

# Contents

<b>1</b>	<b>Science Was the Meaning of His Life .....</b>	<b>1</b>
1.1	Beginning: Education and the Path to Big Science .....	1
1.2	First Supercomputer Complexes and Parallel Computations ....	13
1.3	Solid Foundation for Computer Technologies .....	22
<b>2</b>	<b>Optimization Methods and Their Efficient Use .....</b>	<b>29</b>
2.1	General Algorithm of Sequential Analysis of Variants and Its Application .....	30
2.2	Solution of Production–Transportation Problems and Development of Methods of Nondifferential Optimization .....	39
2.3	Problems in the Development and Use of Systems Analysis Methods .....	58
2.4	Stochastic Optimization Methods .....	65
2.5	Discrete Optimization Methods .....	81
2.6	Results in Applied Systems Analysis and Professional Training in this Field .....	93
<b>3</b>	<b>Mathematical Modeling and Analysis of Complex Processes on Supercomputer Systems .....</b>	<b>107</b>
3.1	Optimization Methods and Control of Complex Processes ....	107
3.2	Mathematical Modeling of Processes in Soil .....	119
3.3	Optimization of Computations and Information Security .....	132
3.4	Mathematical Modeling and Optimization of Wave Processes in Inhomogeneous Media .....	140
3.5	Computer Technologies and Analysis of Biological Processes .....	149
3.6	Economic Problems of Transcomputational Complexity .....	156

<b>4 Problems of Modeling and Analysis of Processes in Economic Cybernetics</b> .....	161
4.1 Modeling of Transition Economy .....	161
4.2 Econometric Modeling for the Study of Market Transformation .....	167
4.3 Approaches to the Creation of Information Technologies for Energy Saving in the Economy of Ukraine .....	170
<b>5 Analyzing the Solution of Complicated Combinatorial Problems</b> .....	187
5.1 Applying Optimization Methods to Solve Economic Problems .....	189
5.2 Methods to Solve Extremum Problems on Graphs and Combinatorial Configurations .....	195
5.3 Problems of Constructing Discrete Images and Combinatorial Recognition .....	201
5.4 Number Graph Theory .....	204
5.5 Theory of Mathematical Safes .....	207
<b>Afterword</b> .....	211
<b>References</b> .....	213
<b>Index</b> .....	223

Methods of Optimization and Systems Analysis for  
Problems of Transcomputational Complexity

Sergienko, I.V.

2012, XIV, 226 p., Hardcover

ISBN: 978-1-4614-4210-3
