<b>Preface</b>	xi
<b>1 Introduction</b>	1
<b>2 Burkholder's Method</b>	
2.1 Description of the technique	9
2.2 Further remarks	18
2.3 Integration method	21
2.4 Notes and comments	22
<b>3 Martingale Inequalities in Discrete Time</b>	
3.1 Weak type estimates, general case	23
3.2 Weak type estimates for nonnegative $f$	50
3.3 $L^p$ estimates	53
3.4 Estimates for moments of different order	59
3.5 Nonnegative martingales	67
3.6 Logarithmic estimates	71
3.7 Inequalities for bounded martingales	78
3.8 Inequalities for nonsymmetric martingale transforms	88
3.9 On optimal control of martingales	97
3.10 Inequalities for weakly dominated martingales	111
3.11 UMD spaces	120
3.12 Escape inequalities	130
3.13 The dyadic case and inequalities for the Haar system	136
3.14 Notes and comments	138
<b>4 Sub- and Supermartingale Inequalities in Discrete Time</b>	
4.1 $\alpha$ -strong differential subordination and $\alpha$ -subordination	143
4.2 Weak type estimates for general sub- or supermartingales	146
4.3 Weak type inequalities for nonnegative sub- and supermartingales	154
4.4 Moment estimates for submartingales	160

4.5	Moment estimates for supermartingales . . . . .	167
4.6	Logarithmic estimates . . . . .	170
4.7	Inequalities for bounded sub- and supermartingales . . . . .	183
4.8	On the optimal control of nonnegative submartingales . . . . .	199
4.9	Escape inequalities . . . . .	208
4.10	Notes and comments . . . . .	209
<b>5</b>	<b>Inequalities in Continuous Time</b>	
5.1	Dominations in the continuous-time case . . . . .	211
5.2	Inequalities for stochastic integrals and Bichteler's theorem . . .	214
5.3	Burkholder's method in continuous time . . . . .	216
5.4	Inequalities for continuous-time martingales . . . . .	227
5.5	Inequalities for continuous-time sub- and supermartingales . . .	236
5.6	Inequalities for smooth functions on Euclidean domains . . . . .	241
5.7	Notes and comments . . . . .	243
<b>6</b>	<b>Inequalities for Orthogonal Semimartingales</b>	
6.1	Orthogonality and modification of Burkholder's method . . . . .	245
6.2	Weak type inequalities for martingales . . . . .	247
6.3	$L^p$ inequalities for local martingales . . . . .	252
6.4	Inequalities for moments of different order . . . . .	267
6.5	Logarithmic estimates . . . . .	272
6.6	Moment inequalities for nonnegative martingales . . . . .	273
6.7	Weak type inequalities for submartingales . . . . .	275
6.8	Moment inequalities for submartingales . . . . .	281
6.9	Inequalities for orthogonal smooth functions . . . . .	284
6.10	$L^p$ estimates for conformal martingales and Bessel processes . . .	285
6.11	Notes and comments . . . . .	292
<b>7</b>	<b>Maximal Inequalities</b>	
7.1	Modification of Burkholder's method . . . . .	295
7.2	Doob-type inequalities . . . . .	300
7.3	Maximal $L^1$ estimates for martingales . . . . .	308
7.4	Maximal $L^p$ inequalities . . . . .	323
7.5	Double maximal inequality . . . . .	334
7.6	Double maximal inequality for nonnegative martingales . . . . .	346
7.7	Bounds for one-sided maximal functions . . . . .	347
7.8	$L^p$ bounds for one-sided maximal function . . . . .	358
7.9	Burkholder's method for continuous-path semimartingales . . . .	368
7.10	Maximal bounds for continuous-path martingales . . . . .	372
7.11	A maximal bound for continuous-path supermartingales . . . . .	381
7.12	A maximal bound for continuous-path submartingales . . . . .	386

7.13	Notes and comments . . . . .	392
<b>8</b>	<b>Square Function Inequalities</b>	
8.1	Modification of Burkholder’s method . . . . .	393
8.2	Weak type estimates . . . . .	396
8.3	Moment estimates . . . . .	413
8.4	Moment estimates for nonnegative martingales . . . . .	420
8.5	Ratio inequalities . . . . .	423
8.6	Maximal inequalities . . . . .	427
8.7	Inequalities for the conditional square function . . . . .	435
8.8	Notes and comments . . . . .	444
	<b>Appendix</b>	
A.1	Confluent hypergeometric functions and their properties . . . . .	447
A.2	Parabolic cylinder functions and their properties . . . . .	447
	<b>Bibliography</b> . . . . .	451

Sharp Martingale and Semimartingale Inequalities

Osekowski, A.

2012, XII, 464 p., Hardcover

ISBN: 978-3-0348-0369-4

A product of Birkhäuser Basel
