Telecommunications and IT Networks .....	103
Conclusions .....	104
<b>9 Top Ten Things to Know about Satellite Communications .....</b>	<b>105</b>
Introduction .....	105
Technology .....	105
Markets .....	108
Business and Finance .....	112
Trade and Regulatory Concerns .....	113
<b>Appendix 1 Key Terms and Acronyms .....</b>	<b>115</b>
<b>Appendix 2 Selected Bibliography and Books for Further Reading .....</b>	<b>119</b>
<b>Index .....</b>	<b>121</b>
<b>About the Author .....</b>	<b>125</b>

Satellite Communications

Pelton, J.N.

2012, VII, 126 p. 32 illus., 24 illus. in color., Softcover

ISBN: 978-1-4614-1993-8
