## Part I Centrosomes in Reproduction

<b>1</b>	<b>Centriole Duplication and Inheritance in <i>Drosophila melanogaster</i> . . . . .</b>	<b>3</b>
	Tomer Avidor-Reiss, Jayachandran Gopalakrishnan, Stephanie Blachon and Andrey Polyanovsky	
<b>2</b>	<b>Sperm Centrioles and Their Dual Role in Flagellogenesis and Cell Cycle of the Zygote. . . . .</b>	<b>33</b>
	Hector E. Chemes	
<b>3</b>	<b>Centrosomal Functions and Dysfunctions in Cat Spermatozoa . . .</b>	<b>49</b>
	Pierre Comizzoli and David E. Wildt	
<b>4</b>	<b>Nuclear–Centrosome Relationships During Fertilization, Cell Division, Embryo Development, and in Somatic Cell Nuclear Transfer Embryos . . . . .</b>	<b>59</b>
	Heide Schatten and Qing-Yuan Sun	
<b>5</b>	<b>Human Centrosomal Dynamics During Gametogenesis, Fertilization, and Embryogenesis and Its Impact on Fertility: Ultrastructural Analysis . . . . .</b>	<b>73</b>
	A. Henry Sathananthan	
<b>6</b>	<b>Asymmetric Centrosome Behavior in Stem Cell Divisions . . . . .</b>	<b>99</b>
	Therese M. Roth, Yukiko M. Yamashita and Jun Cheng	

## **Part II Cell and Molecular Biology of Centrosomes**

- 7 Functional Associations Between the Golgi Apparatus and the Centrosome in Mammalian Cells . . . . .** 113  
Breanne Karanikolas and Christine Sütterlin
- 8 Many Pathways to Destruction: The Role of the Centrosome in, and Its Control by Regulated Proteolysis. . . . .** 133  
Harold A. Fisk
- 9 Regulation of the Centrosome Cycle by Protein Degradation . . . .** 157  
Suzanna L. Prosser and Andrew M. Fry
- 10 Molecular Links Between Centrosome Duplication and Other Cell Cycle-Associated Events. . . . .** 173  
Kenji Fukasawa
- 11 Regulation of Centrosomes by Cyclin-Dependent Kinases . . . . .** 187  
Rose Boutros

## **Part III Centrosome Abnormalities in Cancer**

- 12 Disruption of Centrosome Duplication Control and Induction of Mitotic Instability by the High-Risk Human Papillomavirus Oncoproteins E6 and E7 . . . . .** 201  
Nina Korzeniewski and Stefan Duensing
- 13 Centrosomes, DNA Damage and Aneuploidy . . . . .** 223  
Chiara Saladino, Emer Bourke and Ciaran G. Morrison
- 14 Centrosome Regulation and Breast Cancer . . . . .** 243  
Zeina Kais and Jeffrey D. Parvin
- 15 The Role of Centrosomes in Multiple Myeloma . . . . .** 255  
Benedict Yan and Wee-Joo Chng
- 16 Centrosomal Amplification and Related Abnormalities Induced by Nucleoside Analogs. . . . .** 277  
Ofelia A. Olivero
- 17 Mechanisms and Consequences of Centrosome Clustering in Cancer Cells. . . . .** 285  
Alwin Krämer, Simon Anderhub and Bettina Maier

**Part IV Centrosomes in Other Systems**

<b>18 Re-evaluation of the Neuronal Centrosome as a Generator of Microtubules for Axons and Dendrites . . . . .</b>	<b>309</b>
Peter W. Baas and Aditi Falnikar	
<b>19 Centrosomes and Cell Division in Apicomplexa . . . . .</b>	<b>327</b>
Leandro Lemgruber, Marek Cyrklaff and Freddy Frischknecht	
<b>20 The Centrosome Life Story in <i>Xenopus laevis</i> . . . . .</b>	<b>347</b>
Jacek Z. Kubiak and Claude Prigent	
<b>21 Role of the MTOC in T Cell Effector Functions . . . . .</b>	<b>365</b>
Martin Poenie, Laura Christian, Sarah Tan and Yuri Sykulev	
<b>22 Thoughts on Progress in the Centrosome Field . . . . .</b>	<b>385</b>
Jeffrey L. Salisbury	
<b>About the Author . . . . .</b>	<b>393</b>
<b>Index . . . . .</b>	<b>395</b>

The Centrosome  
Cell and Molecular Mechanisms of Functions and  
Dysfunctions in Disease

Schatten, H. (Ed.)

2012, XIV, 398 p., Hardcover

ISBN: 978-1-62703-034-2
