

Contents

1	Mastering the Innovation Butterfly.....	1
	The Central Challenge: Managing “Living” Innovation.....	3
	Looking for Patterns and Shaping the Innovation Butterfly’s Path.....	5
	Leadership Opportunities in the Innovation Butterfly Age.....	6
	An Agile Chase: The Innovation Butterfly in the Videogame Industry	7
	Scaling.....	8
	Recognizing Innovation Butterflies While They Are Still Controllable.....	8
	Agile Portfolio Planning and Execution (or, Maneuvers by Nintendo and Competitors).....	9
	Culture: Empowering Creative Leadership.....	10
	Lessons from the Wii: The Innovation Butterfly Never Sleeps	10
	Know-How, Tools, and Leadership.....	11
	Understanding Complexity and the Evolution of Innovation Butterflies.....	12
	Agile Tools for Managing Complexity	14
	Information Scaling Through Analytics	15
	Planning Using Maneuver-Oriented Competition	17
	Modularizing Risk and Plug-and-Play Processes	20
	Innovation Leadership and Culture.....	21
	The Risk of the Innovation Butterfly	23
 Part I Understanding the Nature of Innovation Butterfly		
2	Escalation of Expectations over Past Performance:	
	Complexity Arises When You Try to Please Customers.....	29
	Evolution of Complexity.....	32
	Embedded Complexity.....	35

3 Principle of Exchange: All You Ever Do Is Exchange One Set of Problems for Another	43
Structural Complexity: Connectedness.....	44
Unintended Consequences	49
4 Providential Behavior: Take Care of Your Own Interests	53
Free Will	55
Alternative Perspectives and Biases.....	56
The Estimation Dance.....	58
Foresight and Negotiation	60
Scope Creep and Other Pathologies.....	63
Multiple Projects: Determinism	64
Multiproject Pathologies	67

Part II Agile Product and Portfolio Planning

5 Agility and Maneuver-Driven Competition: Recognize Patterns and Adapt Projects and Portfolios	73
The Agility Manifesto.....	75
Agility Primer	77
Case: Video Game Development	79
Extending Agile Processes to Multiproject Development	81
Agile Portfolio Management Cycle: SROM	82
Scout	82
Roadmap	83
Orchestrate	84
Maneuver	85
Scouting Again.....	86
6 Modularizing Portfolio Risk: Install Firewalls to Prevent Runaway Effects	87
Case: Technology Roadmap at World Motors	88
The Paralyzing Curse of the Project Domino Effect.....	89
Capability Interactions	91
Accounting for Disparate Types of Capabilities	93
Managing Capabilities Under Emergence	94
Beyond Playing Pool: Back to the SROM Cycle.....	97
Chain of Interactions in a Portfolio: Buffering	97
Modularizing Capabilities.....	99
Cross-Training Personnel.....	100
Modular Actions and Management of Risk	101
Embedding Contingent Capabilities in Artifacts	102
7 Plug-and-Play Capabilities: Secure Technologies, Staff, and Processes on Demand to Support Innovation	105
Case Study: Staffing and Shared Processes at MedDev	106
Aggregate Workforce Planning.....	110
Technology Leverage	114

Part III Agile and Distributed Leadership

8 The Leader as an Architect: The Architect Must Be a Prophet	121
Exploiting Emergent Scientific Capabilities	121
Creating Vision	122
Designing for Adaptability: Platforms and Modular Options.....	123
Dealing with Unavoidable Interdependence	124
Understanding and Accounting for Stakeholder Aspirations	126
Leveraging Information Technology and Analytics	126
Summary	127
9 Leader as a Ship's Captain: To Go as far as a Man Can Go	129
Orchestration Through Discretion in Command.....	130
Planning for the Unknown	131
Scouting	131
Personnel Selection and Oversight	132
Improvisation Through Delegation	133
Impact of Information Technology	134
Summary	135
10 Leader as a Coach: It's not About Talent, It's About	
How the Team Plays.....	137
Capability Planning and Modularizing Risk.....	139
Creating a Successful Culture.....	140
Care and Feeding of the Innovation Worker	141
Preparation Breeds Execution and Execution Breeds Success	142
Implications for Innovation Management.....	142
11 Epilogue	145
Appendix A Analytics (Tracking Task, Project, Pipeline,	
and Portfolio Risks).....	151
A.1 Interdependence and Risk Within a Single Project.....	151
A.2 Road Mapping, Triggers and Sequencing	157
A.3 Stage-Wise Risk Within a R&D Pipeline.....	158
A.4 Aggregate Evolution of Portfolio Risk	162
Appendix B Scenario Planning and Simulation	165
B.1 Scenario Planning Steps	166
B.2 Simulation: Group Model Building and Gaming.....	167
Appendix C A Glossary of Complexity Terms	169

The Innovation Butterfly
Managing Emergent Opportunities and Risks During
Distributed Innovation

Anderson Jr., E.G.; Joglekar, N.R.

2012, XII, 176 p., Hardcover

ISBN: 978-1-4614-3130-5
