

# Contents

<b>1 Challenge 1: Placing Climate Actions in a Wider Sustainable Development Context</b> . . . . .	1
1.1 Why This Book? . . . . .	1
1.2 Climate Change as a Global Issue . . . . .	4
1.2.1 (Re)gaining the Urgency . . . . .	4
1.2.2 Climate Negotiations and Sustainable Development . . . . .	6
1.2.3 Inter-Dependencies Between Climate Change and Energy and Development Needs . . . . .	7
1.3 Short History of Climate Negotiations . . . . .	9
1.3.1 Increasing Climate Change Awareness During the 1980s . . . . .	9
1.3.2 United Nations Framework Convention on Climate Change . . . . .	10
1.3.3 The Kyoto Protocol . . . . .	11
1.3.4 Towards a Post-2012 Agreement . . . . .	12
1.3.5 Cancun Agreements: From Targets to Pledges . . . . .	13
1.3.6 Increased Focus on Low-Emission Development Strategies . . . . .	15
1.4 The Way Forward . . . . .	17
1.4.1 Why Is a Global Climate Policy Approach Necessary? . . . . .	17
1.4.2 Aligning Climate Policies with Development Policies . . . . .	18
1.4.3 Stimulating Low-Emission Development Through Technology Transfer and Innovation . . . . .	19
1.5 Meeting the Challenge: An Integrated Approach to Sustainable Development and Climate Change for Global Concerted Action . . . . .	22
References . . . . .	23

<b>2</b>	<b>Challenge 2: Integrating Sustainable Development and Technology Transfer Needs</b>	29
2.1	Challenge 2: Introduction	29
2.2	Engagement of Developing Countries Through Sustainable Development and Poverty Alleviation	30
2.3	The Role of Technology Transfer	33
2.3.1	Why is Technology Important?	33
2.3.2	Negotiation Context for Technology Needs Assessments	34
2.3.3	Starting the Process	36
2.4	Key Steps in the New Technology Needs Assessment	37
2.4.1	Overview of Steps	37
2.4.2	What is Different in the ‘New’ TNA Process?	39
2.5	Assessing Technology Needs: How Does It Work?	44
2.5.1	Organising the Process	44
2.5.2	Awareness Building and Identifying Development Priorities	45
2.5.3	Prioritising Technologies for Strategic Sectors	47
2.5.4	Comparison with Cost Curves for Prioritisation	52
2.6	Meeting the Challenge: Transferring Technologies and Measures for Maximum Climate and Sustainable Development Benefits	55
	References	56
<b>3</b>	<b>Challenge 3: Creating Low-Emission and Climate-Resilient Strategies to Accelerate Innovation for Sustainable Development</b>	59
3.1	Challenge 3: Introduction	59
3.2	Technology Development and Transfer	61
3.2.1	Introduction	61
3.2.2	Context for TNA System Approach for Innovation Strategy Generation	63
3.3	Designing Strategies and Action Plans for Accelerated Innovation at Technology, Sector and National Levels	67
3.3.1	Exploring Existing National Systems: Market Mapping	68
3.3.2	Mapping for Technology Transfer: Case Study Kenya	69
3.3.3	Common Blockages Identified in the ENTTRANS Case Study Workshops	73
3.4	Generating the Strategy and Action Plan	73
3.4.1	Strategies and Action Plans in the New TNA Process	74
3.4.2	Comparing TNA with Low Carbon Development Strategies	78

3.5 Meeting the Challenge: Strategies and Action Plans to Accelerate Innovation for Climate and Sustainable Development Goals . . . . .	81
References . . . . .	81
<b>4 Challenge 4: Realising the Promise—Rationalising the Current Directions in International Climate Policy Making . . . . .</b>	<b>85</b>
4.1 Challenge 4: Introduction . . . . .	85
4.2 Supporting and Delivering the Cancun Agreements . . . . .	86
4.2.1 Overview of New Provisions and Mechanisms . . . . .	86
4.2.2 Delivering NAMAs and NAPs . . . . .	87
4.2.3 Delivering an LEDS . . . . .	90
4.2.4 Comparison Across the Cancun Provision . . . . .	91
4.2.5 Harmonisation Across Processes . . . . .	91
4.3 Supporting Climate and Development Goals Through the Technology Mechanism . . . . .	94
4.3.1 Interaction of Technology Mechanism with TNA & LEDS: Supporting the TEC to Acquire a Larger Picture . . . . .	94
4.3.2 Interaction of the CTCN with TNA and LEDS . . . . .	99
4.4 Possible Interlinkages Between TNA and LEDS and Capacity Building for Mitigation and Adaptation in Developing Countries . . . . .	101
4.5 Delivering the Promise of the Cancun Agreements . . . . .	103
4.5.1 Potential for Coherent Action Under Cancun Agreements . . . . .	103
4.5.2 Integration Options . . . . .	104
4.6 Meeting the Challenge: Supporting Strategies for Climate and Development in a Climate Policy Regime . . . . .	106
References . . . . .	108
<b>5 Challenge 5: Financing Technologies and Actions for Climate and Development . . . . .</b>	<b>111</b>
5.1 Challenge 5: Introduction . . . . .	111
5.2 Scaling Up Finance Initiatives for Mitigation and Adaptation . . . . .	113
5.2.1 Overall Finance Needs Identified . . . . .	114
5.2.2 Available Funding Under the UNFCCC for Mitigation and Adaptation . . . . .	116
5.3 Scaling Up Finance Initiatives for Realising Development Benefits . . . . .	125
5.3.1 Overview of Finance Patterns for Universal Energy Access . . . . .	125
5.3.2 Need for System Improvements for Universal Energy Access . . . . .	126

5.3.3	Effectiveness of Financial Initiatives in Supporting the Poor. . . . .	127
5.3.4	Overall Lessons from Aid Effectiveness . . . . .	129
5.3.5	Discussion on Implications for Accelerating Low-Emission Strategies . . . . .	131
5.4	Towards Integrating Funding Strategies for Climate and Development. . . . .	132
5.4.1	Funding Needs for an Innovation Strategy . . . . .	132
5.4.2	Interplay Between Private and Public Funds for Technology and Innovation Support Financing . . . . .	133
5.4.3	An Integrated Finance and Innovation Strategy. . . . .	137
5.5	Meeting the Challenge: Integrated Funding Strategies for Climate and Development Innovation . . . . .	138
	References . . . . .	140
<b>6</b>	<b>Summary of the Challenges and Solutions . . . . .</b>	<b>145</b>
6.1	Introduction . . . . .	145
6.2	Placing Climate Actions in a Wider Sustainable Development Context . . . . .	146
6.2.1	The Challenge . . . . .	146
6.2.2	Key Messages. . . . .	147
6.3	Towards Strategies for Climate and Development for a Green Revolution. . . . .	148
6.3.1	The Challenges. . . . .	148
6.3.2	Key Messages. . . . .	149
6.4	Rationalising Current Directions in International Climate Policy Making. . . . .	150
6.4.1	The Challenge . . . . .	150
6.4.2	Key Messages. . . . .	150
6.5	Financing Technologies and Actions for Climate and Development. . . . .	151
6.5.1	The Challenge(s). . . . .	151
6.5.2	Key Messages. . . . .	152
6.6	Moving Forward . . . . .	154
	References . . . . .	154
	<b>Appendix A: Lessons Learned from ‘Old’ TNA Process . . . . .</b>	<b>155</b>
	<b>Index . . . . .</b>	<b>157</b>
