ST Elevation Myocardial Infarction.....	23
Thrombolytic Therapy	23
Primary Percutaneous Coronary Intervention in Acute Myocardial Infarction.....	25
Adjunctive Therapies in STEMI	27
Non-ST Elevation Myocardial Infarction	33
Antiplatelet Therapy	34
Anticoagulant Therapy.....	35
Glycoprotein IIb/IIIa Antagonists.....	36
Interventional Management	36
Complications of Acute Myocardial Infarction	38
Postinfarction Ischemia.....	38
Ventricular Free Wall Rupture	39
Ventricular Septal Rupture	39
Acute Mitral Regurgitation	39
Right Ventricular Infarction	40
Cardiogenic Shock	41
References.....	45
3 Arrhythmias	51
Introduction.....	51
Arrhythmia Diagnosis.....	51
Basic Principles.....	51
Classification of Arrhythmias	52
Rhythm Diagnosis.....	52
Atrial Fibrillation	53
Etiology and Pathophysiology	53
Clinical Features	55
Therapy.....	55
Supraventricular Tachycardia.....	61
Sinus Tachycardia	61
Focal (Ectopic) Atrial Tachycardia	62
Multifocal Atrial Tachycardia.....	63
AV Nodal Reentry Tachycardia	63
Atrioventricular Reciprocating Tachycardia	64
Junctional Tachycardia.....	67
Ventricular Tachycardia	68
Torsade de Pointes	70
Long QT Syndrome	71
Arrhythmogenic Right Ventricular Dysplasia.....	72
Brugada Syndrome.....	73
Bradycardias	73
References.....	77

4 Hypertension	81
Etiology and Pathophysiology	81
Diagnosis	82
Therapy	83
Compelling Indications	85
References	87
5 Congestive Heart Failure	91
Definition and Epidemiology	91
Pathophysiology	92
Diagnosis	94
Therapy	96
Treatment Goals	96
General Measures	96
Pharmacologic Therapy	97
Diuretics	97
Nitrates	98
Angiotensin-Converting Enzyme Inhibitors	99
Angiotensin Receptor Blockers	99
Aldosterone Antagonists	100
Beta Blockers	101
Hydralazine	102
Nesiritide	102
Digoxin	103
Inotropic Agents	103
Arrhythmias	104
Cardiac Resynchronization	105
Overview	106
Diastolic Heart Failure	107
Definition	107

Cardiology in Family Practice

A Practical Guide

Hollenberg, S.M.; Heitner, S.

2012, XII, 159 p. 18 illus., 9 illus. in color., Softcover

ISBN: 978-1-61779-384-4

A product of Humana Press
