

# Contents

<b>1</b>	<b>Theoretical Basis of Complex Economy . . . . .</b>	<b>1</b>
1.1	Complex Economies as a New Branch of Economics and Mathematical Simulation . . . . .	1
1.2	Basic Concepts of the TFCV . . . . .	6
1.3	Axiomatic Core of the Theory of the Complex Economy . . . . .	14
1.4	Basic Model of a Complex Economy . . . . .	16
1.5	Some Data on Minkowsky's Geometry . . . . .	21
1.6	Laplace Transform . . . . .	23
	References . . . . .	26
<b>2</b>	<b>Properties of Complex Numbers of a Real Argument and Real Functions of a Complex Argument . . . . .</b>	<b>27</b>
2.1	General Problem of Conformal Mapping in Complex-Valued Economics . . . . .	27
2.2	Complex Functions of a Real Argument . . . . .	28
2.3	Functions of a Complex Argument: Linear Function . . . . .	42
2.4	Power Function of a Complex Argument with a Real Exponent . . . . .	45
2.5	Exponential Function of Complex Argument with Imaginary Exponent . . . . .	50
2.6	Power Function of Complex Argument with Complex Exponent . . . . .	53
2.7	Exponential Function of a Complex Argument . . . . .	55
2.8	Logarithmic Function of a Complex Argument . . . . .	59
	References . . . . .	62
<b>3</b>	<b>Conformal Mappings of Functions of a Complex Variable . . . . .</b>	<b>63</b>
3.1	Power Functions of a Complex Variable . . . . .	63
3.2	Exponential Functions of Complex Variables . . . . .	75

3.3	Logarithmic Functions of Complex Variables . . . . .	78
3.4	Zhukovsky's Function and Trigonometric Complex Functions . . . . .	83
	References . . . . .	86
<b>4</b>	<b>Principles of Complex-Valued Econometrics . . . . .</b>	<b>87</b>
4.1	Statistics of Random Complex Value: Standard Approach . . . . .	87
4.2	Method of Least Squares of Complex Variables: Standard Approach . . . . .	90
4.3	Correlation Analysis of Complex Variables: Contradictions of the Standard Approach . . . . .	95
4.4	Consistent Axioms of the Theory of Mathematical Statistics of Random Complex Variables . . . . .	101
4.5	Least-Squares Method from the Point of View of the New Axiomatic Theory . . . . .	103
4.6	Complex Pair Correlation Coefficient . . . . .	112
4.7	Interpretation of Values of Complex Pair Correlation Coefficient . . . . .	114
4.8	Assessments of Parameters of Nonlinear Econometric Models of Complex Variables . . . . .	119
4.9	Assessment of Confidence Limits of Selected Values of Complex-Valued Models . . . . .	128
4.10	Balancing Factor in Evaluating the Adequacy of Econometric Models . . . . .	135
	References . . . . .	142
<b>5</b>	<b>Production Functions of Complex Argument . . . . .</b>	<b>143</b>
5.1	Fundamentals of Production Functions of a Complex Argument . . . . .	143
5.2	Linear Complex-Valued Model of a Complex Argument and Multicollinearity . . . . .	146
5.3	Linear Production Function of a Complex Argument . . . . .	155
5.4	Power Production Function . . . . .	164
5.5	Exponential Production Function of Complex Argument . . . . .	172
5.6	Logarithmic Production Function of Complex Argument . . . . .	175
5.7	Summary . . . . .	179
	References . . . . .	180
<b>6</b>	<b>Production Functions of Complex Variables . . . . .</b>	<b>181</b>
6.1	General Provisions of the Theory of Production Functions with Complex Variables . . . . .	181
6.2	Linear Production Function of Complex Variables . . . . .	185
6.3	Model of Power Production Function of Complex Variables with Real Coefficients . . . . .	194

6.4	Power Production Complex-Valued Functions with Real Coefficients of the Diatom Plant and Russian Industry . . . . .	201
6.5	Coefficients of Elasticity of the Complex Exponential Production Function with Real Coefficients . . . . .	207
6.6	Power Production Function of Complex Variables with Complex Coefficients . . . . .	216
6.7	Logarithmic Production Function of Complex Variables . . . . .	221
6.8	Exponential Production Function of Complex Variables . . . . .	226
6.9	Summary . . . . .	229
	Reference . . . . .	232
<b>7</b>	<b>Multifactor Complex-Valued Models of Economy . . . . .</b>	<b>233</b>
7.1	General Provisions of Complex-Valued Model Classification . . . . .	233
7.2	Linear Classification Production Function . . . . .	237
7.3	Classification Production Function of Cobb-Douglas Type . . . . .	242
7.4	Elasticity and Other Characteristics of a Classification Production Complex-Valued Function . . . . .	246
7.5	Classification Power Production Function . . . . .	256
7.6	The Shadow Economy and Its Modeling by Means of Complex-Valued Functions . . . . .	259
7.7	Formation of Complex, Multifactor Models of Complex Variables . . . . .	264
7.8	Summary . . . . .	267
<b>8</b>	<b>Modeling Economic Conditions of the Stock Market . . . . .</b>	<b>269</b>
8.1	Stock Market Indexes . . . . .	269
8.2	Phase Plane and $K$ -patterns . . . . .	282
8.3	Mathematical Models of $K$ -Patterns . . . . .	287
	References . . . . .	290
<b>9</b>	<b>Modeling and Forecasting of Economic Dynamics by Complex-Valued Models . . . . .</b>	<b>291</b>
9.1	Ivan Svetunkov's Model for Short-Term Forecasting . . . . .	291
9.2	Complex-Valued Autoregression Models . . . . .	296
9.3	Solow's Model of Economic Dynamics and Its Complex-Valued Analog . . . . .	301
9.4	Modeling Regional Socioeconomic Development . . . . .	304
9.5	Conclusion . . . . .	316
	References . . . . .	318

Complex-Valued Modeling in Economics and Finance

Svetunkov, S.

2012, XII, 320 p.,

ISBN: 978-1-4614-5876-0
