

# Contents

## Part I General Concepts

<b>1</b>	<b>Introduction</b> .....	3
1.1	What Is Cinderella? .....	3
1.2	What Is New in Cinderella.2 .....	20
1.3	Technical Background .....	23
1.4	Installation and Updating .....	25
<b>2</b>	<b>Theoretical Background</b> .....	27
2.1	Problems in Interactive Geometry .....	27
2.2	Projective Geometry .....	30
2.3	Homogeneous Coordinates .....	31
2.4	Complex Numbers .....	32
2.5	Measurements and Complex Numbers .....	35
2.6	The Principle of Continuity .....	39
<b>3</b>	<b>Quick-Start Tutorials</b> .....	41
3.1	Pappus's Theorem .....	42
3.2	A Three-Bar Linkage .....	51
3.3	Kepler Ellipses .....	56
3.4	Scripting the Seeds of a Sunflower .....	58

## Part II Cinderella Reference

<b>4</b>	<b>Interactive Geometry with Cinderella</b> .....	67
4.1	The Main Menu .....	67
4.2	The Toolbars .....	69
4.3	General Tools .....	70
4.4	Move Mode .....	71
4.5	Interactive Modes .....	74
4.6	Definition Modes .....	84
4.7	Measurements .....	93
4.8	Special Modes .....	97
4.9	Conic Operations .....	110
4.10	Polygons .....	112
4.11	Geometries .....	114

4.12	Views .....	116
4.13	Transformation Modes .....	122
4.14	Setting a Basis .....	138
4.15	Iterated Function Systems .....	141
4.16	Transformation Groups .....	145
<b>5</b>	<b>The Inspector .....</b>	<b>153</b>
5.1	A General Overview .....	153
5.2	The Info Block .....	155
5.3	Inspecting Appearance .....	156
5.4	Traces, Arrows, Rendering .....	160
5.5	Controlling the Views .....	163

### Part III CindyLab Reference

<b>6</b>	<b>Introduction to CindyLab .....</b>	<b>167</b>
6.1	Simulating Masses and Forces .....	167
6.2	Cinderella and Physics .....	169
6.3	CindyLab and CindyScript .....	170
6.4	The Elements of CindyLab .....	172
6.5	Starting a Physics Simulation .....	173
6.6	The Environment .....	174
<b>7</b>	<b>CindyLab Objects .....</b>	<b>175</b>
7.1	Free Mass .....	175
7.2	Velocity .....	178
7.3	Gravity .....	180
7.4	Sun .....	183
7.5	Magnetic Field .....	185
7.6	Rubber Band .....	187
7.7	Spring .....	189
7.8	Coulomb Force .....	194
7.9	Floor .....	194
7.10	Bouncer .....	196
7.11	Environment .....	197
7.12	Many-Particle Systems .....	201
7.13	Animations and CindyLab .....	205
7.14	Geometry and CindyLab .....	208
7.15	Scripting Physical Environments .....	212

### Part IV CindyScript Reference

<b>8</b>	<b>CindyScript Fundamentals .....</b>	<b>219</b>
8.1	General Concepts of CindyScript .....	220
8.2	Entering Program Code .....	225
8.3	Variables and Functions .....	229
8.4	Accessing Geometric Elements .....	234
<b>9</b>	<b>Programming .....</b>	<b>243</b>
9.1	Control Operators .....	243

9.2	Arithmetic Operators	248
9.3	Boolean Operators	253
9.4	String Operators	257
9.5	String Comparison and Sorting	261
<b>10</b>	<b>Lists and Linear Algebra</b>	<b>263</b>
10.1	Using Lists in CindyScript	263
10.2	Elementary List Operations	265
10.3	Advanced List Operations	268
10.4	Lists of Geometric Elements	271
10.5	Vectors and Matrices	271
<b>11</b>	<b>Drawing</b>	<b>281</b>
11.1	Appearance of Objects	282
11.2	Elementary Drawing Functions	285
11.3	Function Plotting	291
11.4	Texts and Tables	309
11.5	TeX Rendering	313
11.6	Image Manipulation and Rendering	322
11.7	Shapes	336
11.8	The Coordinate System of CindyScript	340
11.9	The Appearance and Basis Stack	344
11.10	Layers	344
<b>12</b>	<b>Geometric Operators</b>	<b>349</b>
12.1	Lists and Coordinates	349
12.2	Elementary geometric operators	349
12.3	Useful Linear Algebra Operators	351
12.4	Conversion and Typing	351
12.5	Geometric Transformations and Bases	352
<b>13</b>	<b>Calculus</b>	<b>355</b>
13.1	Derivatives and Tangents	355
13.2	Advanced calculations	357
<b>14</b>	<b>Music Support: Syntherella</b>	<b>361</b>
14.1	MIDI Functions	362
14.2	Single Tones	366
14.3	Melodies	367
14.4	Sound characteristics	373
14.5	Three Little Pieces	375
14.6	Sampled-Audio Functions	377
<b>15</b>	<b>Special Operators</b>	<b>381</b>
15.1	Interaction with Geometry	381
15.2	File Management	385
15.3	Console Output	388
15.4	Timing and Animations	389
15.5	User Input	391
15.6	Interaction with CindyLab	394

15.7	Entering CindyScript Code .....	395
<b>16</b>	<b>Tiny Code Examples .....</b>	<b>401</b>
<b>Part V Advanced Topics</b>		
<b>17</b>	<b>Copy, Paste and Macros .....</b>	<b>415</b>
17.1	Copy/Paste .....	415
17.2	Redefine .....	417
17.3	Creating own Tools .....	418
<b>18</b>	<b>Creating Interactive Webpages .....</b>	<b>419</b>
18.1	Glossary .....	419
18.2	Exporting Plain Examples .....	420
18.3	Exporting Animations .....	421
18.4	Creating Interactive Exercises .....	422
18.5	Post-Processing .....	422
18.6	Legal Issues .....	422
<b>19</b>	<b>Scribbling .....</b>	<b>423</b>
19.1	Creating Elements .....	423
19.2	Gestures .....	425
19.3	Customizing the Scribble Mode .....	426
<b>20</b>	<b>Extensions .....</b>	<b>427</b>
20.1	Plugins .....	427
20.2	JavaScript .....	430
20.3	Interactive Exercises .....	433
20.4	Multitouch Support .....	438
20.5	Mathe-Vital .....	442
20.6	Visage: Visualization of Graph Algorithms .....	443
<b>Index .....</b>		<b>447</b>
<b>References .....</b>		<b>457</b>

The Cinderella.2 Manual

Working with The Interactive Geometry Software

Richter-Gebert, J.; Kortenkamp, U.H.

2012, XIV, 458 p. 377 illus., 300 illus. in color.,

Hardcover

ISBN: 978-3-540-34924-2
