1	Africa Background to Exuberance	1
1.1	Outline of Zoogeography	1
1.2	Species' Richness	5
1.3	The Abiotic Substrate and Its Vegetation	7
1.4	Animal and Plant Interactions	12
1.5	Extinctions	14
1.6	Refugia	15
1.7	Species' Richness Considered	18
1.8	Species' Diversity	19
1.9	Butterfly Speciation	20
1.10	Fish and Amphibian Diversity	21
1.11	Bird Diversity	22
1.12	Mammal Diversity	27
1.13	Herbivore Community Organization	30
1.14	Parasites and Diseases	33
1.15	Population Limitation	38
1.16	Stability or Chaos?	41
1.17	Do Population Cycles Exist?	45
1.18	Notes	53
Part I	The Abiotic Environment	55
2	The Changing Climate of Africa Part I: Introduction and Eastern Africa	57
2.1	Introduction	57
2.2	Rainfall	59
2.3	Recent Changes in Pattern	61
2.4	Desertification and Drought	62
2.5	High Rainfall	64
2.6	Historical World Climatic Change	64
2.7	Prehistoric to Historic Climatic Events	66

2.8	The Development of Human Influence	70
2.9	East African Climate	73
2.10	The Nile	76
2.11	The Nile Records	79
2.12	Lake Victoria	90
2.13	Lake Victoria and the Sunspot Cycle	94
2.14	Other East African Lakes	96
2.15	Rainfall, Lakes, and the Nile	103
2.16	East Africa's Vanishing Glaciers	105
2.16.1	The Rwenzoris	105
2.16.2	Mounts Kilimanjaro and Kenya	107
2.16.3	Causes of Ice Loss	117
2.17	East African Records	122
2.18	Effects of Historical to Present Climate in Eastern Africa	127
2.19	Ethiopian Famines	128
2.20	Sudan Famines	131
2.21	Uganda and Kenya Famines	132
2.22	Drought and Famine in Tanzania	138
2.23	Notes	140
3	The Changing Climate of Africa Part II:	
	West Africa and the Sahel	143
3.1	Introduction	143
3.2	Prehistoric to Historic Climate	148
3.3	The Rains in West Africa	152
3.4	Droughts, Floods, and Famines	154
3.4.1	The Coastal Region	154
3.5	The Inner Sahel	157
3.6	The Disappearing Lake Chad	162
3.7	The Niger Bend	174
3.8	The Sahel and Desertification	176
3.9	West Central Africa	179
3.10	Effects of Drought, Famine and Floods	180
3.11	Note	182
4	The Changing Climate of Africa Part III: Southern Africa	183
4.1	South Africa's Climate	183
4.2	Prehistoric to Historic Climate	183
4.3	Droughts, Floods, and Snow	186
4.4	The Cape Accounts	188
4.4.1	Droughts	188
4.4.2	Floods and Snow	191
4.4.3	Climatic Oscillations	194
4.5	Is South Africa Drying Up?	197
4.6	Drought in Botswana	201

4.7	Lake Ngami	210
4.8	The Kalahari	217
4.9	Effects of Drought	222
5	The Changing Climate of Africa Part IV: Its Effects	225
5.1	Changes in Rainfall Pattern	225
5.2	Changes in Temperature	229
5.3	Drought and Desertification	231
5.4	Climatic Change	237
5.5	Effects on Man	239
5.6	Ecological Effects	241
5.7	Non-equilibrium Ecology	242
5.8	Causes of Climate Change	244
5.9	Reversing the Changes	247
5.10	Notes	249
6	Fire Part I: Introduction and History	251
6.1	Introduction	251
6.2	Grasslands	252
6.3	Atmospheric Chemistry	253
6.4	Soil Changes	255
6.5	Extent of Burning	257
6.6	Fire as an Ecological Factor	259
6.7	Fire Behaviour	263
6.8	Plant Reactions	264
6.9	For and Against Burning	265
6.10	Naturally Occurring Fires	269
6.11	Ancient Fire History	271
6.12	African History	273
6.13	West Africa	276
	6.13.1 Hanno's Account	276
	6.13.2 Other Early West African Records	277
6.14	East Africa	281
6.15	Central and South Africa	287
6.16	Notes	291
7	Fire Part II: Effects and Ecology	293
7.1	Effects of Fire on Vegetation	293
	7.1.1 Forest Destruction	293
	7.1.2 Savannah	299
	7.1.3 Miombo	307
	7.1.4 Grazing and Burning	312
	7.1.5 Burning Experiments	314
7.2	Effects of Burning on Wild Animals	318
	7.2.1 Large Mammals	318
	7.2.2 Small Mammals	327

7.2.3	Birds and Reptiles	328
7.2.4	Invertebrates	329
7.3	Conclusion	334
7.4	Notes	338
Part II	The Floral Environment	339
8	Vegetation and Change: Introduction and Western Africa	341
8.1	Introduction	341
8.2	Early Agriculture	345
8.3	Shifting Cultivation	346
8.4	Destruction of the Western Islands' Vegetation	349
8.5	Climate Versus Man	351
8.6	The West African Coast	354
8.7	Habitat Destruction	358
8.8	Rainforest	360
8.9	Forests and Rainfall	362
8.10	West African Forests and Savannahs	373
8.11	The West African Forest-Savannah Mosaic	374
8.12	Country Histories	381
8.12.1	Introduction	381
8.12.2	Senegambia	382
8.12.3	Guinea	384
8.12.4	Sierra Leone	388
8.12.5	Liberia	394
8.12.6	Ivory Coast	395
8.12.7	Ghana (Gold Coast)	397
8.12.8	Togo	403
8.12.9	Benin (Dahomey) and Nigeria	407
8.12.10	Cameroun	408
8.12.11	Gabon	409
8.12.12	Cabinda	409
8.12.13	Congo Republic and Northern Angola	410
8.13	Forest Advance	410
8.14	Elephants	416
8.15	Notes	417
9	Vegetation and Change: Eastern and Southern Africa and Conclusion	419
9.1	Eastern Africa	419
9.1.1	Introduction	419
9.1.2	The Vegetation of East Africa	420
9.1.3	Deforestation	423
9.1.4	Soil Erosion	429
9.1.5	Four Case Histories	431

9.1.6	Visual Changes	440
9.2	Southern Africa	452
9.2.1	Introduction	452
9.2.2	Early History of Cape Conditions	455
9.2.3	Overgrazing	457
9.2.4	Increasing Desiccation	459
9.2.5	Concern for the Karoo	463
9.2.6	Forest Destruction	467
9.2.7	Changes in Botswana	470
9.2.8	Elephants and Change	471
9.2.9	Visual Changes	472
9.3	Conclusion to Vegetation and Change	472
9.4	Notes	477
Part III	Abundance of Populations	479
10	Locusts the Forgotten Plague Part I: Locusts and Their Ecology	481
10.1	Introduction	481
10.2	Biology	485
10.3	Swarming	486
10.4	Feeding	487
10.5	Flight	488
10.6	The Desert Locust	489
10.7	Desert Locust Breeding	493
10.8	Desert Locust Hoppers	497
10.9	Desert Locust Swarming	497
10.10	Desert Locust Movements	498
10.11	The Migratory Locust	500
10.12	The Red Locust	506
10.13	The Brown Locust	514
10.14	The Moroccan Locust	517
10.15	The Italian Locust	517
10.16	Tree Locusts	518
10.17	Locust Diseases and Predators	518
10.18	Locust Migration and Emigration	524
10.19	Why Do Plagues Occur?	525
10.20	Notes	531
11	Locusts the Forgotten Plague Part II: History of Locust Plagues	533
11.1	General History	533
11.1.1	The Years B.C.	533
11.1.2	The First to Tenth Centuries A.D.	535
11.1.3	The Eleventh to Seventeenth Centuries	537

11.1.4	The Eighteenth Century	540
11.1.5	The Nineteenth Century	542
11.2	Country Histories in Africa	545
11.2.1	North Africa and the Western Sahara	546
11.2.2	Senegal to Angola and the Hinterland	551
11.2.3	East Africa	555
11.2.4	Zambia	561
11.2.5	Zimbabwe	562
11.2.6	South Africa	562
11.3	Notes	569
12	Other Abundant Populations	571
12.1	Irruptions and Cycles: The Rodents	571
12.2	Historical Observations of Large Mammal Abundance	575
12.2.1	Southern Africa	575
12.3	The Springbok	576
12.4	Wildebeest	582
12.5	Hartebeest	588
12.6	Eland	588
12.7	Species' Decline	589
12.8	Eastern Africa	590
12.9	Wildebeest	592
12.10	The Boma Plateau Ecosystem	602
12.11	Lechwes	605
12.12	Buffalo	605
12.13	Conclusion to Migratory Species	612
12.14	Species' Decline	613
12.15	Notes	614
13	Too Many Hippopotamuses?	615
13.1	Introduction	615
13.2	The Area	616
13.3	Hippopotamus Biology	622
13.4	The "Problem"	626
13.5	Historical Records	629
13.6	The DR Congo Population	645
13.7	The Experiments	657
13.8	The Murchison Falls' Population	664
13.9	The Luangwa Valley Population	665
13.10	Conclusion	667
13.11	Notes	673
14	Too Many Elephants: A Continent-Wide Problem: Part I	675
14.1	Origins of Conflict East Africa	675
14.2	Biology and Social Structure of the Elephant	678
14.3	The Elephant "Problem"	680

14.4	Uganda's Elephants	689
14.4.1	North Bunyoro and West Acholi	689
14.4.2	Habitat Change	692
14.4.3	History of the Area	699
14.4.4	Queen Elizabeth National Park	707
14.4.5	Kidepo Valley National Park	709
14.5	Conclusion	712
14.6	Notes	713
15	Elephants: A Continent-Wide Problem Part II	715
15.1	Tanzania's Elephants	715
15.1.1	The Selous Game Reserve	716
15.1.2	The Ruaha National Park	718
15.1.3	Serengeti National Park and the Mara	722
15.1.4	Lake Manyara National Park	732
15.1.5	Tarangire National Park	740
15.1.6	Conclusion	743
15.2	Kenya's Elephants	744
15.2.1	Tsavo National Park	745
15.2.2	Fate of the Baobabs	749
15.2.3	Historical Records of Tsavo	761
15.2.4	Conclusion	772
15.3	Drought	773
15.4	Elephant Migration	774
15.5	Amboseli National Park	776
15.6	Notes	783
16	Elephants a Continent-Wide Problem: Part III	785
16.1	DR Congo	785
16.2	Zambia	786
16.3	Botswana	797
16.3.1	History of the Chobe Elephants	801
16.3.2	Dynamics of the Chobe Elephant Population	805
16.4	Elephant Exploitation	808
16.5	Notes	817
Part IV	Animal Parasites and Diseases	819
17	The Tsetse Fly I: Africa's Bane and Benefice	821
17.1	Introduction	821
17.2	Tsetse Fly Origins	826
17.3	Tsetse Fly Prehistory	827
17.4	Tsetse Fly Biology	833
17.5	Distribution	839

17.6	Feeding Preferences	841
17.7	Historical Distribution	847
17.7.1	West Africa	847
17.7.2	Central African Republic	851
17.7.3	Congo	851
17.7.4	Sudan	852
17.7.5	East Africa	855
17.7.6	Southern Africa	859
17.8	Conclusion	864
17.9	Notes	865
18	The Tsetse Fly II: Decline and Recovery	867
18.1	Decline of the Tsetse Fly	867
18.1.1	Southern Africa	867
18.2	Sudan and Uganda	876
18.3	Western Africa	877
18.4	Experiments with Game	879
