

Contents

Part I Basics of the Cytoskeleton

1 ACTIN	3
Vera Dugina, Richard Arnoldi, Paul A. Janmey and Christine Chaponnier	
2 Microtubules	29
Pavel Dráber and Eduarda Dráberová	
3 The Kinesin Superfamily	55
Linda Wordeman	
4 Basics of the Cytoskeleton: Myosins	73
Omar A. Quintero, Judy E. Moore and Christopher M. Yengo	

Part II Actin and Disease

5 The Actin Cytoskeleton and Membrane Organisation in T Lymphocytes	103
Rhea Cornely, Thomas Grewal and Katharina Gaus	
6 Thin Filament Diseases of Striated Muscle	123
Anthony J. Kee and Edna C. Hardeman	
7 Filamins and Disease	141
Stephen P. Robertson and Philip B. Daniel	
8 LIM Kinase and Cancer Metastasis	159
Alice Schofield and Ora Bernard	
9 Actin Mutations and Deafness	169
Matías Morín, Fernando Mayo, Felipe Moreno and Miguel A. Moreno-Pelayo	

10 Therapeutic Targeting of the Actin Cytoskeleton in Cancer	181
Teresa Bonello, Jason Coombes, Galina Schevzov, Peter Gunning and Justine Stehn	
Part III Microtubules and Disease	
11 Microtubules as a Target in Cancer Therapy	203
April L. Risinger and Susan L. Mooberry	
12 Microtubules, Drug Resistance, and Tumorigenesis	223
Joshua A. McCarroll and Maria Kavallaris	
13 Posttranslational Modifications of Tubulin	241
Suzan K. Chao, Chia-Ping H. Yang and Susan Band Horwitz	
14 Stathmin and Cancer	259
Dominic Chi Hiung Ng and Frances Byrne	
15 The Biology and Pathobiology of Tau Protein	285
Garth F. Hall	
16 Tubulin-Related Malformations of Cortical Development	315
Xavier H. Jaglin, Jamel Chelly and Nadia Bahi-Buisson	
Part IV Intermediate Filaments and Disease	
17 Spectrins in Human Diseases	345
Marie-Christine Lecomte	
18 Laminopathies	375
Nadir M. Maraldi and Giovanna Lattanzi	
19 Desmin and Heart Disease	411
J. Scott Pattison and Jeffrey Robbins	
20 Neurodegenerative Diseases and Intermediate Filaments	425
Rodolphe Perrot and Jean-Pierre Julien	
Index	449
